

ATTORNEYS VOTE ON BAR DISTRICT GOVERNORS SOON

Tickets to Be Mailed Out Within Ten Days — Nominate George Roberts From First District

SALEM, July 11.—(AP)—Names of 36 attorneys in the three Oregon congressional districts were on the list of nominations for the nine governors of the Oregon State Bar Association, when the nominations closed Wednesday.

In compliance with the law passed by the 1935 legislature three governors will be elected from each district. The first district has nominated eight, the second seven and third 21.

The supreme court clerk's records show 2,300 attorneys residing in the state, 950 of whom are in active practice in Portland. Western Oregon has 450 and eastern Oregon 250 practicing attorneys. Approximately 600 admitted to the bar are not practicing.

The secret ballot election will be conducted by mail under the supervision of the canvassing board of Arthur S. Benson, clerk of the supreme court, John Guy Wilson of Portland and Edward E. Six of Albany. Printed tickets will be mailed to all attorneys in the state within 10 days.

After the election which closes August 15, the nine governors will select one member to serve as president of the board for the year.

Nominations include the following: First District—Judge James T. Brand, Marshfield; Allen O. Carson, Salem; John L. Foote, St. Helens; Frank O. Hesse of Astoria; Fred A. Miller, Oregon City; George M. Roberts, Medford; Fred E. Smith, Eugene; and Oscar Hyster of Dallas.

Second District—Harvey H. Dearmond of Bend; Colon H. Eberhard, La Grande; Harold G. Merryman, Klaskan Falls; Charles Z. Randall, Pendleton; Arthur W. Schupp, Klaskan Falls; A. A. Smith, Baker; Ernest C. Smith of Hood River.

Third District—(Multnomah County)—R. A. Bennett, J. B. Callanan, Kern Crandall, Arthur M. Dibble, Allen G. Frisbie, James S. Gay, Arthur M. Geary, Gilbert E. Hamaker, J. H. Hart, Nicholas Jauregui, Milton R. Klepper, Rogers MacVeach, Robert H. Manure, Eugene Oppenheimer, Geo. A. Pipes, Robert L. Sabin, Jr., Waldemar Seton, B. G. Skulason, Sidney Teiser, H. B. Wartfield.

STRIKE PUT 1146 ON RELIEF ROLLS

PORTLAND, July 11.—(AP)—The Oregon state relief committee estimated today that the Pacific northwest lumber strike has placed 1,146 single men and heads of families on the relief rolls of the state.

The committee estimated, too, that the strike loss to date totals more than \$17,500,000, or \$375,000 for every working day, in Oregon and Washington.

More than 1,700 persons have made application for direct relief in Oregon since the lumber strike was called. Of these, 1,146 have been put on the rolls. The total includes strikers and those affected indirectly by the strike.

MEET the WIFE

MRS. HENRY A. WALLACE

The pretty, young one with bright, brown eyes in the cabinet line-up at receptions is Ho Brown Wallace, wife of the secretary of agriculture. She went to Drake university, Des Moines, where she met Wallace and married him in 1924. Now she runs her husband and family of three with such a gentle hand they prefer spending Sundays together on a picnic with "mother" sitting in the car while "Dad" talks to farmers along the road. She is the ideal wife who calls the office very seldom, but somehow manages to keep a delayed dinner hot, and has her husband's white tie laid out when he is late getting home to dress for an evening out.

NO SET SPEECHES ON ROOSEVELT TRIP WEST

WASHINGTON, July 11.—(AP)—President Roosevelt is arranging no set speeches for his cross-country trip this summer to the Pacific coast, but he said today that he probably will talk informally at stops along the way.

He is making no definite plans for the trip until congress adjourns. At his press conference, Mr. Roosevelt said speed was going to be applied in an effort to conclude the entire legislative program some time in August.

STORK WINS RACE WITH STREET CAR IN TACOMA

TACOMA, July 11.—(AP)—The stork raced a street car here and won with the result that Mrs. Ronald Peterson, 32, of Gig Harbor, gave birth to a baby last evening on a park bench.

The street car was stopped when it lost the race, and friends took Mrs. Peterson to the park. An ambulance was called and carried the mother and baby to a hospital, where both are in good condition.

DANCE At Bonney's Grill Saturday night.

Varicose Veins Are Quickly Reduced

No sensible person should continue to suffer from distasteful and often painful swollen veins or bunches when the new powerful, yet harmless, inhibitory anesthetic, called Emerald Oil can be procured at little cost. Ask any good druggist for a two-ounce original bottle of Emerald Oil (full strength) and refuse substitutes. Use as directed and in a few days note improvement. Then continue until the swollen veins are further reduced. It is guaranteed to give satisfaction or money refunded.

WHEAT AND CORN PROSPECTS OVER 1934 PRODUCTION

Indications Are for 731,045,000 Bushels Wheat — Production Last Year Totaled 496,000,000 Bu.

WASHINGTON, July 11.—(AP)—In its first forecast of this year's corn crop, the department of agriculture today placed indicated production at 2,044,601,010 bushels, based on July 1 conditions.

Last year crop totaled 1,380,718,000 bushels. The 1923-32 ten-year average production was 2,262,000,000.

The indicated wheat crop (winter and spring combined) is 731,045,000 bushels, compared with 670,100,000 bushels indicated a month ago, 496,000,000 last year and 428,000,000, the ten-year average.

The indicated winter wheat crop is 458,001,000 bushels, compared with 441,494,000 a month ago, 405,034,000 last year and 618,186,000, the ten-year average.

All spring wheat production is indicated as 272,954,000 bushels, compared with an estimate of 230,000,000 a month ago, 91,435,000 produced last year, and 242,000,000, the ten-year average.

Durum wheat production is indicated as 37,303,000 bushels, compared with 7,086,000 last year and 84,000,000, the ten-year average.

All other spring wheat production is indicated as 235,651,000 bushels, compared with 84,349,000 last year, and 188,000,000, the ten-year average.

Indicated production of oats is 1,266,243,000 bushels, compared with 928,815,000 last year and 1,318,000,000, the ten-year average.

The indicated production this year of other important crops and their production last year follow: Barley, 317,000,000 bushels, and 118,929,000; rye, 33,100,000 bushels, and 16,040,000; flax seed, 14,500,000 bushels, and 5,233,000; hay (all), 74,500,000 tons, and 56,890,000; beans (dry edible), 13,100,000 bags of 100 lbs., and 11,900,000; apples, 170,000,000 bushels, and 119,855,000; peaches, 92,900,000 bushels, and 45,404,000; pears, 20,900,000 bushels, and 23,474,000.

grapes, 2,150,000 tons, and 1,775,168; potatoes, 366,000,000 bushels, and 385,397,000; hops, 49,400,000 pounds, and 40,345,000.

Grain stocks on farms July 1 were reported as follows:

Corn, 202,450,000 bushels, compared with 474,370,000 a year ago. Wheat, 41,925,000 bushels, compared with 60,323,000 a year ago. Oats, 70,492,000 bushels, compared with 107,577,000 a year ago.

The condition on July 1 of the various crops was: Corn, 67.5 per cent of a normal; all wheat, 77.1; winter wheat, 73.0; all spring wheat, 85.1; Durum wheat, 33.9; other spring wheat, 84.6; oats, 87.3; barley, 87.5; rye, 87.3; flaxseed, 77.2; hay (tame) 84.0; pasture, 38.4; beans (dry edible), 78.0; apples, 64.3; pears, 54.7; grapes, 80.3; potatoes, 82.7; hops, 81.1.

The average of the important crops this year and its percentage of last year's acreage follow:

Corn, 93,300,000 acres and 106.6 per cent of last year's. Wheat (all), 52,226,000 and 123.6; winter wheat, 31,380,000 and 95.2; all spring wheat, 20,847,000 and 224.5; Durum, 2,737,000 and 278.5; other spring wheat, 18,100,000 and 213.3; oats, 39,300,000 and 131.0; barley, 12,957,000 and 182.4; rye, 3,699,000 and 190.5; flaxseed, 2,138,000 and 220.6; hay (tame), 83,010,000 and 102.2; beans (dry edible), 2,047,000 and 146.3; soy beans, 5,463,000 and 129.4; potatoes, 3,256,000 and 98.3; hops, 39,900 and 106.5.

The acreage this year, condition on July 1 and indicated production of the principal crops by important producing states follow:

Winter wheat: Idaho, 523,000, 78, and 9,973,000; Washington, 1,236,000, 77, and 29,046,000; Oregon, 861,000, 64, and 9,386,000; California, 607,000, 84, and 13,662,000.

Spring wheat other than Durum: Idaho, 437,000, 80, and 10,051,000; Washington, 739,000, 66, and 9,876,000; Potatoes: Idaho, 99,000, 88, and 21,283,000.

Spring wheat other than Durum: Idaho, 437,000, 80, and 10,051,000; Washington, 739,000, 66, and 9,876,000; Potatoes: Idaho, 99,000, 88, and 21,283,000.

BAR TO PROCESS TAX DENIED IN U. S. COURT

DENVER, July 11.—(AP) Judge J. Foster Symes of federal district court today declined to issue an order requested by Kansas wheat growers, which would have prevented the collection of processing taxes on wheat.

Oregon Weather. Fair tonight and Friday, but becoming cloudy on the coast and in northwest portion, probably with light rains on the coast Friday; slightly warmer in the interior of southwest portion tonight; gentle variable wind off the coast.

DEVELOPMENT OF NORTH CHINA BIG FUTURE PROJECT

Chief Engineer Visions Huge Program for Flood Control and Hydroelectric Development in Area

NEW ORLEANS.—(UP)—China will be the theater of the next great development drama—agriculturally, economically and industrially, believes Major O. J. Todd, chief engineer of the China international relief commission.

Todd has spent 16 years in China and returned here on a visit recently. Flood control in north China and development of hydroelectric power will change the picture of deserts and famines, the engineer said. The Tennessee Valley Authority project in this country is only a drop in the bucket compared with China's rehabilitation program, Todd believes.

Large Area Restored. The major territory for development is about 1,000 miles square. Already \$25,000,000 has contributed to changing the life in certain parts of the country.

Two recent accomplishments Todd witnessed were completion of the irrigation works in the Wei Pei district of Shensi province and the irrigation of a huge territory in Suiyan province. Hundreds of thousands of acres have been restored to rich farm lands.

Blueprints of the commission include impounding the surplus flood waters of north China. The rainfall is only about 12 inches a year, Todd said, and that usually pours down within a few weeks' time.

Yellow River to Be Harnessed. Harnessing the Yellow river, which in 42 centuries of recorded history has roamed over a 400-mile spread of country is the engineer's next task. Tensin once stood on the banks of the river. Now the watercourse is 150 miles away. It will produce electric power.

"As these public works are put in," Todd said, "huge areas of China that formerly were nomadic, especially those bordering on Mongolia, will be able to support a stable population many times larger than today's totals. The increased production in sections where engineering has been applied has been impressive and is opening the eyes of Chinese officials and the Chinese people to possibilities of their country. It is opening the eyes of the world, too."

Big Feet Result Of Athletic Fad Says Shoe Expert

BOSTON, July 11.—(AP)—This athletic age apparently is not so complimentary to the feet. Ruth Kerr of New York, the only woman in the country who styles shoes for both men and women, said here that shoe sizes are getting bigger and bigger every day.

"The average woman's foot has expanded from 8 1/2 to size 7," she said, "and the average man's foot size is 10 1/2, as compared with 9 1/2 in the old days. Women are getting more conservative in their shoes, while men's shoes are running to colors."

plied has been impressive and is opening the eyes of Chinese officials and the Chinese people to possibilities of their country. It is opening the eyes of the world, too."

Bees Unset Neighborhood. CAMDEN, N. J.—(UP)—An angry swarm of bees nearly caused havoc in a neighborhood here. The bees settled on a tree limb and without "provocation" stung residents, including children, as they left their homes.

ATTENTION FARMERS! It has come to our attention that there are rumors about that we will not do any custom threshing this year, which is a falsehood. We will be out wherever we have contacted and anywhere else we may get a job. First-class work at a reasonable price. Guaranteed. Thorson Bros., Rt. 2, Box 183, Beall Lane, Medford.
