

2 MEDFORD HOMES, LAUNDRY RIFLED BY BURGLAR GANG

Burglars struck again in Medford last night, in three different places. The William Lockard residence at 1196 West Tenth street was entered by way of the rear door, and \$43 in currency and \$3 in silver taken from the purse of Mrs. Lockard while Mr. Lockard was sitting on the front porch. The prowler went into a back bedroom, found the purse in a bureau drawer, ransacked the other drawers, but nothing else was found missing today.

R. L. Chisman, 212 South Jay street, reported to city police last night that his home had been entered by prowlers sometime between 1:30 and 8:30 p. m. yesterday, by cutting a hole in the screen and entering a rear bedroom window. A gold watch, gold chain and gold knife, an Eastman kodak, 35 Indian-head pennies, two or three small gold rings, several gold pins, three uncut garnet stones and one cut garnet were included in the loot.

The American Laundry on South Central street was entered by way of the bundle chute, and an attempt was apparently made to jimmy the cash register with a screwdriver. The attempt failed, however, and a nearby safe was not tampered with. City police, who are investigating the attempted robbery, stated today that the signs indicate that it was the work of same boys.

ETHEL MAY CURRAN, FORMER RESIDENT, TO FINAL REWARD

Roy Howard has returned from Monterey Park, Cal., where he went to pay the last tribute to his sister, Ethel Curran, who passed away in that city.

Mrs. Curran, daughter of Mr. and Mrs. W. M. Howard of Medford, passed away at her home in Monterey Park, July 7, 1935.

Mrs. Curran spent most of her life until the past few years, in the vicinity of Medford, and attended the Oak Grove school.

She clerked for several years in Mann's department store, and later in the Shields drygoods store.

She was united in marriage to F. J. Curran, December 29, 1911.

To this union was born one daughter, Miss Genevieve Curran. Her health failing, they moved to southern California, hoping she might be benefited.

Mrs. Curran has had poor health for years. She was always an active, energetic and very capable woman in many vocations, always ready and willing to help those with whom she came in contact. Her chief characteristic was cheerfulness.

She leaves to mourn her passing a daughter, Genevieve Curran, her mother and father, Mr. and Mrs. W. M. Howard; a brother, Roy Howard, and family, all of Medford; two aunts, Misses Rita and Eric Johnson of Ashland, Ore.; an uncle, W. O. Johnson of Merrill, Ore., and numerous other relatives and a host of friends both in Oregon and California.

The interment took place in the beautiful cemetery in San Gabriel, Cal., on July 10, 1935.

RECKLESS DRIVER TERM SUSPENDED

Hubert Beer, Medford young man who was arrested July 13 on a charge of reckless driving when the car he was operating struck a parked machine on North Riverside, pleaded guilty to that charge in city court this morning, and was given a suspended sentence of 10 days, upon his promise to repair the other machine.

Beer told Police Judge Allen D. Curry that as he was driving south on Riverside a car turned left in front of him, and in swinging right to go around the turning machine he struck the parked car, which he did not see.

Verne Canon Gets Fast Results Via Mail Tribune Ad

"It pays to advertise" is an old-time-honored phrase, but Verne Canon is quite sure today that it is a true one. An advertisement in yesterday morning's lost-and-found column of this paper stated that a ring set with three diamonds had been lost, and asked that the finder turn it in to the Mail Tribune office.

At 11 o'clock, only a few hours after the paper had been distributed, Ira Dawson of North Fir street brought the ring in. He had found it on the sidewalk near the Rex cage, on Main street. Mr. Canon paid Dawson a reward.

According to an announcement made by O. R. Durham, director of the federal transient bureau of this city, orders have been received for the closing of the bureau here on August 1 next Thursday.

This move is in connection with the decision of the federal director of transient activities in Washington to close one-third of the transient shelters in the United States. About one hundred shelters will be affected by this move, Mr. Durham states that the bureau at Salem is also being closed on August 1.

Transient men who have been resident in centers and camps for two weeks prior to July 15th are being registered for work in the PWA.

PARK DIRECTOR ON CRATER TRIP; LUNCHEON GUEST

A. E. Demaree, assistant director of national parks, and Mrs. Demaree, were given an informal luncheon at the Hotel Medford, by the Chamber of Commerce, Sunday noon attended by a small group of representative citizens.

Ben Harder, president of the chamber, presided and introduced Mr. Demaree, who talked informally about his present trip of inspection, the rapid development of the national park system, not only in the west but in the east, and the increased support given by congress, because it is no longer exclusively a western interest. On this tour the speaker stated he found all national parks enjoying increased patronage in a marked degree; the people are traveling and spending their money, which he maintained removed all doubt that the depression is really over and recovery is actually here.

From Medford, Mr. and Mrs. Demaree went to the Oregon Caves and will continue on up the coast, planning to return to California so Mr. Demaree can be a guest at the annual jinks in the Bohemian Grove, Marin county, next month.

The assistant director and wife were accompanied by superintendent of Crater Lake park, David Canfield, and Mrs. Canfield, all being very enthusiastic about a visit to the Lava Beds national monument, about 50 miles from Klamath Falls, which was concluded just previous to their Medford visit.

Wall St. Report

NEW YORK, July 29.—(AP)—The rails led the stock market on an other upward push today, and the steel, communications and scattered specialties joined in the celebration.

Numerous issues registered new highs for the year or longer with the majority of gains ranging from 1 to 2 or more points. The close was strong. Transfers approximated 1,750,000 shares.

Brokers could find nothing in the news to account for the buying wave other than signs of steadily

expanding trade and industry. Investment demand was given credit for much of the demand. A cheerful straw in the wind was the estimate of the American Iron & Steel Institute that current mill operations were at 44 per cent of capacity, up 18 points over the preceding week.

Among the principal share gainers, Pacific Lighting, Santa Fe, Pennsylvania, Allied Chemical, U. S. Steel common and preferred, Bethlehem, Sharon Steel Hoop, National Steel, Chrysler, General Motors, Westinghouse, American Car & Foundry, Bridgeport Brass, Electric Boat and Studebaker.

PERFECTION

The Result of Directed Effort

Truly beautiful things are sometimes beyond the power of the individual. It is often found that the best perfection until now adds his efforts to those of nature. This final step marks the difference between the commonplace and the perfect in the practice of all professions, and has, with us, formed a goal of ultimate perfection toward which those associated with us constantly strive.
