

ETHIOPIA REPEATS PLEA FOR ACTION LEAGUE OF NATIONS

(Continued from Page One)

dent is considered by the conciliation body.)

The British government has decided to forbid exportation of arms and ammunition to both Italy and Ethiopia, the house of commons was officially informed.

Sir Samuel Hoare, foreign secretary, explained, however, that a treaty with Ethiopia gave that country the right to receive arms shipments across territory owned or controlled by the British empire.

The foreign affairs committee of the Belgian senate was informed Belgium will ban arms shipments to Ethiopia.

Great Britain and France, two of the most powerful forces in the league of nations, planned separately today their campaigns of procedure to be undertaken next week at Geneva in an effort to stave off the threatened war between Italy and Ethiopia.

The respective cabinets studied the situation and both governments were reported as favoring a league solution of the problem.

In Italy, public interest in what relationship Japan has with Ethiopia, if any, ran high, although a Japanese foreign office spokesman denied Japan was exporting arms to Ethiopia.

SLATE ARGUMENT IN PUGH APPEAL

Arguments on the appeal to the state supreme court of Kyle Pugh, under a five year state prison sentence on conviction of criminal syndicalism, are scheduled to be heard during September, according to word received by the district attorney from the clerk of the supreme court.

New York attorneys representing Pugh, have been granted until August 15 to file an amended petition (friend in the court) brief, in behalf of Pugh. The Eastern counsel will introduce their brief, on constitutional points of the Oregon criminal syndicalism law.

Pugh, a resident of Josephine county, is out on \$2500 bonds pending appeal. He was arrested near Central Point a year ago, charged with the sale, possession and distribution of communistic literature, advocating overthrow of the American form of government.

The case attracted considerable attention throughout the Northwest, and many petitions were received by Jackson county authorities asking for the release of Pugh during his incarceration and before his trial.

GREENS RECOUP BURGLARY LOSS

The Sandy Green family coffers are richer today by \$1300, despite Sandy's lavish donations of \$600 to a bandit last Saturday night. And it isn't Sandy who recouped the fortunes at all—it's Mrs. Sandy, who up until a few weeks ago went by the name of Miss Carvel Reames.

About three weeks ago and about three weeks after his marriage, Sandy bought the General service station at 400 East Main street. The purchase was a drain on the finances, but everything was going fine until a robber held Sandy up and departed with all but 16 cents of the cash on hand, Sandy merely mentioned that if he'd come back, he could have the 16c, and started to work on making up the loss.

Not content to take such a roundabout method, Mrs. Green just returned her name in a letter, told Sandy to sit tight and have one of the remaining 16c and she'd do the rest—which she did last night, and now Sandy is having a tough time trying to convince her that he's the breadwinner of the family. And not having much luck.

LUTHER DEUEL AUTO STOLEN FROM HOME

Sometime after 2 o'clock this morning, the Ford roadster of Luther Deuel was stolen from the driveway of his home at 1018 So. Oakdale. City police, who are investigating the case, stated that the car had probably been "spotted" by the thief at some other time, and was wanted because of its easily interchangeable parts with other cars, rather than as a means of transportation out of the district.

When Kramer Deuel, brother of Luther, arrived home at 2, the car was in the driveway, and he parked his own machine directly behind it. Apparently the thief pushed the car several blocks away from the house before starting the motor, as no sounds were heard.

vella's tax program, democratic members of the house ways and means committee agreed tentatively on a bill which it was estimated would raise \$200,000,000 a year in additional revenue. No provision for the intercorporate dividend tax proposed by the president was made in the tentative agreement.

While the Guffey bill to set up "a little NRA" for the bituminous coal industry remained locked in a house committee, representatives of Appalachian operators and the United Mine Workers renewed efforts to reach an agreement on new wage and hour contracts.

After half an hour they recessed until tomorrow, one of the conferees reporting "no progress." The miners' leaders have indicated they will strike August 1 unless an agreement is reached by then.

In the senate, debate continued on the compromise bank bill, with Senator Glass (D-Va.) expressing amusement that Governor Eccles of the federal reserve board wanted to prevent inflation.

"Of all the inflationists in this country he has exceeded the group," Glass said.

Additional government borrowing was announced by Secretary Morgenthau. He said the treasury would sell \$100,000,000 of 20-25 year 2 1/2 per cent bonds to the highest bidder next Monday.

SELECTIVE BUYING during the greater part of the session, however, acted as a cushion for the fall and many issues held to a narrow groove. The close was rather heavy. Transfers approximated 1,300,000 shares.

KLAMATH DELUGE ACCOMPANIED BY ELECTRIC STORM

where the big Klamath potato acreage had been irrigated, there will be too much water, the county agricultural reporter said.

Much cut hay was ruined but second growth alfalfa was saved. Many fields of grain were knocked down. Farmers welcomed the moisture as grain was dry.

Grazing lands were refreshed.

(By the Associated Press)
Flood-swept central Oregon was digging out from a mass of wreckage today, while most of the rest of the state was enjoying moderate summer temperatures.

Federal and state relief workers were being dispatched rapidly to the area around the Pine Creek valley where the full force of Tuesday night's violent storm brought heavy damage to farm homes, crop, livestock and equipment and where several persons narrowly escaped death in the raging water.

One woman, with a baby in her arms, clung to the limb of a tree in her flood-swept orchard after the debris-laden waters had swept her

apprehension that they were for a probe of Banks' claim of "a poison plot in prison" in a long rambling affidavit Banks alleges that hi-chloride of mercury was placed in his sugar, along with a characteristic series of vicious and libelous allegations, ranging from murder to alienation of his wife's affections.

A photostatic copy of the original petition filed in the governor's office was received yesterday by the district attorney, and will be checked with names on registration cards.

A petition protesting any clemency to convict Banks, was being signed today by students and former students of Medford high school. The slain peace officer was highly popular among the students, and often acted in an advisory capacity to youth.

A similar petition was presented to former Governor Julius L. Meier, when the first pardon drive was launched, and was destroyed, with other protests and petitions in the fire that swept the state capitol last April.

Besides the chemical analysis, the water will be tested for its refractory powers. The present theory of the lake's unusual blue is based on light refraction, in that long-wave colors such as reds and yellows, are absorbed by the water, whereas the short-wave blue of the spectrum is retained near the surface of the lake and sent back to the observers above.

SAVANT STUDIES BLUE IN CRATER

Dr. E. Pettit of Mount Wilson observatory, a recent visitor at Crater Lake national park, procured samples of water from the lake, taken at various depths and confined to vacuums, for the purpose of conducting chemical tests in an effort to determine whether or not there is present any substance responsible for the water's remarkably deep blue color. The tests will be conducted at the observatory.

ROSEBURG YOUTH SHOT BY BROTHER

(Continued from Page One)

ROSEBURG, July 25.—(AP)—Dan Tindall, aged 6, son of M. Tindall, living on the Dixonville road east of Roseburg, is in the hospital here with a bullet wound in his right chest accidentally inflicted at the family home yesterday afternoon by his brother, Denny, aged 10. According to an official report of the affair, Denny, while playing with a .22 calibre rifle inside the house, discharged the gun through a window and the bullet struck the younger boy, standing under a tree. The bullet came out of Dan's right shoulder. At the hospital it was stated that the boy would probably recover.
