

QUALITY AFFECTS EGG SALES, PRICE; LAMB, VEAL GAIN

PORTLAND, Aug. 30.—(AP)—There was no change in butter or butterfat prices today. Butterfat continued firm. Market for eggs continued to reflect a mixed tone. Complaints of quality were increasing from consumers and sales were showing a much restricted volume as a result. Top quality eggs were firm. Market for live poultry continued to reflect a firm tone locally with receipts still of moderate volume. There was a small supply of broiler turkeys arriving but demand is limited. Higher prices were being received for country killed lambs and calves. Each is up to 14c top but hogs were lower at 16 1/2-17c lb. Beef was slow. There was continued activity in the market for peaches with prices down perhaps a fraction in spots in view of

the approaching holiday. Muirs were a trifle slow because the public has not yet taken them up. Advance was practically general for tomatoes during the day as a result of greatly curtailed supplies from The Dalles and Yakima but a fair Dillard and local stock was showing. Market was full of humpback salmon, selling at low prices, but summer steelheads of extreme quality were taking the bulk of call. Potatoes and onions were dull but unchanged in price.

Wall St. Report

NEW YORK, Aug. 30.—(AP)—The stock market kept on its feet today with the aid of a number of specialties. Dullness prevailed throughout the session, many traders deserting the street for an early start on the labor holiday. A little profit taking here and there was well absorbed and the close was steady. Transfers approximated 900,000 shares. Today's closing prices for 32 selected stocks follow: Al. Chem. & Dye, 161; Am. Can., 138; Am. & Pgn. Pow., 67; A. T. & T., 133 1/2; Anaconda, 183; Atch. PRESIDENT SIGNS NEW MEASURE FOR ALCOHOL CONTROL

WASHINGTON, Aug. 30.—(AP)—President Roosevelt today signed the bill establishing a new alcohol control agency to replace the one crippled by the supreme court's NRA decision. It puts the new administration in the treasury and in charge of a code forbidding false advertising, misrepresentation of labels and other practices considered unfair. The bill bars the sale of liquor in and from barrels. This provision was the center of prolonged controversy in congress. Largely at the insistence of Representative Fuller, (D. Ark.) and Duncan, (D. Mo.), the house originally voted to permit such sales. Secretary Morgenthau contended it would take an "army" to enforce the liquor tax laws if such permission were granted, however, and the senate supported him. Representative Fuller asserted that the treasury—not Morgenthau directly, but some of his aides—were under the control of the "whiskey trust" which, he added, has a complete monopoly of the bottle business. But the house yielded to Morgenthau's view finally, despite a parting prediction by Fuller that "this will cause us a bigger liquor scandal than ever existed before prohibition."

GERMAN AVIATOR MANAGES TO FLY UNDER OWN POWER

FANKFURT-ON-MAIN, Ger., Aug. 30.—(AP)—What was claimed to be the first flight of a man by the power of his own muscles succeeded today at the Redstock airrome. A local flier named Duennbell flew an airplane with his propeller driven

by muscle power. The airplane, at an altitude of three feet, was recorded as covering a distance of 195 meters (about 600 feet) on the first attempt and 235 meters (about 725 feet) on the second flight. The flier piloted a high-wing machine fitted with treadles which turned the propeller. It was constructed by Engineers Haeseler and Villinger. Duennbell was attempting to win a prize of 5,000 marks (\$2,000) offered by the Frankfurt Polytechnic society for the first human muscular power flight of 500 meters and around two pylons. Although he failed to win the prize, Duennbell's feat was hailed here as a milestone in the history of aviation.

NO RELIEF FUND FOR 13 STATES AS WPA PLAN STARTS

WASHINGTON, Aug. 30.—(AP)—Thirty-one states today received direct relief allotments for the first half of September as work relief officials indicated their hope of putting several hundred thousand persons to work the next two weeks. Harry L. Hopkins made no allotments to 13 states, including Alabama and Wyoming, whose relief administration will be disbanded September 1 as the work relief program gets under way. Apparently indicating progress would not be as great in Nevada and New Hampshire, he allotted funds for the entire month to those states. No allotments were made to nine states pending determination of how soon the program can be started. Allotments included: California, \$5,000,000; Idaho \$150,000; Washington \$500,000; Oregon amount not determined.

FIRES IN DOUGLAS COUNTY CHECKED

ROSEBURG, Ore., Aug. 30.—(AP)—More than a score of forest fires started Wednesday night in Douglas county by an electrical storm were reported under control today. Compensatingly high humidity yesterday, slowing the spread of the flames, gave fire fighters an opportunity to gain control before material damage could be inflicted. Henry Thieleon, employed with the U. S. geological survey, who suffered a broken leg during the storm, was taken to Elk Meadows camp, twenty-two miles northeast of Oakland, yesterday, and is being moved to Bohemia, from where he will be transported by ambulance to Cottage Grove this afternoon, according to word received here. Dr. F. F. DeVore of Oakland and King Hogan, warden at Elk Meadows, rode 30 miles horseback through the night in a heavy downpour to carry aid to the injured man.

YOUR LABOR DAY VACATION

Bring the exposed rolls here for careful finishing, when you return. BEST RESULTS ASSURED. SWEM'S EASTMAN KODAK DEALERS 217 East Main St. Medford

3 SHIFTS (a single start) can use 1/3 of a mile of gasoline

Today's short trips waste your money unless your gasoline has these Three Kinds of Power... YOU wouldn't like to drive 3 MILES in low gear... yet you often do just that in an average week's stop-and-go driving! Figure out the number of times you shift gears in those daily "errand drives"—to the office... the bank... the school... the club! Then remember that the rapid acceleration of your motor as you "shift" can use 33% more gasoline than steady running. Also, you move over a TON starting from a dead stop... and you often do this 30 times a day! So your gasoline must have power for HARD PULLING. But for economy in today's stop-and-go driving, just one kind of power—PULLING— isn't enough! You must also have power for QUICK STARTING... for STEADY RUNNING. And these 3 kinds of power must be in PERFECT BALANCE! Super-Shell is the FIRST truly balanced gasoline. With its 3 kinds of power, it cuts driving costs 3 ways:— STARTING—With its even volatility, Super-Shell can save up to a cupful of gasoline on every "cold" start. PULLING—Super-Shell can save up to a cupful of gasoline in 10 minutes of hard pulling, or rapid accelerating, or on hills. RUNNING—With its abundant heat units, it can save up to a cupful in every hour of steady running. many motorists report. Remember, when you save 16 cupfuls you save a whole gallon of gasoline. There are over 30,000 Shell stations to serve you from Coast to Coast. Stop at one of these stations, and start saving TODAY! Super-SHELL Saves on today's stop-and-go driving
