

GALA OPENING OF MANN'S STORE IS SLATED TONIGHT

Amid flowers and music thousands of guests are expected to inspect Mann's attractive new store tonight between the hours of 7:30 and 9:30 at the personal invitation of John C. Mann, owner of this completely modernized Medford establishment. The occasion is strictly an "open house" and no merchandise will be sold.

One of the interesting features arranged for this evening will be a style show which will acquaint the many visitors with the smartness of Mann's advance fall and winter styles. Murray's Beauty Salon is in charge of the models' makeup and coiffures.

Scores of lovely bouquets received today by Mann's from many friends will lend color to the opening event. Effective displays in more than 30 departments are being completed this afternoon under the direction of Harry Hinman, advertising manager. The front windows are also specially decorated, featuring authentic autumn modes to attract window shoppers.

Music for the formal opening will be furnished by Carl Larsen's popular orchestra which will add greatly to the festivity of the affair. Mann's air conditioning system will be in operation this evening so that guests may look around all they wish and still remain comfortably cool.

15 ARMORIES PLANNED FOR CITIES IN OREGON AT GUARD CONFERENCE

SALEM, Ore., Aug. 15.—(AP)—Proposals for construction of 15 new armories in Oregon, in addition to a new \$900,000 project for Portland and the improvement of the Salem armory, 17 in Montana, 16 in Idaho and four in Washington were being considered here today by national guard officials of the four states.

Col. O. K. Yeager, commanding engineer of the national armory building program, was in conference with the adjutant-generals and Maj.-Gen. George A. White, commander of the 41st division. The meeting was called to ascertain what the federal government would do and to what extent the states would co-operate in the program.

It was understood the federal government's plan calls for an expenditure of \$25,000 each on the armories. The proposed locations of the new armories to replace inadequate quarters or leased buildings were at Baffert, La Grande, Pendleton, Grants Pass, Corvallis, Union, Springfield, Astoria, Oregon City, St. Helens, Forest Grove, The Dalles, Graham, Hillsboro and Lebanon.

PEA CROP SAVED BY MARTIAL LAW

DRIGGS, Idaho, Aug. 15.—(AP)—Martial law, enforced in Teton county by 150 Idaho National Guardsmen ordered here today by Governor C. Ben Ross, today ended a strike of pea-pickers that threatened the county's \$280,000 crop.

Reassured by the presence of the troops and the governor's declaration that "we are going to see to it that these farmers are permitted to harvest their crops without interruption," pickers returned to their tasks today and strike agitators were declared to have left the county.

Wage concessions demanded by strike leaders were not granted. It was asserted by Glenn Hubbell, head of one of the three contracting pea companies here, pickers received 70 cents a hundred pounds. They demanded \$1.

COMMUNISTS FEAR FASCISM IN U. S.

MOSCOW, Aug. 15.—(AP)—Earl Browder, general secretary of the communist party in the United States, told the communist international today the anti-fascist coalition planned by the American communist party is "to protect the American toiling masses from becoming victims of terror and atrocities such as have been visited upon the Germans."

He said millions of Americans believe to be away from the last congressional elections and declared: "Since the illusions of the New Deal have been dispelled, the time has become ripe for a united front movement."

Georgi Dimitroff, the Bulgarian, told the congress that both President Roosevelt's New Deal and the policy of the outstanding opposition leaders in the United States are developments toward fascism.

YORKTOWN TRENCHES ARE UNCOVERED BY WORKERS FROM CCC

WASHINGTON.—(UP)—Fortifications used by French troops during the siege of Yorktown have been located by members of the Civilian Conservation Corps working on the site.

When the CCC started work at Yorktown, the fortifications had been obliterated by farming operations and their exact location was in doubt. Maps of the historical staff of the National Park service had indicated the fortifications probably ran perpendicular to the York-Hampton road.

Working on that information, the CCC men ran test trenches through the area parallel to the road. Points soon were uncovered which, by soil stratification and signs of disturbance, indicated they once had been dug out. By connecting the points, whole lines of trenches were identified and now are being reconstructed.

As a result of the CCC work and technical advice of historians, it was possible to locate not only the first position of the French grand battery, but also the first of a series of parallel trenches used by the French in their advance on Cornwallis.

The historical staff of the park service believes the fortifications first were constructed by British forces for the defense of Yorktown when it was learned that the combined French and Continental troops were marching on the important colonial seaport.

On September 29, 1781, however, the Continental forces pushed towards the York river. They were surprised to find that the British had deserted the outer fortifications and had moved back to the inner trenches immediately above Yorktown. By order of General Washington, the British took possession of the abandoned ground.

P. O. WORKERS GET FORTY-HOUR WEEK

WASHINGTON, Aug. 15.—(AP)—President Roosevelt today signed the bill providing a 40-hour week for postal employees.

Officials expect it to create about 10,000 permanent jobs for men now on the postal "substitute" list. Mail carriers, clerks, railway mail workers and others in the service will be put on the five-day week, working eight hours a day. Although about 4,500 substitutes have been given permanent positions in the postal service during the last 18 months, there are still nearly 20,000 "subs" in the service.

Regular postal employees have been working 44 hours a week, with time off for overtime. Most clerks and carriers work five days a week and a half day on Saturday.

The 40-hour week will become effective October 1.

SHRINERS PICNIC FRIDAY EVENING

Tomorrow will witness the big Hillah Shrine picnic at the Jackson Hot Springs so eagerly anticipated for the past several weeks by Shriners, their wives, and the kids. Of interest to the elders will be the kitchentable games for which sides will be chosen at the grounds, swimming, foot-races and stunts, a big dinner at 7 o'clock, a band concert at 8, and dancing from 9 until midnight.

While the kids will undoubtedly enjoy the races, swimming and the ball game, to say nothing of the band concert, many of them will never get out of earshot of the free ice-cream and lemonade stand. The patrol will furnish coffee, cream, lemonade and ice cream; the rest of the meal will be made up of baskets brought by the wives.

The party starts at 4 p. m., and lasts until midnight.

MEDFORD MAN ON TOWNSEND BOARD

ALBANY, Ore., Aug. 5.—(P)—Dr. Francis E. Townsend, ridiculing as a "dick" the national social security bill signed into law yesterday, today carried on his campaign for adoption of the \$2100-a-month revolving pension plan he devised.

"The country has been sick for six long years," he said in an address here yesterday. "It has called in the doctors and taken their prescriptions, but they don't seem to know what is wrong with us."

The Rev. W. O. Livingstone of Silverton was elected chairman of Townsend pension clubs in at congressional district at an organization meeting of delegates representing 200 clubs. Prof. Thomas Gentle of Monmouth was elected secretary. The advisory board named includes W. E. Smith of Medford and Ernest Rhodes of Grants Pass.

SOOS CONFIDENT CAN DEFEND SELF

Johnny Soos, 195, Indiana college man who has been billed as a meanie, and also as the recipient of a lot of rough stuff in the battle royal scheduled for tonight, arrived in the city this afternoon loaded for bear.

In Klamath Falls, where Soos has been doing 15 miles or roadwork daily, in addition to playing softball in the evenings, he heard that the other four fighters were going to "gang" him tonight. "If they gang me, I'll just have to protect myself," Soos stated. He declared that he has a few tricks in his bag that he'll pull if necessary, but hopes that the boxing commission will "lay off" him for at least one night.

"The last time I got rough they threatened to bar me, and take my purse. Even they must have heard about this ganging up against me, so I'll have to protect myself as best I can. I wish they'd lay off us, and let us do what we like." He also admitted he was going to take a punch or two at Pat Belcastro, who handed him a licking several weeks ago.

Soos won the only other battle royal he ever entered, in the 175-pound division, at Birmingham, Ala.
