LEONARD ELECTRIC IN NEW SPOT SOON

Work is being rushed to complete remodeling at the Leonard Electric Company's new location in the Warner, Wortman and Gore building at 305 East Main street, preparatory to opening the attractive establishment in the very near future, according to an announcement by Morris B. Leonard.

In addition to being in the heart of the downtown shopping district, Leonard's new store will provide a great deal of space for display purposes, the room being 24 by 140 feet in size. Large, solid plate show windows will be particularly effective for exhibiting modern electrical equipment.

"It is our aim to make the Leonard Electric company a complete electrical unit with indirect lighting and the latest Montag heating system, and other up-to-date fixtures. The store will be air-conditioned for summer comfort," Mr. Leonard said today.

Every walk with mahogany trim will characterize the interior of Leonard's store. Nationally advertised lines of electrical merchandise to be featured by Leonard's will include Fridaires, both domestic and commercial; General Electric radios and appliances; Easy washers, Montags oil burning equipment; Weber refrigerated show cases and fixtures, Delco water systems and lighting plants.

Mr. Leonard has been active in the electrical business in Medford for the past 12 years and has a thorough knowledge of buying and selling high quality goods. Mrs. Leonard, who is associated with Mr. Leonard in operating the store in the Holly building will also assist at the East Main location.
