

JUDGE WILL PASS SENTENCE ON TWO FRIDAY MORNING

Sentence is scheduled to be passed by Circuit Judge H. D. Norton, Friday morning, upon Roscoe L. Brantley, Ashland produce dealer, who entered a plea of guilty to an attempt to defraud an insurance company, and James Francis Brennan, who entered a similar plea to a forestry charge.

Ashland friends of Brantley have announced their intention, the district attorney reported today, of requesting a parole for Brantley, and are scheduled to appear in court to intercede for him.

Brantley, according to the authorities, filed a claim for a \$2300 loss in a barn fire, March 13 last, when the value of the property destroyed was only \$734. The barn was insured for \$2900 with the Oregon Fire Insurance company of McMinnville, Ore.

Investigation by the state fire marshal, according to the district attorney, revealed that the amount of produce Brantley claimed was destroyed was in excess of what the barn, located on the former Benton Bowers place, could hold. Brantley claimed baled hay and grain were stored in the barn.

The authorities also report that Brantley's garage, insured for \$100, was destroyed by fire six weeks ago. Brantley is a former resident of Colorado.

Brennan was arrested in Portland two weeks ago, on a charge of passing a forged check for \$200 upon an Ashland jeweler. Brennan's sentence on a plea of guilty may be delayed until a report can be received upon his former police record, if any.

AUNT GIVEN CARE VANDERBILT GIRL

NEW YORK, July 3.—(AP)—The appellate division of the supreme court today unanimously upheld the decision of Justice John F. Carew, which awarded the custody of 11-year-old Gloria Vanderbilt to Mrs. Gertrude Whitney, her paternal aunt.

The appellate division, in part, ruled: "If the relator (Mrs. Gloria Morgan Vanderbilt, mother of the child) shall avail herself fully of her rights under the order, she will spend more time with her child than for many years past."

The opinion was written by Associate Justice Irwin Untermyer. The record of the case—in which Mrs. Whitney charged that Mrs. Vanderbilt neglected little Gloria and was an unfit mother—was sealed by the appellate division and will not be available for public scrutiny.

'FORD' OF FRANCE CALLED BY DEATH

PARIS, July 3.—(AP)—Andre Citroen, 57, the "Henry Ford of France," weakened by grief over the difficulties of his business, died in a hospital today after a lingering illness.

Citroen's vast automobile plant, once estimated to be worth 2,000,000,000 francs, was forced into receivership December 21, 1934, and its founder finally was ousted of any active management of his companies.

The short, dapper engineer tried to remain as technical adviser, but a financial investigation by auditors aroused such opposition from stockholders and creditors that Citroen finally disappeared.

Before he began developing small automobiles after the war, Citroen was an obscure engineer, born in Paris February 8, 1878.

Alabama claims a short railroad built between Florence and Decatur in 1832 was the first west of the Alleghenies.

Shakespearean Festival Opening Is Huge Success

A large and enthusiastic audience was present last evening for "Twelfth Night," the initial performance in Ashland's Shakespearean Festival given in the recently constructed Elizabethan theater in the sister city. The perennial favorite, "Merchant of Venice," will be presented tonight, and on Thursday night "Twelfth Night" will be repeated.

Major credit for success of the festival, which is destined to be an annual affair, must be given Angus L. Bowmer, professor of English and dramatics at Southern Oregon Normal school. It was through Professor Bowmer's efforts that the project was first considered and it was through his interpretation of the role of Sir Toby Belch in last night's performance, and his patience and skill in coaching the other members of the cast that the classic was staged with near-professional finish.

Additional effectiveness is given by the music, orchestrated and directed by Lawrence Hubert.

The cast of last night's play, largely made up of Normal school students, follows: Sebastian, brother to Viola—Dolph James.

Antonio, friend to Sebastian—Merrell Gunter.

Foia, Captain, friend to Viola—Jim Foster.

BOURBON LEADERS STRIVE TO PACIFY REVOLTING HOUSE

(Continued from Page One.)

Charles West, a former congressman and now liaison man between the president and Capitol Hill.

The house, many members said, has been in a resentful mood for weeks. They said a number of things contributed to this, among them:

1. Repeated concessions by the administration to the senate after similar concessions had been refused the house;

2. A feeling by house members that they were not getting patronage while senators were;

3. The president's apparent willingness to deal and talk with members other than the regularly elected Democratic leaders;

4. Recent activity of "liaison" men and "brain trusters."

The spark for the initial explosion was provided by a Republican, Representative Brewster of Maine. He said Corcoran had warned him secrets on the \$36,000,000 Passamaquoddy power project in Maine would be stopped unless Brewster voted for the utilities "death sentence."

Representative Moran (D, Maine) denied this. He said Corcoran simply warned that Brewster would not longer be "trusted" to proceed with legal work in connection with "Quoddy."

OREGON AVIATION INTERESTS URGE CHANGE IN BOARD

SALEM, July 3.—(UP)—A delegation from Portland, representing the various interests in aviation, including both commercial and sport flying, was in conference with Governor Martin here today, urging several changes in the present state board of aeronautics and laying before the executive a program to further aviation in Oregon.

Need for a definite program, including the enforcement of state laws in aviation, was brought to a climax by the tragic death two weeks ago of Benton H. Luttrell, who crashed with his plane, which should never have been licensed, Stewart Weiss, head of the delegation, declared.

The delegation stated there were no personal animosities with the present board, but did state that none of the personnel now were flying, and did not take sufficient interest in aviation to advance the program.

It was learned the governor had planned to appoint an entirely new board, but authentic information stated he was now considering only two or three changes. The appointment of T. R. Gillenwater of Klamath Falls appeared assured. It was believed further that Dr. Carl Bart-

lett of Baker and Raymond R. Staub would be retained on the board. The other members are Russell Lawson, L. B. Hickman and Charles Reynolds.
