NEW WHEAT GLUT WILL BE WORST COUNTRIES TOLD

Act of God or Export Restriction Agreement Only Hope Is Forecast at International Grain Conference

By ALBERT W. WILSON Associated Press Foreign Staff LONDON, Eng., May 22—(AP)—A new crisis in wheat production more serious than that of 1935 unless an act of God or a new export restriction agreement intervenes was forecast in a report presented at the opening of the international wheat conference today.

The report was submitted by Andrew Cairns, ex-officio secretary of the world grain commission. Delegates of 15 nations, meeting under the chairmanship of Robert W. Bingham, U. S. ambassador, were present.

Salient features of Cairns' summary of present conditions and prospects were:

1. The world glut of stocks on August 1, despite the 1934 drought, will amount to 800,000,000 bushels, compared with the 1922-1928 average of 625,000,000 bushels.

2. European countries have slightly increased their acreage, their crop prospects are above normal and their tendency to self-sufficiency has greatly restricted the markets for the big exporters, the United States, Canada, Australia and Argentina.

3. While American exports next year should be comparatively small, future years are likely to increase the world's market problems.

4. Argentina and Australia probably will produce their carryovers to normal by August 1, but this favorable condition may be offset partly by some increase in production in Argentina, where acreage was reduced by only about 6 per cent in 1934.

5. Canada, which reduced acreage nearly 10 per cent last year, is expected to reduce another 3 per cent this year. Her August 1 carryover is estimated at 163,000,000 bushels.

6. Russia may have a slight increase in acreage but is not expected to become a leading exporter again for many years.

7. The average price of wheat imported into England during May has been 46 gold cents a bushel compared with the goal of 63 cents average for 16 weeks contemplated in the 1933 agreement as the basis for tariff reductions.

CONCESSION OPENS ST. HELENS PLANT; MORE ANTICIPATED

(Continued from Page One.) continued, "that the scale is five cents above the highest paid which was above the scale paid in a great many plants." He said the increase applies to all departments.

The agreement provides for an increase of eight cents an hour in the "treating plants" operated by mills. Muir announced.

Expect More. He stated further: "We are in touch with operators and we expect to close more agreements shortly."

The McCormick company is the third largest operator in the Pacific northwest where 40,000 men are out of work because of the prolonged and stifling lumber strike.

The announcement of agreement between the McCormick management and the union came simultaneously with a statement by Governor Martin that he has asked the state board of conciliation to take action in the strike immediately.

Notice. I will not be responsible for any debts incurred by anyone other than myself. ZENNA MATNEY.

Three Rescued In Oregon City Fire

OREGON CITY, Ore., May 22—(AP)—Neighbors rescued a fire and two small children from a maid yesterday after the flames had trapped them in their home. The near victim were Chester (Sonny) Douglas, Jr., 7, and Marion Douglas, 6, children of Mr. and Mrs. Chester Douglas, and Miss Siree Hagen of Willamette. Loss was estimated at \$550.

PRAISE, CRITICISM FOLLOW ON HEELS OF VETO MESSAGE

(Continued from Page One.) vetoing the Patman bill with notable clarity and force.

Senator Murphy (D., Ia.): "Not impressive in respect to statements regarding printing press money inasmuch as there would be a metallic reserve of 125 per cent as compared with 40 per cent after paying the bonus."

Senator Vandenberg (R., Mich.): "There were a few minor points to which I dissent, but in the main it was an able, invincible and unanswerable argument."

Senator McKellar (D., Tenn.): "Very excellent, even-tempered message."

Senator McCarrin (D., Nev.): "This bill is not inflation as there is about eight billion dollars in gold in the treasury to back the money that would be issued."

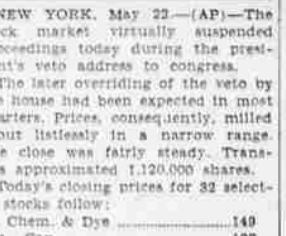

Senator Johnson (R., Calif.): "It was a strong, powerful and courageous message."

Senator Wheeler (D., Mont.): "A strong message, but we can pay the bonus with new money and still be on safe and sound ground."

Senator Harrison (D., Miss.), author of the compromise plan to pay the cash surrender value of the certificates in bonds or cash: "It was a sincere, well-tempered and able message."

Senator Tydings (D., Md.), said: "The speech is unanswerable."

Our Little Girl

Shirley Temple fans throughout the world thrilled with pleasure over the world awarded to her of a special statuette by the Academy of Motion Picture Arts and Sciences.

The 6-year-old screen sensation (she turned 6 this month) was singled out by this respected body for making the greatest contribution to pictures last year.

"Our Little Girl," which starts its local engagement tomorrow at the Craterian theater, is the first picture Shirley has made since the award. It goes without saying that her numerous fans following take pride in knowing that their love for the young screen star is backed by the academy.

The award came as a surprise and followed the distribution of the golden statuette voted by academy members to leading artists, producers, directors and writers.

Irvin S. Cobb, famous humorist who served as toastmaster, following the announcement which was greeted by an evocation, paid tribute to the talented youngster. He pointed out that she has "given the world one of its greatest gifts. She has made more children happy and made more children laugh than any child her age in the history of the world."

The baby started accepted her honors modestly, displaying the famous dimpled smile and bowing at the hundreds of film personalities.

BUTTER OFFERINGS HOLD PRICE DOWN

PORTLAND, Ore., May 22—(AP)—Market for butter continued to show a premium occasionally on the open market while the exchange continued its recently lowered prices on at least two grades. There was just enough butter offered on the exchange to keep the official price down in Portland.

There was no change in the egg market situation locally for the day. On the exchange recently forced higher values were continued while on the open market prices have in instances been on a better basis than on the exchange.

General steadiness was suggested for live chickens. The late decline in white hens and broilers was in line with other markets which were getting a liberal array of packing orders and therefore wanted to cut their costs. Heavy hens were steady, also colored broilers.
