Ye Smudge Pot

1200 sticks of dynamite were exploded in an effort to raze the walls of fire-gutted state capitol building at Salem last week.

Nature lovers were thrilled recently by articles in the papers, describing the wisdom of squirrels.

The Portland police "deplore the secrecy of the G-men" in handling the Weyerhaeuser kidnaping.

Teddy Roosevelt, Jr., a Republican warhorse, has departed for South America to hunt jaguars.

An official of the National Association of Letter Carriers reports that disappointed chain letter senders are actually accusing postmen of abstracting money-laden envelopes.

Plans for raising hell for IAW and other are circulating in the valley.

Editorial Correspondence

OGDEN, Utah, June 8.—A striking contrast to the trip just a year ago. Then everything was dried up and hotter than the proverbial hinges.

We caught this train—the Overland Limited—at Davis Friday night at ten-thirty, having left Medford that afternoon at 2:15.

Many, many times have we motored from Medford to Redding but never before have we made the trip so comfortably at this time of year and during mid day.

The Overland came steaming into Davis in two sections. Our ticket was on the second. We have fourteen cars, all standard Pullmans and each one full to the doors.

Leaving Reno at sunrise and riding all day through the state of Nevada one understands better why this state found it advisable to attract people by liberalizing the divorce and gambling laws.

Just passed a rather pleasing pastoral sight. In a creek flowing full to the banks a cow swimming and pushing its calf ahead of it, the maternal nose looked on the calf's rear.

To return to the air conditioned feature, there is always some fly in the ointment. EVERY CAR is air conditioned so when it cools off toward evening passengers stand in the vestibules to GET WARM.

We haven't figured it out yet but that man in the diner who kept his overcoat on, through breakfast, also ate celery—

NEW YORK DAY BY DAY

By O. O. McIntyre

NEW YORK, June 10.—Diary: A blond, glossy morning but a day of doldrums. So in a spurt of labour and away in the car.

in chirky spirits and he told of the day a wheel fell off into "the blue" at my birthplace, Plattsburgh, Mo. So in the park thinking of the recent tragic passages on the same day of Emily Whitefield and Harry Acton, who seemed so well and happy when I saw them last.

The autograph hunters seem to have tired of the chase. The starting Vienna-like group that clustered about the first night capitol...

Personal nomination for the most terrifying moment ever experienced in the theatre: The second act finale of "Getting Zero."

New York tears down—demolish the word-it buildings with almost the devastation of a tornado.

Personal Health Service

By William Brady, M.D.

Signed letters pertaining to personal health and hygiene not to disease diagnosis or treatment will be answered by Dr. Brady if a stamped self-addressed envelope is enclosed.

Whether diabetes is on the increase in this country or not, certain it is that physicians diagnose and treat more cases of diabetes than ever before.

It is pretty well established now that obesity is an important predisposing cause of diabetes, the principal cause, according to some authorities.

Dr. R. M. Wilder, discussing regulation of the weight of the body, said: "I am led to believe that excessive eating by some persons may be explained as an unconscious effort to secure adequate vitamins."

Vitamin B is acknowledged to have something to do with appetite. Persons who get insufficient vitamin B are likely to lose all desire for food.

It is not safe to assume that excessive eating by some persons may be explained as an unconscious effort to secure adequate vitamins.

To return to the air conditioned feature, there is always some fly in the ointment. EVERY CAR is air conditioned so when it cools off toward evening passengers stand in the vestibules to GET WARM.

We haven't figured it out yet but that man in the diner who kept his overcoat on, through breakfast, also ate celery—

an ever. Next evening at the same hour, it was almost a hollow shell, dark and forbidding with ramparts of scaffolding.

And there's the famous new magazine cover girl who has the beauty of the town on the que vive. She is a 20-year old San Antonio, Tex. named Algonquin.

Bagatelles: Harry Thax has not appeared in public in New York in a year.

George M. Cohan has kept a room at the Astor since his early days.

Fair tonight and Tuesday, but with considerable cloudiness west portion, slightly warmer interior on Tuesday, moderate changeable winds off the coast.

Home portraits or family groups and children at Special Prices. Shangle Studio. Phone 1308.

"KICKERBUCK" Undergarments that fit at Elizabeth B. Hoffmann's.

Every member of this Grange and any member of any other Grange desiring an evening of fun are urged to

Personal Health Service

Thousands of individuals who eat too much habitually and because they are simply craving such carbohydrate, find that they are satisfied with considerably less refined carbohydrate food after they have taken a fair ration of the vitamins daily for a few weeks.

Various research workers have determined that an optimal or larger ration of vitamin B than is necessary to prevent beriberi or polyneuritis has an effect equivalent to a moderate daily dose of insulin, after the vitamin B ration has been taken for a few weeks.

Every man or woman who is taking on excess flesh and inordinately fond of carbohydrates owes it to himself or herself to learn whether there is a shortage of vitamins in the daily intake, and if there is to correct it, as a measure of prevention of diabetes as well as sound physiological protection of health and efficiency.

QUESTIONS AND ANSWERS Whiteheads.

What causes whiteheads over the cheeks, and how does one get rid of them?—Miss P. G.

Answer—First stamped envelope bearing your address, for monograph on blackheads, whiteheads and pimples, enclose a dollar or call.

How's Your Liver? Please give your remedy for corns.

Answer—Paint corn or callus with a solution of 20 grains of salicylic acid in one-half ounce of flexible collodion, once daily for a week or two.

I drink three cups of coffee every day. Is this injurious? What is the best way to make coffee?—P. M.

Answer—It is not injurious for a normal adult. Coffee made in pot or percolator, without boiling, is best. Boiling even for a moment merely drives off the aroma and extracts most of the undesirable tannin.

Ed. Note: Persons wishing to communicate with Dr. Brady should send letter direct to Dr. William Brady, M. D., 265 El Camino, Beverly Hills, Calif.

Members of the Gold Hill Grange met in their hall last Thursday evening for the regular business meeting and an interesting program.

Lecturer Madge Croft Ross prepared the program which included the following numbers: Music selections, Nina and Sylvia Croft, and Mark Campbell, song, "The Grange is Marching On"; congregation reading, "Children's Hour"; Charles Smith; play, Mr. and Mrs. Campbell and Sylvia Croft; reading, "Dear Mother's Love"; Donna Christensen; exercise by the children and a reading by Mrs. Ed Penney.

The Grange Pass, Oregon. "The Grange Pass, Oregon. "The Grange Pass, Oregon.

"In this editorial you say that the fruit industry in the Rogue River valley is being 'carried on year after year under the handicap of higher freight rates to consuming centers than any other similar area."

"Am sure that you only desire to state the facts fairly and as they really are. Your freight rates on peaches from the Rogue River territory to the large consuming centers are and have been the same as those in effect from other producing territories in the west, such as Hood River, Yakima, California, etc. for many years, notwithstanding the fact that the haul from the Rogue River valley is several hundred miles greater and consequently more expensive.

"It has always been the practice of the Northern Pacific company, to do so, to adjust its rates and schedules to enable the producers on its lines to compete with other localities.

"We believe we are doing a good job of transportation for the Rogue River peach shippers, and feel sure that you will wish to correct your statements."

"Your very truly, General Freight Agent, Southern Pacific Co. Portland, Ore., June 8, 1935."

THE GRANGE

Attention of every member of the Phoenix Grange is again called to their meeting Tuesday night of this week. The ways and means committee of this Grange is in charge of entertainment of the evening and they request that every member bring some old garment, wrapped in paper, a few extra pennies and a mind to have a program that will cause each one to forget their troubles.

As this committee also has charge of the refreshments they plan to serve ice cream and cake which will be sold at a very low price.

Proceeds of the entire evening will be turned to the treasury to be used in clearing the unpaid balance on their hall.

Every member of this Grange and any member of any other Grange desiring an evening of fun are urged to

Comment on the Day's News

By FRANK JENKINS

WEATHER hot, as these words are written. Everybody complaining. Last winter, when it was cold, everybody was complaining just the same way.

W HAVANA millionaire kidnaped. Sum of \$288,000 demanded for his return.

IN APRIL of this year in Oregon only 17 persons lost their lives in automobile accidents, as compared with 33 automobile fatalities last year in the same month.

IN APRIL of this year, there were 1736 automobile accidents in Oregon, as compared with 1718 in April a year ago, and for the first four months of 1935 the total was 6738, as compared with 6899 last year.

IN APRIL of this year, there were 433 injuries in April of this year as against 443 last year, and 1991 for the first four months of this year as compared with 1898 last year.

Lumberman-Banker

E. S. COLLINS

E. S. Collins of Portland is generally spoken of as a lumberman and banker, but is widely known for his interest in churches and schools.

Born in New York in 1864, he came to the Pacific northwest in 1889, engaged extensively in lumber operations in banking. He is a trustee of Willamette university and College of Puget sound and active in Methodism.

President Wilson takes "firm stand for human rights, over the dollar."

C. Martin, a country visitor, turned his buggy around in the middle of the block. Chief Hillman told him of the traffic regulations. Martin said they were no news to him whereupon he was taken into court and fined \$2.

Four hundred twenty dollars has been collected by the Fourth of July committee for the celebration here.

Nine Chinamen from northern California arrived this morning to visit the local laundryman.

From these facts, the conclusion is obvious that not only have the codes varied for each industry, but compliance has also.

There are 357 codes signed, 300 supplements affecting about 20,000,000 people. The largest number of codes covered manufacturing industries, but more than half of the total number of persons supposed to be affected were in localized operations, retail stores, restaurants, hotels, industries, construction operations. The extent of compliance in this phase of NRA endeavor was never fully determined, to state it mildly.

The newest and best governmental palace is the supreme court building here. The fantasy is in wings and propellers as ornamentation of tulle, lace or gathered ribbons.

The vest still is wandering from one part of the hat to the other. When first revived it lay straight on the forehead and covered the eyes. Then it fell to the nose and later floated past the chin. Then it was seen as a gloriole on small toques and now it has deserted the face altogether to hang like a sun-protector at the back of the hat.

The latest addition of shoes are evening ones entirely of lace. For summer evening dresses these are particularly attractive. For those who lean to the luxurious and aesthetic, they can be had in sandal form displaying here and there a concealed toe nail.

The new neck scarfs of stiff tafetas in Scotch spotted or striped designs are no longer looped or knotted to tie a bow, but are drawn thru two attractively ornamented rings to form a smart butterfly effect.

A chapter for itself are the new ornaments for summer complets. For outdoors, armbands are now in vogue to match the dresses. New styles in exquisite monogram forms are being worn and for summer evenings hair and neck ornaments, earrings and flower-spray clips.

Belts in artistic designs are being displayed. Antelope and crocodile for street wear, suede and leather for afternoon dresses. Large silver buckles of ornamented antique designs and perforated and perforated fantasies give a most decorative effect. Very attractive are the belts fastened in front with a lace-up effect with two hanging colored or silver tassels.

Dark blouses to light costumes are still popular to which accessories are matched. Summer brings a line of daintily matched colors—green with blue, lilac with red, old rose with navy blue in first line, then follow others of gray with black-red, sand with orange.
