FOWLER TO HEAD UNIFIED COUNTY EXTENSION PLAN

In the plan for the development of a co-ordinated horticultural research and extension service in Jackson county, County Agent Robert G. Fowler will have full charge of the extension program, with Dr. Henry Hartman of Oregon State College, acting as co-ordinator.

The program will provide for uniting work of the experiment station at Talent, and the Medford federal experiment station, in conducting studies of horticultural and agricultural problems, and making them available through the county agent's office.

Negotiations will soon be taken up with the county court relative to appointment of a successor to Lyle P. Wilcox, who resigned as county horticulturist to accept a similar position with the Southern Oregon Sales company. The appointee will serve as assistant to County Agent Fowler. This appointment is expected to be made before June 1.

The fruitgrowers League has been active in the work for a unified program and a committee will be selected by the directors of the league to assist in making the program effective.

Dr. Henry Hartman of the Oregon State College will act as co-ordinator in the development of a research program at the local experiment station, and aid in the dissemination of information to growers and farmers.

The unified program has long been considered vital by horticulturists and is made possible by the recent combination of the agricultural experiment station and the extension service at the Oregon State College.

THRILLS PLANNED IN MEMORIAL DAY AERIAL PROGRAM

Plans for the Memorial air show at the municipal airport here Thursday are going ahead apace, according to Tom Culbertson, airport manager. The show will be called the Barber-McKinney Memorial Air show, honoring Lt. Newell Barber, ace from Medford shot down during the World War, and "Red" McKinney, pilot well known here, who was killed at Teeterboro, N. J.

Roses will be sprinkled over the cemetery at high noon, honoring those two fliers. Many air stunts, culminating in a featured parachute "bullet" drop by Jerry "Diablo" Smith, will be held.

Smith has just received a renewal of his transport license, first issued to him in 1931. He is one of the most experienced jumpers in the game, having bailed out over 500 times, and before wing-walking was barred by the department of commerce, was one of the best in that field. He learned to fly in the plane that later killed McKinney.

One feature of the air show which is attracting considerable notice, is the "bombing" contest. Of course, bombs carrying real explosives will not be used, but ones which make a good show will be employed. A target in plain view will be at the airport, and each flier will get two shots, swooping over the field, and the one making the best hit winning the prize.

WHEAT RANCHERS FOR CONTINUANCE OF CONTROL PLAN

Jackson County Joins State and Nation in Favoring Four Years More of AAA Crop Adjustment

CORVALLIS, Ore., May 27.—(AP)—Oregon farmers added to the large national majority in favor of a continuance of the wheat adjustment program by voting more than 6 to 1 for the plan. Total ballots were for 4761, against 182. The tabulation included the 27 counties having wheat production control associations.

The final vote in Oregon was announced late Saturday by Charles W. Smith, emergency agricultural supervisor.

The question was: "Are you in favor of a wheat production adjustment program to follow the present one, which expires with the 1935 crop year?"

Present contract signers voted 4674 yes and 173 no. Non-signers voted 57 yes and 9 no.

The program was given a 27 to 1 vote of confidence in Umatilla county, with other large eastern Oregon counties also voting heavily in favor of it. The plan was carried in every one of the 27 counties.

FARMER-JURORS GIVEN ADDED TIME BY COURT TO FINISH FIELD WORK

"Strange as it may seem in these times, farmers are unable to procure help for haying and other farm work at wages offered," declared Circuit Judge H. D. Norton, from the bench this morning, at the opening of the May term of court. "Many jurors have asked to be excused so they may attend to their harvesting. Therefore, I have signed an order continuing all new criminal and civil trials for two weeks."

A special venire was drawn this morning, to provide petit jurors for the cases calendared. Nineteen of the 31 petit jurors called reported for duty this morning, at the opening of the new term.

The court said farm work was pressing at this time and help hard to employ at "going wages."

Minor legal matters were scheduled to occupy the court today. Tomorrow a petit jury will be drawn to hear the suit of L. R. Skelton against the Gold Hill Irrigation district, for alleged damages for the cutting down of a fir tree on the Skelton place, by the irrigation district in January, 1934. "Tribble damages," as provided by Oregon law, in such cases, are sought totalling \$1800.

STORAGE DEMAND BENEFITS BUTTER

PORTLAND, May 27.—(AP)—Demand for butter to move into storage finally forced a general advance in the cube price on the produce exchange with the exception of first grade, which was not wanted for that purpose. Butterfat price was therefore higher all along the line. Hence unwillingness of consumers to pay the former advance in the price in eggs has resulted in a
