Woodburning Circulating
Heater!

Heats 2 to 3 rooms easily! And easily the handsomest wood circulator ever built! Imagine getting it at this low Ward Week price! It has cast iron linings, a full 6" deeper than most. Holds a bigger fire—wears longer! The thick steel inner unit has cast iron bottom and top and top cooking lid. The entire right side is cast, including doors. Wood or coal grate easily installed!

Circulators! Special Ward
Week Price!

The four-side circulators increases heat 25%! It pours heat enough for 4 to 5 rooms, quickly and economically, too. The walnut porcelain enameled cabinet is handsome, easy to keep clean!

- Heating unit of all heavy cast iron!
- Big feed door takes big chunks of wood!
- Properly humidifies heat, saves fuel!

Wood Circulator

This Price In
Ward Week
Only!

18.⁹⁴

It's sturdy, efficient and good-looking, too. Cast-iron firepot linings, 9-inch deep, and cast top, end, feed door and bottom! There are both top and end feed doors, made big for big wood. Two draft regulators assure perfect fire control. The generous amount of nickel-plating adds to its good looks.

Airtight Heater

Burns 20-Inch
Wood!

1.⁸⁸

It's air-tight, gas-tight and leak-proof! That is because the sturdy steel body is double seamed top and bottom.

Throws heat to all corners of the room and heats quickly, of course. Heats as a rubbish burner.
