

ELKS WILL GREET 'AMBASSADORS' AT BANQUET TONIGHT

Caravan Making Trek to National Convention Due Here at 6 P. M.—Parade Will Head Drive to Lodge

Medford Elks lodge received a telegram today from the Elks Good Will tour stating that the two-car unit of the caravan that is coming through Medford will arrive about 6 o'clock at the corner of Main street and Riverside, where the Elks band will meet it.

A parade will form and progress through the streets to the Elks temple, where dinner will be served at 6:30, followed by a program in which the two good-will ambassadors will furnish what promises to be unusually good entertainment. Those behind the wheels of the two Chevrolet good-will cars, bound for the Grand Lodge convention at Columbus, Ohio, are Richard F. Flood, Jr., and Al Rasmussen, both widely-known radio entertainers.

Boston baked beans and brown bread, beef, salad, coffee, ice cream and cake are on the menu for the banquet, which will be held in the basement of the Elks temple. The band will be present to lend an "air" to the celebration and the lodge members are promised a gala time. The banquet is for Elks and their out-of-town guests.

Chevrolet automobiles, Fisher bodies, and Goodrich tires are represented by the tour, which is composed of many units all speeding toward Columbus bearing messages of good will to Elks lodges enroute. Messrs. Flood and Rasmussen have been heralded along the way as royal entertainers and their Medford visit is being greatly anticipated.

Secretary Ernest Scott announced today that those who attend the program and banquet will be given ample time to attend also the graduating exercises at Senior high school.

Cold, Hungry Boy Falls On Stove

SALT LAKE CITY, May 31.—(UP)—Sympathetic railroad men took in a cold and hungry transient youth today during a rain storm. Leaving him in a small shack beside a hot stove, they went to secure food and help. The youth fell against the stove and is fighting for his life in a hospital with severe burns.

GOLD HILL TOWNIES DEFEAT CUBS, 1 TO 0

GOLD HILL, May 31.—(Sp.)—The Gold Hill town team yesterday defeated the Gold Hill Cubs, and they didn't win by default, either. They gathered in one run in the first inning, and from then on the "no-trespassing" shingle was hung on the home plate, for no further scoring was indulged in by either team. C. Kell chucked for the Townies, while S. Coy twirled for the Cubs. The Cubs are anxious to arrange for any games.

Elks Ambassadors Here This Evening

Official ambassadors of the Elks lodge on a transcontinental goodwill journey, bringing local Elks an invitation to attend the 1st grand lodge convention in Columbus, Ohio, will arrive in Medford at 6 o'clock this evening. The ambassadors, Al Rasmussen, piloting a Chevrolet standard phaeton, and Richard F. Flood, Jr., driving a Chevrolet Master de Luxe sedan, left Sacramento, Cal., May 25, and will travel by way of the northwestern route, reaching Columbus July 15.

BUTTE FALLS LAD INJURED IN CRASH ON SOUTH HIGHWAY

Lyle Wright, 19, of Butte Falls, was able to leave the Community hospital today after recovering from serious eye and head cuts received in an auto accident at 6:20 last night on the south Pacific highway near the intersection of Central street.

Wright was a passenger in a south-bound car driven by David Chase, also 19, of Delano, Cal., who was taken to the Community hospital for treatment of head and hand cuts. A state police report stated that the auto skidded 116 feet and crashed broadside into a telephone pole, after apparently going out of control. The car, a Studebaker sedan, was badly damaged.

Mark Miller of 41 Ross court was recovering from minor cuts and bruises today received in an auto accident at 10 p. m. Wednesday on the Klamath Falls highway near Pinehurst. Miller was returning from a semi-monthly business trip to Klamath Falls when evidently a radius rod became loose, causing the car to turn over twice.

Mr. Wallace, whose headquarters is in San Francisco, will complete a circuit of the coast as part of the Standard Oil company's service to patrons.

LUBRICATION EXPERT WITH TRAVELING LAB AIDING LOCAL FIRMS

As a special service to industrial firms of southern Oregon, a series of interesting lubrication lectures are being conducted in this area by Geo. Wallace, lubrication engineer for the Standard Oil company. Mr. Wallace has been contacting engineers and operators of factories and commercial fleets here in an effort to solve their lubrication problems and to supplement his talks a condensed laboratory mounted on a truck chassis is used.

In this unique traveling laboratory the effect of using of various grades and qualities of lubricants on bearings is clearly shown and, by the means of a special neon light, the swiftly-moving bearings are brought to an apparent standstill and the action of the oils traced.

Mr. Wallace, whose headquarters is in San Francisco, will complete a circuit of the coast as part of the Standard Oil company's service to patrons.

Bolts Play Pranks In Salt Lake Storm

SALT LAKE CITY, May 31.—(UP)—Lightning played two pranks in a sudden storm here today. At the home of Ben Beck, the lightning entered a basement window and blasted furnace pipes apart. At Westminster college, pajama clad students dashed to the roof of their dormitory before dawn and put out a fire caused by one of the flashes.

Ship Steward Near Voyage On Vacation

BROOKLYN, N. Y., May 31.—(UP)—Joseph Allen, chief steward on the steamer Haiti, started last Monday on his first vacation in three years but almost lost it today when he visited the ship again. He became so interested in a tour of inspection that the boat sailed before Allen realized he was being carried to sea. A tug took him off.

NEW YORK, May 31.—(UP)—Alfonso, son of the ex-king of Spain, showed that he knew the domestic jargon when he embraced his estranged wife, Esclimira Sampedro, beautiful Cuban commoner, on his arrival here today. "Everything," said the prince of Asturias, "is okie-dokie now."

EDUCATION BOARD LEADER ANSWERS A. A. U. P. CRITICISM

State Group Has Refused to Be Stamped Into Hasty Ill-Considered Action Is Pointed Out by Marks

ALBANY, Ore., May 31.—(AP)—Pointing out that the state board of higher education "has consistently refused to be stamped into hasty, ill-considered action" on the question of selecting a chancellor for Oregon's system of higher learning, Willard Marks, president of the board, commented today on the report Wednesday of the American Association of University Professors, criticizing delay in making the appointment.

The A. A. U. P. report had deplored the circumstance that although Chancellor W. J. Kerr has resigned two years ago, his successor had not yet been appointed.

Mentioning that he had at first intended to make no statement with reference to the A. A. U. P. report, President Marks told the Associated Press he would discuss one feature of the committee report "which, I think, in fairness to the state board of higher education, should be clarified."

An Important Step "The committee seems to feel," he said, "that the board has not acted with sufficient diligence in the selection of a new chancellor since the resignation of Dr. Kerr."

"It will be recognized, I believe, that the selection of a chancellor is a highly important matter, one vitally affecting the whole future of higher education in Oregon. The board felt it important enough to want to survey fully the field of available educators and check thoroughly the ability, personality, experience and record of achievement of men under consideration. This it has been doing without dilatoriness but prudently and carefully. Naturally it has taken time."

Furthermore, because of the 20-month tax limitation proposed at the last election and the possibility that the legislature might feel it necessary to make diversion of millage tax funds the board was not in a position until recently to know its financial setup and hence consummate its search for a chancellor. But in the meantime it has been assembling information so that when the time arrived, that it could act with full knowledge of its resources, it would be ready to act promptly and intelligently.

Perhaps the A. A. U. P. committee in making its reference to the time which has elapsed since the resignation of Dr. Kerr was not familiar with conditions I have mentioned affecting the local situation. But in any event the board has taken no

more time in selecting a chancellor than have state institutions in other nearby states and privately supported higher educational institutions in Oregon in selecting new presidents. "The state board of higher education," Mr. Marks concluded, "is not only willing but glad to receive at any time and on any question suggestions, advice of counsel from any organizations, groups or individuals. It will give to such suggestions earnest, careful consideration and the benefit of its best judgment. But it has consistently refused to be stamped into hasty, ill-considered action."

EUGENE, May 31.—(AP)—Publication of the A. A. U. P. report on higher education in Oregon and its criticism of Chancellor W. J. Kerr was not a surprise move, but was announced a month ago in the April issue of the A. A. U. P. bulletin, which reaches all chapters of the association in the country, officers of the local chapter at the University of Oregon said today.

Beyond this they declined to comment in any way on the situation or on intimations that future comment might be forthcoming from the chapter at Oregon State college.

Bargain Fine PROVO, Utah, May 31.—(UP)—Her entire capital was \$238 and she had just been fined \$3 for running a stop sign. So Mrs. Alice Cox had two cents of her fine suspended by an obliging police judge.

to be on schedule, to enjoy every mile of the long route, and to save on gas, oil and maintenance cost."

"THE route and time schedule of The Elks Magazine Good Will Tour this year constitute a most severe test of the automobiles used," says

Joseph T. Fanning. "The cars will travel more than 30,000 miles between May 25 and July 15—circling the nation on a strict schedule and over every type of road and highway. I am highly pleased that 1935 Chevrolets were chosen, because Chevrolet's well-known reliability, ruggedness, and all-round performance assure the Good Will Ambassadors freedom from delays. Also highly important is the operating and maintenance economy we will get."

GOLDEN PLY BLOW-OUT PROTECTION FOR ELKS' TOUR!

West Coast "Convention-Bound" Cars All Equipped with Goodrich Safety Silvertowns

New Kind of Tire is a Life Saver!

THE drivers of the Elks' Good Will Tour Cars can't afford to gamble on tires. They have places to go—a tough schedule to meet. That's why they've equipped their "convention-bound" cars with Goodrich Safety Silvertowns.

Don't You Take Chances! Silvertowns are the only tires in the world with the Life-Saver Golden Ply. This amaz-

ing Goodrich invention resists the terrific heat generated inside the tire by today's high speeds, thereby preventing the great unseen cause of these blow-outs from even getting a start.

No Extra Cost! You need the life-saving protection of this tire between your car and the road. Let us put a set of Silvertowns on your car without delay. They cost not a penny more than other standard tires and they'll give you extra months of "trouble-free" mileage in the bargain.

Everyone! MAY USE OUR ORIGINAL BUDGET PAY PLAN TO GET THE FAMOUS
