DOG POISONER BUSY ON EDWARDS STREET

WASHINGTON, June 18.—(UP)—Ewing W. Mitchell, ousted Saturday as assistant secretary of commerce, charged today that "graft," inefficiency and favoritism flourished in the department of commerce. He promised another "important statement" in a few days.

The charges were referred to the criminal division of the department of justice.

At the office of Secretary of Commerce Daniel Calhoun Roper it was said Roper would refer to the charges.

The dog poisoner who has been preying upon the canine pets in the Edwards street district struck again Sunday night when a poisoned piece of raw meat was thrown into the yard of Mrs. M. Lemmon, 298 Edwards, according to a report at the city police station. The meat was taken from the dog before entirely eaten, but the animal died in the night.

Five neighbors in the last three months.

CLIPPER PREPARES FOR HOME FLIGHT

HONOLULU, June 18.—(AP)—Her motors still warm from the first flight of a continental plane to lonely Midway island out by the international dateline, the Pan American Clipper was prepared today to return to her base at Alameda, Cal., Friday.

Greeted more like a slightly overdue ferryboat than a sky trail blazer, the Clipper swooped down out of the afternoon at 4:22 p. m. (9:38 p. m. H. S. T.) yesterday and came to rest on the waters of Pearl Harbor just ten hours and five minutes after leaving lonely Midway island, 1823 miles to the northwest.

As residents of Hawaii have come to expect, Captain Muck announced tests "very successful" and reported no unusual incident.

STORM INCREASES SCOPE OF FLOODS

LITTLE ROCK, Ark., June 18.—(AP)—Rain, accompanied by high winds and lightning, sent swollen streams mounting today toward new high stages to devastate thousands of acres in Arkansas.

Approximately one-third of the state, in the northwest, northeast and southwest sections, was cut off from the outside world early today after reporting it had been struck by a destructive storm.

The greatest flood danger was feared on the Arkansas river, predicted to reach high stages unequalled since 1927. Bottom lands in the Fort Smith area were inundated and 300 families were homeless.

Butter and eggs maintain level

PORTLAND, June 18.—(AP)—There was no butter price change for the day and the movement appeared practically steady at the late price level.

A fair increase in receipts was shown last week but there was a decrease in centralized churning, a seasonable condition.

Market for eggs appeared firm elsewhere but there was little apparent change in the local situation which reflects hot weather eggs from inland points.
