## Mendenhall Wins Mail Tribune Trap Shoot Trophy Second Time

## SHOOT-OFF WITH SID NEWTON WON BY G. PASS STAR

Newton Wins Mendenhall Trophy and Elmer Wilson the Perl Trophy-McNelly Wins Wood \$10 Purse

For the second consecutive time, G. Mendenhall of Grants Pass, won the Mail Tribune trophy at the Medford Gun club traps yesterday, although Sid Newton, class B shooter, gare him a gallant race for that honor. The two stars were tled with 95-all out of a possible 100 on the first shoot. It took three extra frames to break the deadlock, the first shoot-off ending 24-24, the second

shoot-off ending 24-24, the second ending 25-25, and Mendenhall finally nosing out Newton 25-23. To Newton again goes the Menden-hall trophy, he also winning two years in a row. Elmer Wilson won the Perl South-ern Oregon trophy, which was shot for in the 50 target handleap. Score 4750. F. C. McNelly won the double

event with a score of 21x24. McNelly also won the special \$10 Chester Wood purse in the handicap. High gun trophy at skeet went to

## EVERY CITIZEN IS INTERESTED AND SHOULD ACT BEFORE IT IS TOO LATE

THE RAYBURN-WHEELER UTILITIES BILL now before the National Congress is not understood by the majority of citizens. It would mean the destruction of a great industry, performing useful work and contributing effective leadership toward industrial recovery and re-employment.

This proposed law really means the substitution of government owner-ship and political operation, with waste, inefficiency and favoritism bound to follow.

If the electric light and power industry is thus socialized, it would be easier to bring about political control of ALL industry-and this means YOUR industry and YOU.

The thousands of individual shareholders of this Company are being asked to exercise their rights as American citizens, and protest to their senators and Congressmen against socialism and the destruction of their investments. Many have done so and will repeat their letters and releganins,

We are now appealing to all fair-minded citizens to give this nestion serious and immediate thought, and to likewise protest to their elected representatives, if they believe as we do

The Edison Electric Institute is a national organization repre-senting over 75 per cent of both the holding and operating com-panies in the United States. It has issued a statement analyzing the Hayburn-Wheeler bill in plain language. If every clinent would read this statement, we believe that an avalanche of pro-tests would be sent to the President and Members of Congress,

#### Let Us Send You a Copy of This Statement at Once -Then Write or Wire Your President, Senators and Representatives - Prompt Action Is Necessary.

When you let your elected representatives hear from you, you are not trying to coerce them; you are letting them know the true state of public opinion; you are carrying out your duty as a

Here is what the Edison Electric Institute says about this Bill: It will put additional and unnecessary hardens upon con-sumers of electricity through duplicated and bureaucratic tederal control of operating compani HIGHER THAN THEY SHOULD BE.

It will hinder and relard the economic recovery of the nation. THAT MEANS LESS INDUSTRIAL OPERATIONS; LESS BUSINESS; FEWER JOBS.

It is destructive to the investment of millions of security holders in both the holding and operating componles. THAT MEANS INCOME FROM SAVINGS BY PROPLE OF SMALL MIANS: INSURANCE COMPANIES SAVINGS BANKS; TRUST FUNDS: RELIGIOUS, CHARITABLE AND EDUCATIONAL INSTITUTIONS.

Domination of local affairs by the federal government is the true purpose of the utilities bill, according to the institute, it proceeds to show why this is so. The facts are set forth so that anyone can understand. The end is socialized ownership: political dictatorship and control; stagnation of progress; the paralysis of individual hope and initiative.

State and local regulation of utilities would be mailified by

Instead of beinging about lower electric light and power rates, the effect of the policy back of the utilities bill would be to in-crease expenses, undermine present-day efficiency, prevent rate reduvilous and eventually lead to higher rates as natural economic

During the past few weeks scores of business men's organizations, investors leagues, industrial leaders, insurance companies, savings banks, investment banks, state public utility commissioners, and other organizations interested in protecting property and prosperity for the people, have apposed this bill before Congressional Committees.

Newspapers in large numbers have denounced it as contrary to public interest.

The gravity of this question, the popular lack of understanding out it, and its intimate hearing upon VOUR life and wellars, have induced us to call this statement to your attention,

Let Us Send You a Copy of the Edison Electric Institute Statement at once-Then write or wire your President, Senators and Representatives. You Must Act Promptly as attempts are being made to rush the Bill through Congress.
