**ETHIOPIA TO USE CIVET CAT STENCH TO ROUTE IL DUCE**

ADDIS ABABA, Aug. 10.—(P)—The malodorous civet cat, which smells just as bad as the United States skunk and grows three times as large, was drafted today for possible hostilities against Italy.

Emperor Haile Selassie's ministry of commerce not only ordered a speeding up in culture of the civet cat to obtain funds with which to buy munitions, but Ethiopian tribesmen were reported laying plans to harness the men of Il Duce by posting the animals at water wells that might be used by the Italians.

Civet culture is a major industry of Ethiopia, for the "sacred kitty" gives off a secretion that is indispensable to perfume manufacturers (of all people). They are unable to imitate the fragrance of certain flowers without it.

The essence is imported to the United States and France in large quantities.
