

CAPITOL BUILDING FINANCE AND SITE ARE DETERMINED

(Continued from Page One)

tely upon the adjournment of congress.

The proposed capitol financing plan would provide for the appropriation of \$500,000 at a special session of the legislature later this year, while the remaining \$350,000 of the \$850,000 to be raised by the state would be appropriated by the next regular session. The federal grant would total approximately \$1,500,000.

Danger Seen
"While I have favored a bond issue for construction purposes, I can see the danger of such a proposal," the governor stated, in referring to the danger of such a measure being rejected by the people. He also mentioned the possibility a legislative appropriation would be submitted to referendum, declaring "we have a lot of people in Oregon who desire to prevent progress."

The direct appropriation, if approved by the legislature, would cover a four to five year period, and would remove the necessity of a new tax levy.

Officials said the formal application for the grant would be prepared as quickly as possible and might be forwarded to Washington as early as next week. If approved by the government as it has been indicated it would be, the grant would be "re-marked" and set aside for the capitol construction.

Data To Legislature.
The board took no action relative to architects' competition in connection with the building, but decided to submit all available data to the special legislative session.

"If the federal grant were subjected to the usual federal restrictions I would be opposed to it," the governor declared, after reading a telegram from Senator McNary in which it was assumed that no restriction would be made on the capitol grant.

Martin then presented figures to show that the usual federal restrictions would mean the employment of 2,700 men over a period of three years, and a capitol costing in excess of \$9,000,000.

Governor Martin expressed preference to the Willamette campus or a part of Willson park adjoining the old building site, in event it was necessary to obtain additional property for construction purposes, pointing out that either of those properties would provide sufficient grounds for future expansion.

BUTTER EASIER; EGGS IN DEMAND

PORTLAND, July 12.—(AP)—Butter market in Portland today was easy, and receivers were selling freely at the lower prices which went into effect Thursday. Supplies were plentiful in top grades, but rather limited for 90 cents, for which the demand was excellent. Receipts have been fairly liberal in volume, with shipments to other markets only moderate in volume.

Eggs were scarce. Receipts have been light in volume, and supplies were barely equal to the excellent demand. Competition for the incoming eggs was keen, and the market tone remained firm.

Live poultry market was firm, although receipts have been liberal in volume. Paying prices follow: colored fowl 14@15c; springs and roasters, 15@18c; Leghorn fowls 14c; broilers, 13c; stags, 10c; roosters, 8c.

Dressed poultry trading was moderate today in volume, with fairly good calls for all classes. Jobbing quotations remained about 8@9c above live poultry quotations.

Markets

Livestock
PORTLAND, Ore., July 12.—(AP)—(USDA)—Hog receipts 220 including 148 direct. Market about steady on limited supply. Few fairly good 185-195 lb. weights \$9.75-9.85. Packing sows \$7.25-5.50. Feeder pigs quotable \$9.00-10.00.

CATTLE receipts 100 including five direct; calves 50 including 42 direct. Market around steady. Scattered lots common grass steers \$5.00-6.00. Odd head heifers \$4.50-4.75; load light kinds \$5.25. Low cutter and cutter cows \$2.25-3.25; common to medium cows \$3.50-4.50. Bulls mostly \$4.50-5.00. Common to medium vealers \$4.00-7.00; choice quotable to \$8.00 and above.

SHEEP receipts 750 including 247 direct. Market slow. Few sales steady but bulk of supply unsold. Few good 74-83 lb. lambs \$6.00-6.25. Light yearlings \$4.25; plainer sorts down to \$3.00. Slaughter ewes \$1.75-2.50.

CHICAGO July 12.—(AP)—(USDA)—Hogs: 4000; under 200 lb. fairly active; mostly steady; better grade 200-250 lb. \$9.75-10.20; top \$10.25; 250-300 lb. \$9.25-10.00; 160-200 lbs. \$9.50-10.15; light lights \$9.25-75; sows \$8.25-60.

CATTLE: 3,000; most killing class—

Wall St. Report

NEW YORK, July 12.—(AP)—Most profit takers stepped aside in today's stock market and new buying gave a substantial lift to aviation, motor and specialty issues.

Equities, generally, did not appear disturbed by another drop in wheat values at Chicago. The close was steady to firm. Transfers approximated 1,000,000 shares.

Today's closing prices for 32 selected stocks follow:

Lifeguard Qualifies at 74
BLAIR, Neb.—(UP)—Jonas Burcham, 74-year-old expert swimmer, is serving his fourth consecutive year as lifeguard at a municipal swimming pool. Said to be the oldest lifeguard in the middle-west, Burcham is a great-grandfather but an expert swimmer and diver.

Survivors Find Old Mark.
FALLS CITY, Neb.—(UP)—By a striking coincidence, a lost cornerstone put down by government surveyors 80 years ago was located—80 years later to the day. They ex-

amined a hole 14 feet wide, 47 feet long and four and a half feet deep to find the post.

FEBA Turns Out Looms.
SPRINGFIELD, Mo.—(UP)—Textile manufacturers here another cause for an anti-new deal attitude since FEBA

workers here began making spinning wheels and looms. Thirty-five wheels have been made and 63 looms distributed among families on relief rolls.

Lobbyists' Pay High.
RALEIGH, N. C.—(UP)—The "third house" of the North Carolina legisla-

ture—the lobbyists—was paid \$109,222.85 for services during the 1935 assembly, as compared with \$102,800 paid the state's 170 legislators. A state law requires all lobbyists to file a record of fees they receive.

There are, it is estimated, 10,000 pecan trees on the lots of more than 3,000 homes in San Angelo, Tex.

The average daily vehicle density per mile of state highways in California is 1,572 cars.
