Thirtieth Year MEDFORD, OREGON, MONDAY, JULY 22, 1935 No. 103.

NAZIS TIGHTEN BONDS ON CHURCH

By PAUL MALLON
 Copyright, 1935, By Paul Mallon
 WASHINGTON, July 22.—President Roosevelt is closely following the rise of the opposition tide through the press. He still reads the papers each day, giving first attention to those which are slandering him hardest.

Consequently, he was the first to veto when one of the bills of opposition writers published an old Taft veto message. In it, Mr. Taft belabored congress for substituting public whims by passing unconstitutional laws. It was apparently a pertinent point and struck deep. Other writers picked it up in good faith without investigating it, and spread it broadcast.

The president considered it so serious a blow that he looked into the matter personally. He discovered that Mr. Taft had sent such a veto message to congress, but that congress had passed the law over the veto and the supreme court actually upheld its constitutionality. In other words, the new deal antagonist had left out the most important half of the story, which was that Mr. Taft was wrong.

The veto concerned the Webb-Kenyon act, which prevented shipment of liquor into dry states. The message was sent to congress by Mr. Taft Feb. 22, 1913; congress passed it over the veto the same day; constitutionality was upheld by the supreme court in a suit brought by the Clark Distilling Co. in 1916; the decision was 7 to 2, with Justices Holmes and Van Deventer dissenting.

The president has fled away his evidence without saying anything, except to a few friends. He will probably use it in a speech during his coming western campaign. Thus, what was intended as a stiff blow against him may turn out to be wind on his sails. He will be able to charge that he is being misrepresented.

Some of the good republicans here began to manifest concern over this situation recently, without knowing about this particular incident. They have about decided that their opposition camp is getting too big. Such attacks as those made by Senator Schell, for instance, are embarrassing to intelligent opposition.

For this reason and others, the republicans now are casting about for an extra-good publicity man who can center opposition publicly along definite lines. They want a man with executive advertising background, capable of outwitting the new deal publicity machine.

Another thing which Mr. Roosevelt has read with concern in the papers lately is that Huey Long called him "a liar" and "a fraud" or something equally subtle.

Letters have been coming into the White House from Mr. Roosevelt's followers, demanding that he do something about such talk, that he stop letting it pass unnoticed.

Answers have been sent out that the president will not and cannot do anything. He cannot reasonably come out with a denial saying he is a truthful and honest man. Nor can he lower the plane of executive pronouncement to Huey's level of personalities.

Therefore, silent suffering will continue. Certain of the republican high commanders are inwardly perturbed.

SIDE GLANCES
 by TRIBUNE REPORTERS
 Sandy Green, after being robbed and asked what the robber said—"Nothing! He didn't even say thanks, the ungrateful dog!"
 A large respectable looking police dog being converted into a drowned rat by small boy squirting him with a hose on North Riverside.
 Otto Frohmayer, oblivious of patterning raindrops, sitting ready for a good cooling swim in the Rogue.
 Mrs. Lued in from Thompson creek, and highly indignant that she should be asked, "How are things out on Williams creek?" They're both boys names, anyway.
 James E. Edmiston, Sr., telling a reporter to quit crying about his new shoes, which hurt, because a reporter has no business with more than one pair of shoes, anyway.
 Two men thinking that they had discovered an attempted jail break atop the court house, because of rapping sounds drifting to the street below—it was the flag being raised.

YOUNG LUTHERANS CATHOLICS, TARGET OF LATEST EDICT

Forbidden To Wear Distinctive Garb Or March Together — Drive Against Jews Growing In Heat.

By Rudolph Josten
 Associated Press Foreign Staff
 (Copyright, 1935, by the Associated Press)

BERLIN, July 22.—Wilhelm Frick, minister of the interior, ordered all German state governments today to forbid all organizations of confessional (Lutheran and Roman Catholic) youth to wear distinctive garb or insignia, or to march together. The new order, a direct blow at the young members of the Lutheran and Catholic church "political organizations," followed within a few hours after Reichsfuehrer Hitler's newspaper Voelkischer Beobachter had ranked political Catholicism as "Public Enemy No. 1" and in the midst of an increasingly heated campaign against the Jews.

Frick's decree ordered the organizations of confessional youth to refrain from all quasi-military and athletic sports.

The full machinery of the Nazi press was invoked in a general fight against political Catholicism and Jews with both Catholic organizations and Jews included in the term "reactionaries."

From the palatinate came word that Catholic youth organizations can no longer wear their distinctive garb in public and may not display flags and emblems. They also were forbidden all athletic activities as organizations.

It appeared but a question of time when all Nazi district leaders throughout the Reich, will have issued the same ban on Catholic youth organizations.

Arrests Not Made
 Two factors, apparently, were delaying more stringent action against both the Roman Catholic and Protestant churches—consequently, arrests which had been threatened.

WOULD SAFEGUARD OREGON'S TIMBER

PORTLAND, July 22.—(AP)—A suggestion that a recommendation be made to President Roosevelt for expenditure of from \$25,000,000 to \$30,000,000 to safeguard Oregon's timber resources, was to be offered to Secretary of Agriculture Wallace today at Walla Walla by Walter W. B. May, manager of the Portland chamber of commerce.

Secretary Wallace was to be in Walla Walla today for a meeting with wheat growers of the inland empire.

BORAH BONUS DRIVE SPURS F. R. FORCES

WASHINGTON, July 22.—(AP)—Roosevelt forces sought today to discourage a drive announced by Senator Borah (R-Idaho) to attach the Palmer bonus bill and the Frazer-Lemke farm mortgage bill to the administration's tax legislation.

Confronted by Borah's assertion that inflationary members would hold congress in session until November 1, Senator Robinson, the democratic leader, expressed belief that adjournment should be reached by August 15.

Single Birth Is Boon To Mother Of Quadruplets
 SAC CITY, Ia., July 22.—(AP)—Mrs. Larry Wycoff, 34, who a year ago last month gave birth to quadruplets, had another child today—a 6½ pound girl.
 With a sigh, she said: "I'm glad there wasn't more than one."
 Mrs. Wycoff had given birth to five children prior to the quadruplets. One of the quadruplets died, however, within a few weeks. The others are doing well.

"SON OF TWO FATHERS" ENTITLED TO TWO WIVES

By MORRIS J. HARRIS
 Associated Press Foreign Staff
 KILING, KIANGSI, China, July 22.—(AP)—Venerable President Lin Sen of China granted to his nephew and foster son, James Lin, the "right to make his own decision" today in the youth's marriage to Viola Brown, Columbus, Ohio, schoolgirl.

"My nephew did not consult me about his marriage in America until I, at which time I already had told the press of my disapproval," the president said in an interview.

"However, according to law, he is of age and has a right to make his own personal decisions."

The semi-official news agency, Kuomintang, at the same time published reports denying rumors that young Lin already had two wives in China. Friends of the family were represented as pointing out that under Chinese law Lin is regarded as the son of two fathers and therefore entitled to marry twice. The news agency reported:

Press reports that as the son of two fathers James Lin while in China married a second wife, the sister of his first wife, have been denied by persons close to President Lin.

Lin is a son of President Lin Sen's brother, who died 20 years ago. Since then he has been the foster son of the president, who has supported the youth but has had few personal connections with him because of the pressure of political affairs.

The president's statement dispelled rumors that he was about to bring pressure against Lin.

The semi-official news agency had reported that President Lin Sen instructed Alfred See, Chinese ambassador to Washington, to send Lin back home.

30 FOREST FIRES SET BY LIGHTNING KEEP CREWS BUSY

Every fire-fighting crew in Rogue River national forest was either standing by or at work today on approximately 30 forest fires started by lightning in last night's severe thunder storm.

Heavy rainfall in the mountains served to check the fires temporarily, confining most of them to single trees, but clearing weather today necessitated prompt action as new blazes were reported by forest lookouts. None of the fires were considered spreading dangerously this morning.

State Fire Warden Dwight Phillips reported six lightning fires in state lands, all of which were being controlled. Several trees in the hills surrounding Shady Cove struck by lightning were burning like huge torches last night despite the rainfall.

Centering in that section momentarily about 8:30 o'clock, the lightning also struck two power transformers, blowing out all electric lights in the river cottages.

The storm was of a local nature. It was reported by the weather bureau, being confined to the mountainous sections of southern Oregon and northern California. The storm developed in southwestern Oregon and traveled across this section from that direction.

Heaviest rainfall was reported by the forest service at Wagner Butte, where 1.35 inches fell. The least amount of precipitation within Rogue River National forest was .35 of an inch at Star Ranger station in the Applegate district.

The precipitation in Medford was officially recorded as .22 of an inch.

BURGLARS VISIT STORE IN ASHLAND
 Thieves entered the Fortmiller dry-goods store at Ashland last night. It was reported in Medford today, taking a gladstone bag and several articles of men's and women's apparel said to be valued at \$100.
 State and Ashland city police were investigating the robbery with the belief that it is connected with a week-end series in this city and in Gold Hill.
 The robbers entered the store by boring holes through the roof, gaining entrance to an upstairs storeroom and boring through a door to make their way downstairs.
 The Fortmiller store is that formerly known as the Isaacs dry-goods firm.

SENATE IN FAVOR PROTECTION FOR FARM PRODUCTS

LaFollette Amendment to AAA Bill Adopted 60-17 — Permits President Make Import Quota Restrictions

WASHINGTON, July 22.—(AP)—Moving to protect the administration's farm program against court attacks, the senate today voted to validate crop control contracts between the agriculture department and farmers.

Quickly the senate then struck out of the AAA bill the last vestige of price fixing provisions by adopting an amendment by Senator Byrd (D., Va.).

Another amendment was attached by Byrd requiring that no marketing agreement may be entered into among handlers without the consent of two-thirds of the producers.

WASHINGTON, July 22.—(AP)—By a vote of 60 to 17, the senate today adopted an amendment by Senator LaFollette (Iowa, Wis.), to the AAA bill permitting the president to impose quota restrictions on agricultural imports to preserve price gains achieved by the domestic farm program.

The LaFollette amendment was supported by many democrats along with a goodly number of republicans. In effect, it is a substitute for the house provision in the bill which would have permitted the president to impose quotas and increase tariffs on commodities whose imports—

3 TRAPPED, PERISH WHEN FIRE RAZES ABERDEEN HOTEL

ABERDEEN, July 22.—(AP)—Three men are dead, one in an extremely critical condition, two others badly injured and two more less dangerously hurt as the result of a fire which destroyed the three-story frame Del Monte hotel.

The fire, of undetermined origin, which broke out early yesterday, swept through the building so quickly that J. Joergen, 40, and Joe Martin, 38, laborers, were trapped and died in their rooms.

Leaving from a third story window waiting to be rescued, Max Larson, a longshoreman, was blown from it by an unexplained blast. He fell to a metal marquee, rolled to the sidewalk and died shortly later.

Hospital attendants late last night said there was slight hope of recovery for Pete Roostoe, 56, who was burned over his entire body. A Paulson, 40, and J. F. Cochran, 38, suffered broken backs in jumping from windows.

Frank E. Mitchell, 73, received back injuries and Frank Talley, 71, was burned on the face and hands.

Fire Chief Charles A. Borum said the fire started at one corner on the second floor of the hotel, built 46 years ago, and that the flames spread with lightning-like rapidity into the third floor. In a few minutes they broke through the roof.

Thirty-two men were sleeping in the hotel when a man whose name was not learned discovered the fire and sounded the alarm. Twenty-four men escaped by jumping from windows or by sliding down ropes or fire ladders.

Co-op Steamer Service Plan of Apple Growers To Reduce Freight Cost

Washington Movement Would Shave \$20 On Shipments to East Coast Is Claim of Backers

By H. C. HUNTER
 Associated Press Staff Writer.
 SEATTLE, July 22.—(AP)—A giant cooperative movement by Washington state apple growers to eliminate large freight costs to the Atlantic coast through operation of their own ships was reported under consideration here today.

While refusing the use of his name, a Seattle man who has been in close contact with apple growers and shippers in the central and eastern parts of the state said such a movement is well under way and purchase or construction of two large refrigerated ships is contemplated as the first step in the program.

"Such a program is the only possible relief from the high rail rates the growers and shippers are forced to pay at present," he said. "Through operation of their own vessels the growers will be able to save close to \$20 a ton on shipments to eastern coastal points."

Return Cargoes Seen
 The huge saving on freight costs on the fruit would not be the only advantage to the growers, he said, for by making purchases through a cooperative organization they would be able to use the ships for return cargoes of nails, fertilizer, sprays and other products needed in the orchards. Naturally, he added, the ships could not be used for general cargo work, but would be available to transport the costs of equipment and materials produced in the east and needed by growers in this state.

Such a program, placing the cooperative in the business of transporting to market its own product, would enable Washington growers to compete more successfully on the eastern markets with apples from the New England states, New York, Virginia—

FAMED CALIENTE CLOSED TIGHT BY PRESIDENTS EDICT

AGUA CALIENTE, Mexico, July 22.—(AP)—The picturesque Agua Caliente resort, largely paid for by American dollars lost in its palatial casino by film celebrities and thrill-seeking tourists, was padlocked today.

By decree of President Cardenas of Mexico all gambling was forbidden at the resort after Saturday night. Since gambling, either in its casino or on its race track, had been the life-blood of the resort, Baron Long, president of the company controlling the resort, immediately ordered the closing of the hotel, the spa, restaurant, bath—everything.

Guests were ordered from their rooms yesterday. Houses began to move across the border to American tracks as it became evident there would be no more racing.

The world-famed resort, in existence for the past seven years, had been erected at a cost variously given at from \$6,000,000 to \$10,000,000.

Tijuana's gambling casinos also felt the presidential decree. Agua Caliente and Tijuana had been the last places in Mexico in which open gambling had been allowed.

MORMONS CALLED TO SACRED GROVE

PALMYRA, N. Y., July 22.—(AP)—The blaze of trumpets sounding in the "Vision Grove" at 7:30 a. m. today called to worship hundreds of persons who made a pilgrimage here for dedication ceremonies at the unveiling of a memorial shaft to the Angel Moroni.

Breakfast in the sacred grove, not far from the crest of the hill where the nine-foot statue of the angel surmounts the thirty-foot granite shaft, opened the day's services, featured by religious talks by leaders of the Mormon church.

SIGNATURE CHECK WILL BE MADE ON BANKS' PETITIONS

Report of Many That Names Appear Without Knowledge or Authority Moves Authorities To Action.

A check of names of Jackson county signers of the petition asking for an investigation into the conviction of L. A. Banks, former local agitator serving life in state prison, for murder, will be made by state and county authorities. The signatures on the original petition, will be photographed, and compared with signatures on registration cards.

This action was decided upon following the report of many, that their names appeared without their knowledge and authority. Others said they signed the petition "under a misapprehension," and in the belief a sanity hearing was being requested.

Some of the signers, according to county authorities, declare they saw the name of "Rufus C. Holman" typewritten at the top of the petition they signed. The state treasurer is reported as having denied the impeachment, and was irked no end. The name does not appear on the original petition authorities say. This angle of the petition is also being investigated.

Hearing Set Aug. 2.
 The governor has set Friday, August 2, as the time for a hearing into—

AMERICAN MISSION FIRED ON BY JAPS AT YOCHOW, CHINA

HANDOW, China, July 22.—(AP)—The American missionaries at the American missionary school of Huping college at Yochow, Hunan province, reported today they were subjected to machine gun fire from a Japanese gunboat July 18.

The missionaries reported the alleged incident when they arrived here from their post which is in the vicinity of Tungting lake, where the gunboat, which was not identified, was said to have been cruising.

One of those making the report was the Rev. Edwin Beck of Tiffin, Ohio, Huping college, which is a school for Chinese boys, is owned by the Reformed Church of the United States Mission Headquarters in Philadelphia.

According to the Rev. Mr. Beck, the armed Japanese craft subjected the Huping college building, including the residence for foreigners, to a shower of soft-nosed machine gun bullets, endangering the lives of nearly every one in the place, but no one was injured.

He stated that the Japanese craft departed without explanation of its "strange act." Japanese naval officers here in Handow did not comment upon the charge.

PEAR GROWERS TO REGULATE SUPPLY

SACRAMENTO, July 22.—(AP)—Growers and shippers of deciduous tree fruits were in Sacramento today to discuss the new 1935 deciduous tree fruit marketing agreement, which became effective Saturday.

The central control committee, of which W. P. Darst, a grower of Walnut Grove, is the chairman, met during the morning, with Bartlett pear commodity committee, also headed by Darst, convened later.

The pear growers plan to place into effect immediately the rail concentration plan used last year. Under this plan, the daily shipments into the eastern market are regulated so as to prevent an over supply and assure the growers of the maximum return for their crop.

Over - Stuffed Boy Championship Goes Across Atlantic
 By the Associated Press.
 There's a new international complication of major proportions—which nation has the fattest boy, England or the United States? Today, England was tops.
 Leslie Bowles, three years and four months, puts on 14 more pounds and now tips the scales at 142 pounds.
 This brought dismay to the folks in Gloucester, Mass. Their own Joe Handanz, Jr., three years and six months, lost the lead. His weight now totals only 135 pounds.

THREE GOLD HILL PLACES ENTERED, SAFE BLAST FAILS

Nitro-glycerine poured through the cracks of the safe door at the Southern Pacific railway station at Gold Hill last night failed to jar the safe open, foiling the would-be thieves who also raided two other Gold Hill establishments in a series of depredations which bear marked similarity to a raid conducted on the same three places on May 27 of this year.

At about 2:00 o'clock this morning, Gold Hill residents heard a blast in the neighborhood of the railroad station, but believed it to be thunder. This morning it was discovered that the door had been "jimmied," and the safe tampered with.

On May 28, the Mail Tribune carried a story relative to the robbing of the same station. That time, a pair of pliers and 12 cents in cash were taken. Last night the loot consisted of nine cents in money, and tools and oil from an adjacent tool shed. In the May 27 robbery, the Hamm IGA grocery store was entered and whiskey, a shoulder of meat, bacon and canned goods were taken; last night whiskey, a small amount of cash, and possibly groceries were taken.

In the earlier robbery a .22 calibre rifle, three dozen pocket knives, files and levers were taken from the Gold Hill hardware store. Last night a shotgun, ammunition, and a large flashlight were stolen.

The similarity of the two cases indicates that the robberies were performed by the same persons, say state police and sheriff's officers who are working on the case today.

BASEBALL

American	R. H. E.
BOSTON, July 22.—(AP)—Wes Ferrell for the second time in as many days banged out a home run in the ninth inning today to win a tall game for the Red Sox. His homer today gave the Sox a 2 to 1 victory over the St. Louis Browns. Yesterday his clutch bat beat Detroit.	1 7 0 2 8 0 Coffman and Heath; W. Ferrell and R. Ferrell.

ITALIANS EXCITED BY JAP ATTITUDE

ROME, July 22.—(AP)—The Japanese embassy was placed under special guard tonight while the whole Italian nation excitedly discussed a furious press campaign directed against Japan's reported opposition to the Italo-Ethiopian conflict.

The controversy became red hot over allegedly conflicting reports from Tokyo and from the Japanese embassy here as to whether Ambassador Sugimura of Japan had told Premier Mussolini that Japan had no interests in Ethiopia.

AMERICAN LEGION POST TO INSTRUCT DELEGATES

Post No. 15, American Legion, will meet tonight with instruction of delegates to the forthcoming state convention at the important business to be transacted, according to word from Commander J. E. Foy, in Ethiopia.
