

BUTTER ADVANCES ON WEEKS OPENING

PORTLAND, Ore., July 15.—(AP)—Market for butter showed a firm tone and advances of 1/4 to 1 cent a pound for the week's opening of the cube and print trade as a result of hot weather and great demand for ice cream, which is taking the limited supply of sweet cream. Butterfat was up 1 cent a pound.

Trading in the egg market was fully steady with strength in spots as a result of poor quality and the desire of speculative interests to start out their storage stuff at a stiff premium.

There was a general feeling of steadiness suggested in the cheese trade of the country.

Prices in the main throughout the country were without quotable change either at the source or at primary centers.

STRATOSPHERE HOP FAILS AS GAS BAG EXPLODES

The mysterious collapse of the huge gas bag, holding 375,000 cubic feet of helium, ended a proposed stratosphere flight an hour before it was to begin at Rapid City, S. D. The gondola of Explorer II was shrouded by the deflated bag and momentarily five men were trapped on the metal ball. Soldiers rushed to their rescue. (Associated Press Photo)

MORE FACTORIES NEED OF OREGON DECLARES BAKER

"Markets for your products," said George L. Baker, manager of the Oregon Manufacturers association, "depend upon industrial conditions at home. At present a large percentage of our raw materials are being sent to other sections of the country, because of our limited manufacturing facilities. We need more factories and

larger payrolls to use the many products of our forests, fields and streams. Nature has given us the means of establishing an industrial center in the Columbia Empire district, the United States government has taken advantage of this fact and built the Bonneville dam to supply power. Now, it is our responsibility to continue developing these assets and create a market for our products near at home.

"Commerce," continued Manager Baker, "cannot be limited by state lines no more than a river can have only one bank. Manufacturers must serve the entire territory so that the producers will have more markets for their products. For years the Oregon Manufacturers association has been advocating 'Buy Oregon' through a series of campaigns, and have done much to build industry in our state. Now we are enlisting the strength of our neighbors, and we hope to ac-

complish still more, not only for Oregon, but for industry of the entire territory, which is really the 'Old Oregon Country'—the Columbia Empire."

Today, the board of directors of the Oregon Manufacturers association filed articles of incorporation at Salem for a new organization, to be known as the "Columbia Empire Industries, Inc."

The Oregon Manufacturers association is reorganizing under the banner of this new organization, which will bring into being a new and more powerful allied manufacturing group, representing the entire territory of the Columbia Empire," explained Manager Baker.

George L. Baker, former mayor of Portland, has been engaged as manager of the Columbia Empire Industries, Inc. The officers of the new organization shall remain the same

as the Oregon Manufacturers Association, at least temporarily. I. S. President, W. R. Lake of the Mail-Well Envelope company; first vice-president, Robert R. McKean of the Knight Packing company; second vice-president, Dr. Liel Underdahl of the American Hecolite corporation; secretary-treasurer, Charles E. Cassel and directors, Paul Birch of the Sperry Flour Co., Charles H. Carver of the Portland Woolen Mills, B. P. John of the B. P. John Furniture Corp., Irving T. Rau of the St. Helens Pulp and Paper Co., John H. Gibb of the Portland Chemical and Portland Caeket companies, William A. Prior of the Oregon Brass Works and Joss A. Digma of Cisset & Devers.

"We believe," says Manager Baker, "that the time has come when manufacturers of the Columbia Empire territory have a common cause and

there is no longer room for a division on the basis of state boundaries. We have found in Oregon that industry can be developed by means of campaigns and we believe it can be developed faster by having our sister states in the Columbia Empire represented in the campaign."

"The Columbia Empire Industries, Inc., are making plans for a world-wide promotion of our industries. They will have a general service to manufacturers, including legislative service, counsel, trade information, market information, and assistance in the working out of various problems. The Old Oregon Country is again combining its forces and will do things in a big order that should mean increased business, increased payrolls and increased demand for raw materials."
