

MISSIONARY COUPLE WILL SPEAK FRIDAY AT FREE METHODIST

Rev. and Mrs. Floyd A. Poffer, missionaries returning to India, will be guest speakers at the Free Methodist church, Friday at 7:45 p. m.

They will have on exhibit an idol that has actually been worshipped, a tiger skin mounted, a leopard skin unmounted, a Gandhi spinning wheel, a set of household gods such as are used in Hindu homes, a complete set of costumes to show different types of dress used in different parts of India. They will also show 80 slides of interesting scenes in connection with Christian work in India.

Mr. Poffer will relate his last visit with Gandhi, April 8, 1935, three days before leaving India. When they parted Gandhi gave the American a spinning wheel which has "done time" with Gandhi in the Poona jail. During Mr. Poffer's last visit to the Mahatma's house, the Indian was in a month's silence period in protest against the new government of India bill, then before the British parliament.

Conversation was carried on by means of signs and notes. When presenting the spinning wheel, Gandhi wrote, "Will you care to have a wheel like this? I shall gladly present you with one." It is the wheel that will be on exhibit.

RAILROAD TRAFFIC BETTER IN AUGUST

NEW YORK, Sept. 26.—(AP)—The heads of three northwestern railway systems reported today that traffic on their lines made a good showing in August.

Charles Donnelly, president of the Northern Pacific, said his road more than covered its fixed charges in August although earnings ran slightly below a year ago.

Ralph E. Budd, president of the Chicago, Burlington & Quincy, declared that gross revenues showed a gain over last year, although carloadings were lower. The road had a surplus after charges for the month.

W. P. Keeney, head of the Great Northern, reported a surplus after charges of approximately \$1,200,000 for the month. It was understood that Keeney, while here, will confer with banking interests on Great Northern's refunding plans for the \$105,000,000 bond maturity of July 1, 1936.

TWO DEER KILLED BY ARCHERY EXPONENTS

PORTLAND, Ore., Sept. 26.—(AP)—Hunters armed only with the medieval weapons of bows and arrows brought down at least two deer yesterday in the Canyon Creek game refuge in eastern Oregon, where the use of firearms in hunting has been banned.

State Patrolman D. N. Bates reported that more than 750 bow-armed hunters stalked into the preserve, which is the only one of its kind in the United States.

Names of the successful hunters were not learned, but it was reported each slew a fine, large buck.

Phoenix Woman Cops 1st Honors In Bagging Deer

Mrs. Thelma Hutchinson of Phoenix copped the blue ribbon today by being the first woman of the season to report the bagging of a deer.

Mrs. Hutchinson went hunting with her husband, Elmer, and Roy Moore in eastern Oregon and she was the only one of the group to bring home the bacon, or rather the venison. It was a forked-horn mule tailer.

MODERATION IN DRINK AIM OF ORGANIZATION DRIVE FOR MEMBERS

NEW YORK, Sept. 26.—(AP)—A drive for members for the Council for Moderation, Inc., to wage "a continuing campaign against excessive drinking," was begun today.

Everett Colby, president of the council, said the campaign had the backing of John D. Rockefeller, Jr., and Edsel B. Ford.

Large advertisements in newspapers named more than 30 New Yorkers on an advisory board which, when complete, is to include representatives from all 48 states.

The advertisements declared the objective of the campaign "is neither wet nor dry. Its aim is moderation."

"But in this age of automobiles, airplanes and mechanical devices of all kinds," the advertisements said, "immoderate drinking often becomes a public menace."

"We believe the public mind can be influenced by suggestion. We therefore propose over a period of years to employ education and constant repetition of the idea of moderation to create an attitude of individual responsibility toward the use of liquor."

AIR LINE MARKS RECORD MILEAGE

While Medford and other Pacific coast cities observed the ninth anniversary of scheduled coastwise air service, United Air Lines yesterday chalked up its 85,000,000th mile of flying, a figure in excess of any achieved by other lines in Europe or this country, it was announced today by L. G. Devaney, field manager of the company here.

Air line operations up and down the Pacific coast were begun September 15, 1926. In their first year, those divisions which later became part of United's nationwide system flew 2,000,000 miles. This year the company will fly 15,000,000 miles, with its planes now traveling 50,000 miles daily—equivalent to twice around the world at the equator.

The company will reach its 100,000,000th mile next summer. When flying was begun on the Pacific coast one round trip daily was flown with single-engine open cockpit 90-mile-an-hour biplanes. Today three daily round trips are operated the length of the coast with 200-mile-an-hour Boeing transports which fly from Medford to Seattle in three hours or to San Diego in seven hours.

CUT IN PENSION AGE PERILS MULTNOMAH TREASURY IS CLAIM

PORTLAND, Ore., Sept. 26.—(AP)—Erwin A. Taft, Multnomah county commissioner, said today he had warned the county's legislative delegation of the financial burden which would be placed on the county if the state's old-age pension age is reduced from 70 to 65 years.

He quoted statistics prepared by J. H. Hart, director in charge of old-age pensions for Multnomah county, to show that the reduction would almost double the number of eligible for pensions.

The special session of the legislature doubtless will consider reducing the pension age to 65, in line with the national security act. Under the 70-year age limit, 4500 would be eligible in Multnomah county, which would cost the county \$37,500 for its share of one-fourth. The state would pay one-fourth and the federal government one-half.

With the limit reduced to 65 years, 8250 persons would be eligible and the yearly cost to the county would be about \$618,750.

"Perusal of Mr. Hart's figures will show the danger of letting down the bars," Commissioner Taft wrote.

AUGUST LIQUOR PROFIT \$157,804

SALEM, Ore., Sept. 25.—(AP)—Net earnings of the state liquor control commission for August totaled \$157,804.82, it was reported by the secretary of state's office today.

Stores earned \$89,445.84 and the license revenue department \$68,358.98. Net earnings so far this year totaled \$1,119,494.

The gross business for August was \$508,571.45, with operating costs \$11 per cent of the total receipts, slightly more than the average of 5.92 per cent for the first seven months of the year.

Operating costs for March were 5.11 per cent of the total receipts, slightly more than the average of 5.92 per cent for the first seven months of the year.

The report showed a steady increase in the earnings of the commission for January.

BILL HANLEY'S SADDLE TO COLLEGE MUSEUM

CORVALLIS, Ore., Sept. 26.—(AP)—The personal range riding outfit belonging to the late Bill Hanley of Burns has been given to the Oregon State college museum through arrangements made by the famous cattleman just before his death.

The outfit consists of saddle, bridle, lariat and spurs, all simple and serviceable in design rather than ornate.

NORMANDIE'S WHISTLE MUTED BY NOISE CURB

NEW YORK, Sept. 26.—(AP)—The Normandie, the largest ship in the world and possessing perhaps the loudest whistle, came up the bay today without tooting once. At quarantine, officials of the line told the captain about Mayor F. H. LaGuardia's anti-noise campaign and he did his part by carefully traversing the most crowded harbor in the world without a single blast.

WARDS HEATING VALUES!

Every One a Money Saver!

Big Savings on Big Value Ward Electric Washer

39⁹⁵ \$3 Down \$4 Monthly, Small Carrying Charge

You get Wards exclusive tri-vane agitator, fastest washing action known, and the ripple tub that gives washboard results with hand-rub care. You get 14 high-quality features in all, including a Lovell wringer with soft, 2-inch balloon rolls and rust-proof, cadmium-plated frame. Wards one-profit distribution, direct from factory to Wards to you, makes the price so low. Come in and see it.

- 4 of Its 14 Quality Features
- Wards exclusive tri-vane agitator
- Washboard action ripple tub walls
- Lovell wringer with positive-action wringer release.
- 6-sheet size, all porcelain tub

TOP and END FEED DOORS for WOOD

STEEL HEATER 20⁹⁵

A Typical Ward Value!

Pile in the big wood-door and top feed are both large and the cast-iron firepot will stand hard firing and hold heat a long time! There's a perfect draft control, attractive nickel trim on this quick heating steel-bodied heater. Ample for 1 to 2 rooms!

SAVE MONEY AT WARDS!

A Steel & Cast-Iron Heater for Hard Use!

Fire it hard! The 9/16-in. high cast-iron lining will take it! Big chunks of wood go in its large cast door with its mica windows for cheery glow! Bright nickel trim! Large top feed also.

21⁹⁵

- Heavy body of rust-resisting, double-seamed steel. No gas or heat leaks!
- Entire top, bottom, and front of solid cast iron tightly fitted and bolted to body!

25% Less than You'd Expect to Pay

Only Wards Give You Value Like This

Looks Like a Fine Gas Rangel Yet See How Little It Costs!

Modern Coal-Wood Range

74⁹⁵ \$7 Down \$7 Monthly Small Carrying Charge

Its great beauty sells it to women at once—for the convenience of its design is apparent to any housewife! The high oven, the extra storage space, the two cook tops—these are backed by Ward quality construction! Come see it, today!

- Two heavy, polished cast-iron cooking tops!
- Full porcelainized ivory and green!
- Oven door, sides and bottom insulated!
- 40-quart hot water system with tip-up faucet!
- Extra storage drawer and big warming compartment!
- Convenient high oven—no stooping!
- Big warming closet!
- Cool Bakelite handles with chrome-plated fronts!
- Pouch end fuel feed!
- Burns coal or wood!

BURNS FUEL or RUBBISH!

Kitchen HEATER 19⁹⁵

Fits beside any oil or gas range. Black steel body with ivory tan porcelain enameled door panel. Polished cast-iron cooking top!

Stove Pipe Oven 2.50

Kerosene Heater 6.45

Makes 3 small loaves bread, pie, biscuits, etc. with heat otherwise wasted. Durable.

Portable. Quick, clean, odorless. Polished steel body. Holds 8 to 12 hours fuel.
