James Cagney and Pat O'Brien Head Cast At Craterian

Everybody who goes to the movies—and practically everybody does—knows that the trio of James Cagney, Pat O'Brien and Frank McHugh can make any picture interesting. And to those popular players such other favorite as Allen Jenkins and J. Farrell McDonald; a couple of new stars, Olivia de Havilland and Mary Gordon, and "The Irish in Us," which opened yesterday at the Craterian theatre, is a revelation for fast-moving film entertainment that packs a punch and a thousand laughs of the "howl" variety.

Essentially a domestic comedy-drama, "The Irish in Us" has Danny, Pat and Mike as "Ma" O'Hara's brood. Pat is a cop and Mike a fireman. Danny, the baby, a harum-scarum fellow, manager of a bunch of stumble-bum fighters, is nevertheless closest to "Ma's" heart. Pat and Danny are always in conflict with the "why don't you get a job" question. Sympathetic "Ma," however, always manages to keep peace until Danny chisels in on Pat's girl and then all her wiles are unable to maintain equanimity in the family.

Rapid fire action leads to Danny's slug-nutty fighter getting himself knogged in the dressing room before his fight and Danny's stepping in as a substitute. And then follows the fastest piece of action the screen has shown for many a moon. Robust humor and knock-'em-down-and-drag-'em-out slam-bang action make "The Irish in Us" one of the most thoroughly enjoyable, hilariously funny film treats the Irish have brought us yet.

Western Picture On Bill At Roxy

The "three aces of the saddle," Red Bell, Ruth Mix and Buzz Barton, ride again in "Fighting Pioneers," western thrill film, which is the featured attraction Saturday only at the Roxy theatre. The story of "Fighting Pioneers" revolves around the astonishing adventures that befell Lieutenant Bentley, a brilliant young cavalry officer, when he traces a large number of missing army rifles to a band of Indians, commanded by a beautiful redskin chieftainess, to whom two white renegades, one a soldier under Bentley's command, have sold the weapons.

Red Bell portrays the role of Lieutenant Bentley, while Ruth Mix, daughter of Tom Mix, is Wa-No-Na, the redskin maiden. The ninth episode of the serial "Law of the Wild," will be shown on the same bill.

Coming Sunday

Civilization marched westward over the turbulent Erie waterways in four-mile-an-hour boats and strong men hammered out an empire and held the love of beautiful women with their brawny fists.

That is the glamorous, action-filled picture of America in the roaring 1850's which "The Farmer Takes a Wife" brings Sunday to the Craterian theatre.

About the tender love story of Janet Gaynor and Henry Fonda, the stars of the picture, all of the excitement, humor, romance and near-tragedy of this never to be forgotten epoch centers.

Miss Gaynor is a girl of the Erie waterways, fascinated by the nomadic, gypsy-like existence. Fonda is a boy who works on the canals merely to earn enough money to buy the farm he has always wanted. Although these two realize that there is this fundamental difference between them, they cannot help being drawn together by love. As the picture progresses, Fonda's fortunes prosper and he prepares to withdraw from the canal. But Miss Gaynor believes that he is running from Charles Bickford, the canal's bully, and his rival for her affection.
