Weird Pictures on Rialto Program

The weirdest, most gripping and daring film of the year comes to the Rialto theater tomorrow, when "Werewolf of London" opens a three-day run.

A werewolf is a man who becomes transformed into a wolf each night during the full of the moon. The remainder of the time he assumes his natural form and leads the same life as any other human. The legend is that if a man is bitten by a werewolf he becomes a werewolf himself.

In "Werewolf of London," Henry Hull, great character actor, is the man who has been bitten by a werewolf. And the entire story is laid around his life and actions in England after he has become aware of his terrible affliction.
