

SOUTHERN OREGON TOWNS FILE PLEAS FOR PWA GRANTS

Medford, Eagle Point, Talent, Ashland Listed in State Tabulation—Some to Be Weeded Out, Word

PORTLAND, Ore., Sept. 6.—(UP)—Requests for public works administration loans and grants totaling \$30,990,282.72 for Oregon projects were tabulated today by C. G. Hockley, acting state director of PWA.

He will weed out some of the requests and send the remainder to Washington by airmail for consideration of the national emergency board before the deadline September 12.

Hockley would make no estimate of Oregon's ultimate share in federal funds, but indicated that the requests far exceeded in total Oregon's expected share.

Many Have Chance Among the 147 requested projects, however, Hockley pointed out, were 51 schools, 31 water systems and 19 sewers. The great majority of these have a good chance of obtaining funds, unless ruled out by inability to meet required conditions such as man-hours and time for construction.

Hockley said Requests include \$1,575,000 grant for a new state house and \$315,000 grant to purchase a site.

Portland asked \$5,000,000 loan for a street railway system and \$8,200,000 loan and grant for a sewer system.

ROSEBURG AIRPORT TO BE LEASED TO U. S.

ROSEBURG, Sept. 6.—(Sp.)—The Roseburg city council Wednesday night approved a lease for transfer of the municipal airport to the federal government.

Transfer of the airport to the federal government through a lease, renewable from year to year, is based on the federal government's agreement to pay the city \$25 per month for the use of the property. It is expected that the airport will be improved by the construction of a culvert across the creek which intersects the field, thereby doubling the length of the runway.
