

HOUSING PROJECTS FOR MANY CITIES WAITING APPROVAL

WASHINGTON, June 26.—(AP)—President Roosevelt today "earmarked" \$249,000,000 of work relief funds for PWA low cost housing projects but each individual project must be approved by Harry L. Hopkins and the president.

Making the announcement, Secretary Ickes said he submitted 24 projects in 21 cities, totaling \$91,000,000, to the president yesterday and said he expected them to be approved within a few days.

They are now being studied by Hopkins' works program administration to determine how they fit in with state work relief plans.

Ickes declined to say where the projects were.

The \$249,000,000 recommended by the works allotment board included 72 projects in 60 cities, he added.

These, he said, "exhaust the list of projects now ready, but not the possibilities of adding to the list."

Hopkins made the announcement at the White House as the general lunched with President Roosevelt.

The return of General Johnson to government service is in line with the hope expressed by Mr. Roosevelt when the "War Horse of NRA" resigned a year ago.
