DOES YOUR HUSBAND CALL YOU GROUCHY?
He's truthful if not tactful. Man-like, he is bewildered by your offhandedness and irritability. He can't understand what you have to be blue about. He wishes that you'd snap out of it. He'd do Mrs. Barbara Spears anything he could to help you. If he knew how good Lydia E. Pinkham's Vegetable Compound was, he'd go straight to the nearest drug store and buy you a bottle.

"My husband says I am my old self again," says Mrs. Barbara Spears, 799 Elma Street, Akron, Ohio. "I was tired and all in with no appetite. Had no pep and was in poor spirits. Your Vegetable Compound eliminated that awful tired feeling."

Don't try your husband's patience too far. Get a bottle from your druggist NOW. It probably will help you, because nearly a million American women know from personal experience that it helps them.

Both Carston and Miller shot from the port side. Although there were two adults in the first squad, the Bradley boy registered the top score in the first round of 25 shots.

GRANGE TO MEET IN LEBANON NEXT

McMINNVILLE, Ore., June 13.—(AP)—Delegates to the State Grange convention here today had chosen Lebanon as the site for the 63rd annual party in 1936. The decision was reached after several ballots were taken late yesterday.

The Grange also passed a resolution, after considerable discussion, asking Governor Martin to pardon Walter E. Baer, Portland civil engineer, who faces deportation. The resolution was approved following a debate over a motion to refrain from entering into such cases.

Other resolutions approved included those asking a reevaluation of real property and seeking a federal investigation of corporations manufacturing farm machinery.

GRANGERS GIVEN MARTIN ATTITUDE UPON PROBLEMS

(Continued from Page One.)

The Grange did not foster either communism or agrarianism, but instead sought to ally class antagonism such as even then had arisen between capitalist and labor.

"Speaking of labor, I wish to say that I am broadly in sympathy with the aims of American labor—that is, improve the standards of living among our large consuming population. Thus, there will be provided thereby, among other advantages, satisfactory outlets for agricultural products. In this respect agriculture and labor have much in common. They are mutually interdependent. The last several years when we should have had harmony so that we could jointly put our shoulders to the wheel to help get out of the depression, we find a small but determined element, fearing neither God and having no love for country, insidiously creeping into our labor organizations. Yes, even in some cases, into agricultural organizations.

"This element has only one thought in mind—to foment trouble, develop discord and create chaos, hoping by that means ultimately, to overthrow our system of government. The Portland waterfront strike has summer resulted in millions of dollars of loss to the agricultural and livestock industry of Oregon. This year a similar attempt was made to foment strikes in the sawmills, upon some of which agriculture depends for its crates, boxes and other fruit and vegetable containers. I wish the constructive element in labor organizations the
