CALL KIDNAPED YOUTH TO STAND

News Behind The News
 By PAUL MALLON
 Copyright, 1935, by Paul Mallon
 WASHINGTON, July 10.—Stranger things may have happened in Washington than those now happening on the plan, but, if so, no one can remember when it may be the heat, and then again it may be the stupidity.

The latest chapter in this series of comic mystery hangs on the appearance of Treasury Secretary Morgenthau before the house ways and means committee. He was supposed to offer the new plan, but when asked about it, he apparently had never heard of it. He declined to say how much additional revenue the treasury wanted, if any. He refused to hint at what rates he expected. All he knew about taxes was what he read in the president's message.

This left the poor old Republicans flabbergasted. No one ever tells them what is going on inside. They tried to ask questions, but the Democrats leaped at them with charges that they were trying to oppose taxes on the wealthy. This led to a series of debates which placed the meeting on a level with the average meeting of a small town council. Mr. Morgenthau stood on one foot or the other, saying nothing.

It looked almost as if the Democratic committee members had entered into a conspiracy to protect Mr. Morgenthau against saying anything. That is exactly what happened.

The inside story dates back to a conference at the White House a few days earlier (July 4). The Democratic committee men (Doughton, Hill, Cullen, Cooper) filed into the president's study on that occasion with perplexed brows. They tried to be deferential, but hinted broadly that the president's wealth-tax idea was somewhat "ridiculous." In fact, they are supposed to have used that exact word, but in a less offensive way, something to the effect that the idea placed them in a "ridiculous" position.

Their contention was that the rates suggested by Senator Harrison for the administration would raise only \$134,000,000.

(Continued on Page Four.)

SIDE GLANCES

by TRIBUNE REPORTERS

Two little friends, one red-headed, one South French, catching a baby robin—the mother and father birds frantic, trying to beat the brats off, but getting only blows for their parental efforts at rescue.

Bert Orr dashing about town with a great display of vigor, despite his recent illness.

Ralph Boutelle pool-pooling the idea that running 15 tons of beads through his canyons in three days was any particular feat.

Bill Gates disappointing his public, but causing no end of relief to the donkeys, by failing to appear for his rodeo performance at the donk-ball game last night.

Theodore Brasch, artist working on the Catholic church, walking home when day is done, liberally splattered with oil paint.

24 DIE AS HEAT GRIPS MIDWEST

KANSAS CITY, July 10.—(AP)—Wilted heat claimed a heavy toll in the Midwest today.

Additional deaths in Texas, Nebraska, Kansas, Oklahoma and Missouri increased fatalities to 24.

Little immediate relief was seen by a M. Hamrick, federal meteorologist here. A blizzard was sent to the mercy of rocketing rains today.

A maximum of 109 degrees was recorded yesterday at Phillipsburg, Mo., and 108 at Dresden.

Hundreds of city dwellers spent last night in parks and yards.

INCH DEEP HAIL FALLS IN DESCHUTES FOREST

BEND, Ore., July 10.—(AP)—A heavy rain and hail storm swept over the Walker mountain country 30 miles south of here in the Deschutes National Forest last night. Hail piled up an inch deep in some places.

Although nearly an inch of rain fell at Skookum butte in the forest, there was only a trace of precipitation at Bend.

Rain was general in the Prineville district.

WEYERHAEUSER LAD IS STATE'S STAR WITNESS

Government Scores Point When Fingerprint of Mrs. Waley Identified As Found in Tacoma Hideout Home

FEDERAL COURTROOM, TACOMA, Wash., July 10.—(AP)—George Weyerhaeuser, nine-year-old Tacoma boy, was called as the government's star witness this afternoon during the trial of Mrs. Margaret Thulin Waley, charged with his kidnaping under the Lindbergh law.

United States District Attorney J. Charles Dennis told the Associated Press the boy would be placed on the stand as soon as technical testimony about fingerprints in the Spokane kidnap house was finished.

The boy was brought into the federal building during the noon recess and placed in United States Marshal A. J. Chitty's office.

FEDERAL COURTROOM, TACOMA, July 10.—(AP)—The government scored a point today when A. M. Kohn, federal fingerprint expert from Washington, D. C., identified as Mrs. Margaret Thulin Waley's a fingerprint on an electric light globe from the attic of the Spokane "hideout house" in the George Weyerhaeuser kidnap case.

In Mrs. Waley's statement on arrested in Salt Lake City she denied ever being in the attic. Courtroom spectators recalled that on his release for \$200,000 June 1 little George said he once knew some "moving men."

SENATE INSISTS DEATH SENTENCE BE LEFT IN BILL

WASHINGTON, July 10.—(AP) By an abrupt change of tactics, the senate today sent the hotly-disputed juvenile justice bill to conference and instructed its conferees to insist on the provisions desired by President Roosevelt to outlaw "unnecessary" holding companies in seven years.

There was an advance understanding, however, that a disagreement with the house on this section would result in a request to the senate for "further instructions" with conference.

The administration had fought to block concurrence of the senate in the house version of the bill, which had eliminated the section providing for dissolution of all holding companies by 1942 except one for each regional system.

Senator Dierich (D., Ill.) abruptly withdrew his motion, to instruct conferees "not to insist" on the abolition provision and the proposal went through without a record vote.

Immediately Vice-President Garner appointed as senate conferees Chairman Wheeler (D., Mont.) of the Interstate commerce committee, who had charge of the bill in the senate; Barkley (D., Ky.), Brown (D., N. H.), White (R., Me.) and Shipstead (R., Minn.).

EUGENE MAN DROWNS ON TRIP TO ALASKA

FRIDAY HARBOR, Wash., July 10.—(UP)—The body of Vernon Wilbert, 25-year-old Eugene, Ore., man whose sailing trip to Alaska with his wife was started yesterday, had not been found today.

His wife joined those searching for the youth's body, believed carried far into Puget Sound by strong currents.

Policemen's Womenfolk Fear Moral Corruption

NEW YORK, July 10.—(AP)—The plights of "heartbroken mothers" who worry about the "bad women" their policemen husbands might meet in the course of night duty has brought out the philosophical side of Mayor LaGuardia's official nature.

"If a man is good, decent and clean, he will continue to be so, regardless of the work he is assigned to," assured the mayor in a sort of advice-to-the-lovers homily printed in "Spring 3100," the police magazine.

The complaint the mayor received said: "I am a young mother and know lots of mothers in the same position as I am. Our husbands are young men, plain-looking policemen and are mixed in with all kinds of bad women and are never at home at night."

"I ask you to change all young married men out of these jobs."

Max Admits, Denies Marriage on Rocks

Max Baer, former heavyweight champion whose affairs of the heart have been almost as numerous as his ring engagements, denied today that he had separated from his bride of eleven days. He was quoted in New York press reports last night as saying that because his wife, former coffee shop owner, insisted on a Catholic wedding ceremony to supplement their civil marriage, he had left her. The pair are shown as they were being congratulated by Justice Dickinson Letts after the ceremony.—(A. P. Photo.)

ENTRY TO FOREST IS RESTRICTED AS FIRE SAFEGUARD

SALEM, Ore., July 10.—(AP)—Governor Martin today closed to entry except by permit 150,000 acres of timber land in Jackson county. The order will be effective July 12.

The sections closed are in the Butte Falls territory and in southern Jackson county, Lynn F. Cronmiller, state forester, explained.

Supervisor Karl Janouch of Rogue River national forest stated today that the foregoing proclamation affects no land within the borders of Rogue River national forest, but that under a similar proclamation from the governor all land within the national forest comes under certain restrictions.

These restrictions, Janouch said, require that anyone entering the national forest must refrain from smoking or discarding any burning material while traveling along any road or while camped at any spot not designated as a national forest camp. He must also possess an axe, a shovel and a bucket while camping and must have a campfire permit except when occupying a designated camp.

DEATH VALLEY SCOTTY LOCATED IN HOSPITAL

LOS ANGELES, July 10.—(UP)—"Death Valley Scotty," nomadic desert mystery man, was reported today in a hospital at Bardsburg, Calif., where he had been apparently for several days.

Friends here had prepared to launch a search by airplane for "Scotty"—whose real name is Walter Scott—when he failed to show up after reports from Bardsburg indicated Scott had walked into town after more than a week wandering the desert, bought himself a truck full of eggs and began distributing these instead of the gold pieces he formerly tossed out with a lavish hand.

FEAR PESTILENCE IN FLOOD REGION

(By the Associated Press)

The threat of pestilence loomed today in flood-stricken areas as rampaging rivers receded in the east.

Governor Lehman, personally directing relief and rehabilitation activities in New York state, supplemented the warnings of health officials in urging that all drinking water be boiled to prevent a possible outbreak of typhoid fever.

The governor said the situation in the flood sections of the state "is improving generally."

Forty persons died in upstate New York; four are still missing and property damage was estimated at \$25,000,000. About 3,000 persons were made homeless by the floods.

Swirling streams that damaged crops, turned roads into canals and inundated cellars in northeastern Maryland receded today. In the southern part of the state the damage was estimated at \$15,000,000.

3 VIOLENT DEATHS IN KLAMATH AREA

KLAMATH FALLS, July 10.—(AP)—Three violent deaths, all of them women's cases, occurred in the Klamath district today.

The body of an unidentified transient was found beside the railroad tracks near Midland. Investigating officers said the man, about 40, apparently had fallen from a freight train.

Lee Elliott, 90, lumber mill employee, was instantly killed when caught in the machinery at the Keaton lumber plant. His head was crushed.

Coroner George Adler said the body of a man had been found hanged at Lamm's camp in the mountains. He was investigating to determine if the man had taken his own life. The name of the victim had not yet been learned.

G. PASS PROTESTS FAIL TO SAVE JOB OF 'AG' INSPECTOR

GRANTS PASS, July 10.—(AP)—In keeping with his declaration when he took office as state director of agriculture, that there must be no disension or turmoil in inspection districts, Solon T. White last night announced the impending release of E. W. Rohlen August 1.

Rohlen, deputy state inspector with one of the highest records in the department, is a victim of circumstances, White told the county court, Grants Pass Gladious society and newsmen at a hotly debated meeting in the court house here.

Three points caused the "agitation," White charged.

First, White's request for formal resignation of Rohlen when White assumed office. Protests followed and White promised Rohlen would be retained. Second, an inquiry as to whether Rohlen was moved to another district at higher pay. Protests again followed. Third, announcement that district inspection headquarters would be moved to Medford. Locally, newspapers, the Gladious society and county court interpreted the move as a possibility that Rohlen would be removed and protests again followed.

White said he was tired of the protests.

White blamed Rohlen for not commenting and refused a proffered affidavit by county commissioners that Rohlen told them he would be the first to be told of any change.

"I couldn't get my staff to believe that," White declared. "They say I backed down, and stiff morale would be ruined." He said he had heard staff members at Salem gossiping about the protests and wondering if "White really has any backbone."

DOROTHY HESTER AIRPORT VISITOR

Robert D. Hofer, his father, R. W. Hofer, and his wife, who is the former Dorothy Hester, lying in a J-5 Traveler Speedwing, visited briefly at the municipal airport this afternoon en route from their homes in Portland to San Diego, where they will visit the exposition. Mrs. Hofer is a widely known aviatrix who has held several records for women fliers. She and her husband arrived at the local port several weeks ago en route to the fair but were forced to discontinue that trip and return to Portland because of engine trouble.

Goodrich Repeats Denial of Murder

DETROIT, July 10.—(AP)—Merton Ward Goodrich, for the second time in 24 hours, pleaded not guilty today to the murder of 11-year-old Lilian Calliber. His trial was set for July 17 by Judge Christopher E. Stein of recorder's court.

Goodrich was brought before Judge Stein for arraignment on the information, the last formality preceding trial.

Banwell Tells Purpose Chamber of Commerce

Editor's Note: Due to the fact that the chamber of commerce has so many diversified activities and also to understand the full purpose of the organization and its benefit to the community, The Mail Tribune has requested A. H. Banwell, manager of the Jackson County Chamber to present the following statement on what a chamber of commerce is:

The chamber of commerce is a group of businessmen and women banded together to do those things to protect and promote the general welfare of the community which it serves, which they can do more effectively than they could as individuals.

Another definition of a chamber of commerce is that it is an organization of businessmen and others who share their point of view, to promote commerce and industry and those general interests of the community which affect commerce and industry, or with reference to which people engaged in commerce and industry should concern themselves.

The business of a chamber is constructive action. It is organized for service and accomplishment and the character of its business and its value to the membership and to the community it serves is determined not merely by the fact that it is doing something but by what it is doing and how it is doing it.

Obviously what a chamber of commerce should do in a community depends for one thing upon what needs to be done. The chamber is, or should be, made up of business leaders who have become leaders through practical efficiency. Therefore the

BAER AND BRIDE MAY PART OVER RELIGIOUS ISSUE

Playboy Pugilist Admits, Denies Rift—Wife at Home While Max With Restaurant Party in New York

NEWARK, July 10.—(AP)—Max Baer, former world's heavyweight champion, denied today he had separated from his wife, the former Mary Ellen Sullivan of Washington, D. C., as he boarded a plane at Newark airport for Baltimore for treatment of his hands at Johns Hopkins hospital.

"There's nothing to it," Baer said. "I'm coming back tonight to join my wife at Long Branch."

Baer wore a green suit, a green tie, and brown suede shoes when he boarded the plane. He was smiling one minute and showed evidence of worry the next when he spoke of his personal affairs.

Argument admitted. He and Mrs. Baer had had a "little argument" but he said they would have a "loving reunion" when he returned from Baltimore.

He denied having said that he and his wife were separating.

D. R. SCHENCK, 86, STRUCK BY AUTO; SERIOUSLY HURT

Suffering from a broken leg and severe nervous shock, D. R. Schenck, 86, of 823 West 27th street, was in a serious condition at the Community hospital today as the result of being struck by a car about 8:45 last night while crossing the street on West Main at the intersection of Mistletoe.

The attending physician stated today that, despite his advanced age and the date in which he was left by the accident, he has a good chance of recovery. His left leg was broken at the knee. He also sustained body bruises and an examination was to have been made today to determine whether or not he was hurt internally.

The car that struck Schenck.

BAER CAN BATTLE IN FALL IS EDICT

BALTIMORE, Md., July 10.—(AP)—There are no broken bones in Max Baer's hands, and he will be able to fight in September, John Hopkins physicians said today following an examination of the ex-champion.

Dr. William P. Henhoff, Jr., the physician, said that no ligaments in Baer's hands had been torn. He told Baer that his hands are in no shape now for heavy work and added that he should not have fought Braddock with his hands in their present condition.

MRS. McNARY BRINGING BABY TO COOLER WEST

PORTLAND, July 10.—(AP)—A special dispatch to the Journal today from Washington, D. C., said Mrs. Charles L. McNary, wife of Oregon's senior senator, and Charlotte recently adopted baby, daughter of the McNary's, tied the mid-summer knot of Washington Tuesday afternoon and are on their way to re-occupy the senator's country home near Salem.

The senator will join them as soon as congress adjourns.

Will Rogers Says:

BEVERLY HILLS, Cal., July 3.—Hurrah for Mr. Rockefeller, 96 years old—one of the very few men that knew how to give money away so that every dollar does good. That's more than our government can do. It's more than anybody can do.

All over the world is a Rockefeller doctor swatting at a mosquito or trapping a poisonous fly. I flew the whole East coast of Brazil and they have eliminated mosquitoes. However, I do wish he would spread some of that Standard oil (or even Gulf) on some of these home talent mosquitoes.

There is no end to that old gentleman's talents. He beat insurance companies without dying. They just got discouraged and paid him. He will make the 100 and some to spare.

Will Rogers

Roosevelt Ignores Whisper Campaign Regarding Health

WASHINGTON, July 10.—(AP)—Friends recently have called President Roosevelt's attention to "whispering campaigns" relating principally to his health.

The White House readily conceded today, but indicated Mr. Roosevelt is ignoring it.

There is no apparent concern at the White House about the prevalent reports of such a campaign.

It was revealed there that such talk has developed about almost every president, particularly around campaign time.

CAPITOL FINANCING WITHOUT NEW TAX IS HOLMAN'S PLAN

SALEM, July 10.—(AP)—The state's share of the proposed \$3,500,000 new capitol building can be financed by direct appropriation of the legislature without adding new taxes and at the same time remaining within the six per cent tax limitation, the proposal State Treasurer Rufus C. Holman today presented to the board of control showed.

The suggestion of the treasurer was worked out for over a three-year period after consultation with experts in the treasurer's office, the tax commissioner and the secretary of state tentatively set out as the cost of the new structure of which it was proposed 45 per cent would be paid as a grant by the federal government.

Must raise \$1,925,000.

On that basis, Oregon must raise \$1,925,000. This would be done, Holman's plan proposed, by an appropriation of \$650,000 at a special session this year or next year and by a 1937 legislative appropriation of \$1,275,000.

Elimination of bond issues and the interest rates, as well as doing away with the need for calling a special election was included in the plan.

Holman stated estimates revealed the book deficit of the state would be \$1,301,430, but there would be no cash deficit in the general fund. The book deficit of the first of this year was \$1,543,952.

The figures presented showed the

(Continued on Page Three.)

HOT SENATE DEBATE ON AAA AMENDMENTS

WASHINGTON, July 10.—(AP)—Debate broke in the senate over the administration's AAA amendments today with critics demanding explanations of their intent and Chairman Smith of the agriculture committee insisting they would not set up a "dictator" over producers.

Explaining the measure in response to demands by Senator Byrd (D., Va.) and Senator McNary, the Republican leader, Smith said the bill was "an attempt on the part of the government to set up an organization for the farmers that will stand as a bulwark against organized processors and distributors."

AMERICAN MOVE FROM ETHIOPIA MAY BE STAYED

NAPLES, Italy, July 10.—(AP) The S. S. Belvedere called for East Africa today, bearing the 2,000 blackshirt volunteers of the January 3 division to whom Premier Benito Mussolini delivered Saturday his dictum of an "irreversible" decision in the Ethiopian dispute.

The S. S. Colombo will leave this evening with another 2,000 soldiers.

ADDIS ABABA, July 10.—(AP) New instructions from Washington, as a result of which the withdrawal instructions to Americans in Ethiopia may be rescinded, were understood tonight to have been received by W. Perry George, United States charge d'affaires here.

Several Americans already have started to leave Ethiopia as a result of the new department instructions issued last week, but no panic of any sort was evidenced.

The new instructions were reported received simultaneously with an announcement from the foreign ministry that Ethiopia, "persisting in a peaceful solution" of the dispute with Italy, demands the immediate convocation of the council of the League of Nations.

Failure to agree in the Italo-Ethiopian arbitration commission meeting at Scheveningen, The Netherlands, "following the refusal of the Italian arbitrators to examine the question of Duhai" did not surprise Ethiopian

SCOTT DENIES HAND IN MARTIN RECALL

PORTLAND, July 10.—(AP)—Leah M. Scott of Portland, former chairman of the state highway commission, today declared he is not interested in nor connected with any proposed recall movement against Governor Martin.

Reports from Salem this week indicated that Scott had identified himself with a Marion county group which proposes to contest the right of Martin to serve as governor while at the same time drawing, or entitled to draw, a federal pension as a retired army officer.

Five children have been born to the emperor and empress. One princess died in 1928. The crown prince, their only son, was born in 1933.

STORK DUE IN NOVEMBER FOR JAPANESE EMPRESS

TOKYO, Japan, July 10.—(UP)—Empress Nagako will give birth to a child in November, officials announced today. They said the condition of her majesty is satisfactory.

Banwell Tells Purpose Chamber of Commerce

Editor's Note: Due to the fact that the chamber of commerce has so many diversified activities and also to understand the full purpose of the organization and its benefit to the community, The Mail Tribune has requested A. H. Banwell, manager of the Jackson County Chamber to present the following statement on what a chamber of commerce is:
