TWO-WAY TRAFFIC TO LAKE RIM NOW

National park officials announced today that the stretch of highway between Park headquarters and the rim of Crater lake, which for the past week has been open to one way traffic, has been entirely cleared of snow, allowing two-way travel to the lodge.

Snow is still more than five feet deep in the park and motorists who take advantage of the opportunity may drive through canyons of the white drifts. Many are visiting the lake, officials reported, attracted by the unusually beautiful snow scenery. The lake may be reached easily both from the Klamath Falls side and from this city.

The roads to Diamond lake are also open, allowing travellers to reach this popular fishing resort from Union creek or from The Dalles-California highway.

MRS. NIEDERMEYER RITES HELD TODAY

Funeral services for Mrs. Charlotte Niedermeyer were conducted this afternoon, with interment at the Medford Memorial mausoleum. Mrs. Niedermeyer died at a local hospital Monday.

Honorary pall-bearers were J. W. Godward, W. W. Hartley, William Bohnert, J. W. Wakefield, C. C. Hoover and I. A. Dew.

Due to misinformation, some of the dates published in the obituary of Mrs. Niedermeyer in this paper yesterday were incorrect. She was born in Borgholzhausen, Germany, December 25, 1863, and came to this country, settling in Nebraska in 1886.

The family resided in Nebraska until 1900, at which time they came to Medford, living in this city for two years before moving to their farm near Jacksonville in 1902.

BIRTHS

Born to Mr. and Mrs. Alvin S. Bullen, a seven-pound daughter, at their home at 514 South Central avenue last night. The young lady has been named Barbara Jean.

Communications

From Mrs. Martin.

To the Editor:

In regard to the article published in your paper of June 4 concerning myself and the final dismissal of the indictment against me, I see no good purpose served by the statement, "The buggy whipping grew out of the turmoil incited by agitators Banks and Fehl, both now serving prison terms." It seems to me this is unfair to me and not according to the facts. The whipping incident had nothing to do with the Banks-Fehl agitation, but was purely a personal affair between me and Mr. Hall, the editor of the Jacksonville Miner. In justice to myself I wish you would kindly publish this correction.

HENRIETTA B. MARTIN.

Coming Thursday

America's ace humorist and top-ranking motion picture star—Will Rogers to be explicit—will be at the Craterian theater starting tomorrow in his newest and, from all reports, his funniest picture, "Doubting Thomas."

Rogers portrays the role of a simple, home-loving sausage manufacturer, whose home-life is suddenly tossed into a turmoil when an amateur impresario, Alison Skipworth, persuades his wife, Billie Burke, that she has been suppressed all her married life and that she really belongs to the stage and her public.

Rogers' son, Frank Albertson, finds that his girl friend, Frances Grant, has also become stage-struck. Father and son have their troubles after wife and fiancee appear in an amateur charity show said to be one of the high spots of the film.

Rogers finally effects a cure that will make the star more loved than ever.

Sterling Holloway is the bungling sound-effects man for the amateur play, while others include Gail Patrick, John Qualen and T. Roy Barnes.

Blindness Fails To Daunt Youth

MANSFIELD, O. — (UP) — When Vance Stuller, of Bellville near here, was eight years old he ran into the limb of a tree while playing and it cost him the sight of both eyes. However, he didn't let the handicap daunt him and today he is one of the leading attorneys and citizens of this section.

Stuller, now 36, is a graduate of two universities and passed the bar examination with high honors. He is a talented musician and paid a part of his schooling expenses by tuning pianos.

Fleas Unchanged Throughout Ages

PALMNICKEN, Germany — (AP) — For about 5,000,000 years, say eminent German naturalists, the flea has not changed in form.

They came to this conclusion after studying amber found in East Prussia, in which fleas were embedded. The age of the amber was set at 5,000,000 years. The flea is thought to be the only creature extant in which nature has not made some change in that long period.

Spencer Tracy in Rialto Comedy

Said to be riotous with its laugh-punctured situations, "It's a Small World" is at the Rialto theater for today and tomorrow with Spencer Tracy and Wendy Barrie in the leading roles.

The story deals with two fast motor cars, doing eighty somewhere in Louisiana and meeting (also stopping) in a head-on collision. No casualties, happily. A slick young lawyer steps out of his wreckage and begins to heap invective. A smart girl steps out of her wreckage, and refuses to listen. They go to jail for reckless driving. When the lawyer takes advantage of an old Napoleonic law giving him the right to the debtor's body, fun starts.

In the supporting cast are Raymond Walburn, Virginia Sale, and Astrid Allwyn, among others.
