Thirtieth Year (Twenty Pages—Two Sections) MEDFORD, OREGON, FRIDAY, SEPTEMBER 1935. No. 149.

CAPITOL SITE MUST BE IN SALEM

LIMITATION SET BY CONSTITUTION SAYS VAN WINKLE

Boundaries of City As Known in 1864 Rule Location—Special Session Expected About September 30th

SALEM, Sept. 13.—(AP)—Approval by the federal government of the proposal for a 45 per cent grant toward the \$3,500,000 capitol building, announced late yesterday, and the opinion today by the attorney-general restricting the location territory for the structure, marked further steps toward hastening the capitol construction program.

Only two sites now remain for consideration—the old site without adding more land, and the possible annexation of Willamette campus—the attorney-general having ruled that the site must be within the city limits of Salem, as designated in 1864. Hillside sites in South Salem were thus eliminated, particularly the alternate proposal of Governor Martin, the Candalaria Heights.

Design Next Step.

The next step for the building proper will be the presentation of design, type and size of the structure for consideration by the legislative body. The state's 55 per cent payment, it will be recommended, would be by direct appropriation at the special session and the regular session next year. Architects have been working on the building plans.

Oregon's application for more land has been completed and was to be forwarded by the Portland public works officials at once. The application will be for a loan and grant of \$750,000 for the purchase of Willamette university site, the money to be used in constructing new university buildings on the proposed Bush pasture location for the institution.

McNary Urges Speed.

Of the entire sum, the PWA was to furnish 45 per cent, or \$337,500. The

Laura Ingalls Sets Record in Continent Hop

FLOYD BENNETT AIRPORT, N. Y., Sept. 13.—(UP)—Tiny Laura Ingalls smashed the women's transcontinental speed record by more than three hours last night when she brought her "Auto-De-Fie" airplane out of the west after a non-stop flight from Los Angeles.

Her official landing time was 11:10:05 p. m. (E. D. T.), giving her record of 13 hours, 34 minutes, 8 seconds.

The bob-haired pilot narrowly missed breaking the non-stop record for men set by Frank M. Hawks on June 2, 1933, when he crossed the continent in 13 hours and 27 minutes.

She shattered two women's records held by Amelia Earhart Putnam, the non-stop mark of 19 hours and 15 minutes, and the speed record of 17 hours, 7 1/2 minutes.

Unhappily the last half of her flight, diminutive 30-year-old flier had aroused fears for her safety. Sud-

13 Cars Pears Leave Medford for Export

Export shipments of pears from the Rogue River valley are now underway, with 13 cars dispatched yesterday for loading on ships for European lands. Ten carloads were sent yesterday and three to San Francisco for foreign shipment Thursday. Eastern shipments yesterday totaled 21 cars, with 15 dispatched via Ogdenville via Klamath Falls and four via Portland.

The season's total to date for packaged pears is 488 cars, and for canned pears 480, a total of 968 cars. Today's shipments are expected to bring the total past the 1000 car mark. Cannery shipments Thursday totaled 18 cars.

President Places Work Relief Plan in Hopkins' Hands

Bulk of Coin Remaining From Permanent Projects Must Be Spent On Temporary Jobs Next 4 Months

HYDE PARK, N. Y., Sept. 13.—(AP)—President Roosevelt announced today for the work progress administration under Harry L. Hopkins to take over the work relief drive until the permanent public works program of Secretary Ickes reaches a greater volume of employment.

In a detailed explanation of the whole works problem at his regular press conference today, the president related that yesterday's parley provided a program for the coming six weeks with \$85,000,000 additional for direct relief—another reduction in direct relief.

As for the contest between Secretary Ickes' public works plan and Harry Hopkins' temporary work idea, he said the problem was reduced to the proposition of dollars, men to be employed and the time for completion.

Must Fill Gap.

He stated it was unlikely that the funds already allocated for permanent structures would reach a peak of employment before next June. Therefore, the gap must be filled in by temporary work under jurisdiction of Hopkins, he explained.

Because of this, Mr. Roosevelt said the bulk of the remaining \$1,250,000,000 from the four billion funds to be spent in the next four months would go to temporary jobs.

This must be done, he asserted, if the objective of taking 3,500,000 from

Resort Owners Tour Central Oregon for Exchange of Ideas

Karl Janouch, supervisor of Rogue River national forest, returned this morning from a several days' tour of resort sites in central Oregon. The tour, conducted this year for the third time, was headed by the Central Oregon Resort Owners' association, an organization sponsored by the Bend chamber of commerce.

Besides Janouch and Cordy Sunderman, national recreational forester for Rogue River national forest, others who made the tour were Mrs. G. and Mrs. George Howard of Diamond Lake resort, Mrs. Glen Smith of Lake of the Woods resort, and Mrs. Griete of the Prospect resort.

Janouch said the purpose of the tour is to give resort owners an opportunity to exchange ideas in tourist entertainment, to develop resorts and their facilities and to agree on prices. When a tourist is ready to leave one resort, the owner will be fitted to recommend an itinerary that will include other resorts of the area. The tour will be expanded in the near future, under present plans, to include all resorts tributary to the Dalles-California highway.

A group of 47 made the tour, which included resorts at Prospect, Diamond Lake, Crescent lake, Odell lake, Butte lake, and the Metolius river recreational area.

Fall Business Exceeds General Expectations

NEW YORK, Sept. 13.—(AP)—Accorded the fall business pace above estimates was reported today by Dun & Bradstreet in its weekly review of trade.

"Assuming a quicker pace than a week earlier, the general expansion of trade movements attained proportions that exceeded estimates set for initial fall programs" it was stated.

"Retail distribution showing forward, favored by cool weather and as some centers the total number of visitors was the largest since January," the report continued.

"The advance of the general industrial average has yet to be checked, as activity recovered quickly from the holiday interruption, and advances in schedules in both capital and consumer items were reported for the

Superstitious Worry! Today is Friday, 13th

Without even the benefit of clinking chains, the rush of bat wings, or mysterious voo-doo music, the city awoke this morning to find itself confronted with the fact that today is Friday—Friday the 13th!

A survey of the town reveals that the citizens are standing up fairly well under the jinx. Of course, here and there are people who seem sensationally worried as to their immediate future, such as William Kennedy, New England Irishman now in the city. Kennedy had a job picking pears yesterday, he said, but today was worried about climbing a ladder, and so refused to return to his labor. Harry Crume, starting out this morning blithely seeking a new job, discovered to his dismay that Friday the 13th was upon him, and refused to go further.

The survey shows that women are more superstitious than men, or more honest in revealing their superstitions; it would be hard to say which. The pet superstitions of many men must be dragged from them almost by force, while the women 'fess up frankly.

Owney Patton picks up pins if the point is toward him. Fred Scheffel, upon finding a horseshoe, spits on it, takes three steps forward, and heaves it over his left shoulder. So does Tully Williams, while Tully's father, Wallace, always puts his left shoe and sock on first when dressing. Dan Herling shudders if he catches himself putting his hat on a bed, while lighting three on a match assures Ed Lampton that a friendship is about to be broken.

Ralph Bartwell doesn't like to have a cat in the car with him, while Joe

Rogers Released on Bond in Death of Torch Singer

WEST CHESTER, Pa., Sept. 13.—(AP)—Dr. H. B. F. Davis, who performed the autopsy of Evelyn Hoy, actress, found shot to death at the shore of Henry H. Rogers, II, said today that "every evidence pointed toward a suicide." Official report of the autopsy has not yet been made public.

By FRANCIS A. JAMIESON (Copyright, 1935, by Associated Press.)

WEST CHESTER, Pa., Sept. 13.—(AP)—Henry Huddleston Rogers II, fingerprinted and under bond of \$2,500, was released today from the jail where he has been held since early Thursday in connection with the death at his farm home of the singing actress, Evelyn Hoy.

Freud with him was William J. Kelly, young freelance movie cameraman. Kelly, with Miss Hoy was a house guest at the farm, "Indian Run," when the shooting—now considered by investigators as probably suicide—occurred Wednesday evening.

Mother Not Present.

Mrs. Benjamin Rogers, first wife of the late Standard Oil multi-millionaire, Colonel Henry Huddleston Rogers II, and mother of young Rogers, was in town when her son, Huddleston, was and extremely nervous, according to investigators as probably suicide—occurred Wednesday evening.

Bond of \$2,500 was fixed by Judge W. Butler Winkle of Chester county.

Deny British Envoy Sent Long Flowers

NEW ORLEANS, La., Sept. 13.—(AP)—The British consulate general here said today that dispatches reporting the sending of flowers to the funeral of Senator Huey P. Long on behalf of the British royal family were unfounded.

The consulate general said that the British royal family had sent a message of condolence to the family of the late senator, but that no flowers were sent.

Long Lieutenants Would Trade for Peace with F. R.

Stoppage of Federal Funds for Louisiana Sore Spot with Huey's Followers—Successor Is Undecided

BATON ROUGE, La., Sept. 13.—(AP)—Lieutenants of Huey P. Long were reported ready today to barter with the national administration to smooth some of the troubled waters left by the death of the state's dictator.

There were many rumblings of discontent among those who had sat close to the throne and these had to be eliminated.

Long, before he was fatally wounded by a bullet fired from the gun of Dr. C. A. Weiss, Jr., had his willing legislature pass laws which aroused the ire of the Roosevelt administration and which cut off the flow of millions of dollars of federal funds into Louisiana.

Tax Probes an Issue.

One issue was income tax investigations. Several persons close to Long politically have been indicted for income tax violations and the returns of the senator himself have been investigated.

Long left no one who could step into his shoes. He would allow no one in his organization that was not subservient to him. His word was law in Louisiana.

Since his death those of his announced lieutenants are: O. K. Allen, the governor; Seymour Weiss, his political treasurer; Allen Ellender, his speaker of the house of representatives; George Wallace, assistant attorney general and the man who wrote the

(Continued on Page Seven.)

McAdoo Will Wed

WILLIAM G. McADOO
 SAN DIEGO, Cal., Sept. 13.—(AP)—Senator William Gibbs McAdoo, 71, and Miss Doris Cross, 26-year-old daughter of Mrs. Nellie Cross of this city, will be married tomorrow at 4 p. m. at a private ceremony in the home of the senator's daughter in Washington, Mrs. Cross said today.

Miss Cross was graduated from the San Diego high school in 1927. Later she took a nurse's training course at Santa Barbara, and since that time has been engaged in social service work.

Senator McAdoo met her at Santa Barbara, and their friendship ripened into romance when their paths crossed later in Washington, it was learned.

Sawmill Whistle to Blow Monday at Owen-Oregon

The sawmill of the Medford Corporation (Owen-Oregon company) will start next Monday morning, Manager James H. Owen reported this afternoon. The planing mill and shipping department will start later, the date being indefinite. The sawmill will employ 110 men, besides those now working.

During the past weeks, logs have been arriving at the mill pond by two trains daily, and the pond is now sufficiently full to warrant starting next week. It will be a week or ten days before the sawmill is running at full capacity.

The plant, with all departments in operation, will furnish work for between 200 and 250 men. Close to 100 will be employed in the timber.

The start of the mill which has been operating on part time or not at all for the past two years, will bring back to the city an industrial payroll. The length of time the mill will operate is indefinite depending upon continued improvement in the lumber trade and economic conditions. The yard of the plant is depleted at present.

The logging operations are in timber this side of Butte Falls, and conducted with caterpillar tractors. The previous operations were in timber east of Butte Falls.

The Medford Logging railroad has been placed in condition for operating, the past two months, by the reorganization company.

426 Hurricane Deaths Recorded in Florida

JACKSONVILLE, Fla., Sept. 13.—(AP)—Conrad Van Hyning, Florida emergency relief administrator, today said latest FEERA figures showed 426 persons known dead in the Labor day hurricanes which swept the Florida keys.

Of these, 256 were veterans in the three work camps on the keys.

Eighty-eight of the 696 veterans on the payroll August 31 still were not accounted for.

Today Is Anniversary Of St. Mihiel Battle

WASHINGTON, Sept. 13.—(AP)—American World War veterans remembered today not as Friday the thirteenth, but as the 17th anniversary of the battle of St. Mihiel.

Many remembered the day also as the 75th anniversary of General John J. Pershing.

The battle of St. Mihiel began 17 years ago yesterday, Sept. 12, 1918, in a manner described by one veteran as a "practice march." It continued through Sept. 16, 1918, although virtually completed in two days.

Talking of that engagement on the Western front, a group of men who took part in it, all of whom are high ranking marines now, said it put the American army on the world's military map.

Also, they said, St. Mihiel marked the first appearance of an American army under Command of an American general on a European battle-

In addition, the half million soldiers and marines who succeeded in driving the Germans from the San Mihiel salient composed the largest number of armed men any American general, up to that time, had ever commanded on any field.

"The day we took the San Mihiel sector was one of the hottest days I have ever known," said the marine corps Brigadier General Hugh Matthews. "And when that day was over," said Lieutenant Colonel Frank Whitehead, "I remember I never had been any tricker in my life."

"The real importance of San Mihiel was a moral one," said Lieutenant Colonel Whitehead.

At San Mihiel, the half million Americans and 100,000 Frenchmen, under General Pershing, captured 16,000 prisoners, took 443 field guns and came into possession of vast supplies badly needed by the Germans. American casualties were 7,500.

Eagle Point RFC Loan Authorized Is Cheering Word

Farmers Will Be Enabled to Carry On at Annual Cost Not Exceeding \$5 Per Acre—Aids Land Values

Upon receipt of a wire sent from Portland by T. R. Semon, manager of the Eagle Point Irrigation district, Frank P. Farrell, attorney for the Reconstruction Finance Corporation loan for which the district has been working for some time, has been closed. The loan will reduce the bonded indebtedness of the district from approximately \$350,000 to approximately \$90,000, at an interest rate of 4 per cent per annum.

Farmers of the district, under the new loan, will be enabled at an assessment of not to exceed \$5 per acre per year, to care for all maintenance operations including bond service, Farrell stated. The RFC loan is made on a basis of 26 cents on the dollar, to all bondholders.

Under the new set-up it is expected that there will be an active demand for lands of the district, and as the officers have long been working to secure the loan, all residents of the area are well pleased with the accomplishment.

The Eagle Point Irrigation district, under a board of directors consisting of A. C. Mittelstadt, Charles Humphrey and J. H. Stanley, comprises about 3000 acres of irrigated land served by an adequate water supply. The district is devoted chiefly to clover and forage crops.

With the Eagle Point loan secured, all irrigation districts of the valley with the exception of the Talent district have been refinanced through

(Continued on Page Four.)

Transient Relief Ends on Sept. 20

Notice was issued from the Medford relief headquarters this morning that, effective September 20, there will be no more transient persons or families accepted for relief in this district. The same will apply to all of the state of Oregon, upon orders received from the federal relief administration.

Signs proclaiming this fact are being put up today. The measure is expected to put a stop to aimless drifting by transients who in the past have expected local relief agencies to support them regardless of where their previous homes had been.

Find Portland Beaten, Robbed

PORTLAND, Sept. 13.—(AP)—The victim of an unusually vicious slugging and robbery, Fred Sorok, 50, was in a critical condition today.

Found badly beaten and unconscious at a roadside here, Sorok was found to be suffering from a skull fracture, back injuries and head and face cuts. He had been struck with a saw or brass knuckles and robbed of one dollar—all the money he possessed. Sorok lost a hand in a logging accident near Carlton a few years ago.

Home Loan Bank Advances Grow

WASHINGTON, Sept. 13.—(AP)—The federal home loan bank board today reported new advances to member institutions increased nearly \$2,000,000 during the week ended Aug. 31. The rise was attributed to a growing demand for mortgage loans for the building of new houses.

Net outstanding advances by the banks have risen nearly 20 per cent in the last four months, and now stands at \$86,025,434.

SEATTLE, Sept. 13.—(AP)—Renewed protests of Washington and Oregon Douglas fir industry against increasing British Columbia lumber imports were reported by the West Coast Lumbermen's association today when it was revealed that for the first time in history, the U. S. imported more Douglas fir in May and June than it exported.

The Douglas fir industry on the coast is 100 years old.

The figures were obtained by the association from the U. S. bureau of foreign and domestic commerce.

Side Glances by Tribune Reporters

Jimmy Wilburn, northwest auto driver, who is to race his car at Grants Pass today, Friday the 13th, listening to Jack Wenzel telling in gruesome tones, about seeing several drivers crack up badly at Acoot.

Dan Watson driving up in a cloud of dust to see the football practice, only to see the lads taking a two-lap run before quitting for the evening.

Danny "Daring Young Man" Sarich missing the ring rope trapeze, and with a surprised look on his countenance sailing out of the ring for about 30 feet before landing upon his heels on the floor.

Remarkable memory note: Elmer Kye can remember the first names of people who worked for him six years ago.

Herb Strong branding himself a "skilful swimmer," when, by a lucky throw, he won at the dart game after missing 20 previous heaves.

Earl Silva says he's superstitious about having people point guns at him.
