# HIGH COURT DOOMS HAUPTMANN

**News Behind The News**  
By PAUL MALLON  
(Copyright, 1935, by Paul Mallon)  
EL PASO, Texas, Oct. 9.—Governor Landon of Kansas is the man to watch in the race for the Republican presidential nomination.

Top men in the party through the west seem to be strong for him privately. Apparently they intend to keep their sentiments to themselves for a while to see how things shape up. But when the right time comes, it is expected that the trend seems to be a natural groundswell which is swelling more rapidly and extensively than some of Landon's advisers would like to see. No inside or outside campaign is being organized for him. It is just that the influential party men have been looking into his record and like him. You will be surprised when you hear some of their names.

Republican constitutionalists are not as strong for a constitutional type of campaign as their published statements indicate. They are for the constitution, all right, and they believe such a current campaign was patriotically necessary to hold legal reins on the New Deal. But they have no idea that it is the type of campaign to use in a popular appeal for votes next year. The "Oh So!" campaign will be an appeal for business administration, for curtailed spending, not for abolition of the New Deal entirely and not especially constitutional. You can bet on that.

The major problem of the New Deal can be reduced to simple division over here, where two from two still leaves two.

The government has spent \$2,000,000 here to straighten the winding Rio Grande for flood control. About \$2,000,000 has been given for needed construction at Fort Huachuca, an important border post. A new federal building is being constructed at a cost of \$50,000.

Thus, about \$5,000,000 has been spent in this community of approximately 100,000 persons, of whom 40,000 are Americans and 60,000 Mexicans.

This means the government has spent about \$50 per person for works in this community. It has been a hypodermic to the community. It has enabled business here to operate at a level of about 19 per cent above last year, even with existing cotton uncertainty.

But there were still 3,325 cases on relief the other day. Figuring four persons to the case, this would be (Continued on Page Four.)

TRENTON, N. J., Oct. 9.—(AP)—New Jersey's highest court condemned Bruno Richard Hauptmann today to the electric chair.

By unanimous decision 13 members of the court of errors and appeals upheld the Bronx carpenter's conviction by a Flemington jury last February 13 for the murder of little Charles A. Lindbergh, Jr., March 1, 1932.

One by one in a train courtroom they said "no" to the arguments which Hauptmann's counsel had urged in making their appeal last June 30.

No Review Ground  
To the charge that Attorney General David T. Wilentz had gone far beyond his privilege in exhorting Hauptmann during the final summing up, the high court held that no ground for review was created, especially "in the absence of objection."

## CUTTING'S MOTHER REFUSES \$10,000

WASHINGTON, Oct. 9.—(AP)—The mother of the late Senator Bronson M. Cutting of New Mexico has advised Vice-President Garner she would "not be justified" in accepting the \$10,000 appropriation ordinarily made by the senate to next of kin of deceased senators.

"Since the death of my son, former Senator Bronson Cutting, I have seen in the newspapers that members of the senate are planning to appropriate \$10,000 to me as his mother," Mrs. W. Byard Cutting wrote Garner.

"While I am told that it is the custom of the senate to make such an appropriation to the next of kin of deceased senators, I feel that in view of the circumstances in which I find myself I would not be justified in accepting such an appropriation from the taxpayers' money."

## BOY PILOT USES BURRO TO FINISH

MEXICO CITY, Oct. 9.—(AP)—Young Frank Kurtz of Los Angeles, who transferred from his airplane to a burro during the course of his flight to Mexico City, claimed two records today in spite of the plodding feet of his mount.

Enroute from Riverside, Calif., Kurtz was forced to ferry at Margate, state of Guanajuato, to fix a balky oil line, stretching a scheduled 20 hour flight to 36 hours.

But he arrived safely yesterday afternoon at Central Airport, with an elapsed flying time of 16 hours and 49 minutes. He contended that he established a junior record for the 2000 mile flight and a new mark for his type of four-cylinder airplane.

Forced down soon after he left Mazatlan, Kurtz rode the burro 30 miles to Mavavato Monday night. Tuesday morning he repaired the oil line and took off for Mexico City.

## AUSTRIA, HUNGARY BALK AT PLAN TO PUNISH ITALIANS

League Alignment for Sanctions Hits Snag—Italians Hold Three Key Points After Six Days' Fighting

By WADE WERNER, Associated Press Foreign Staff.  
(Copyright, 1935, by Associated Press.)  
GENEVA, Oct. 9.—The League of Nations alignment favoring the punishment of Italy for invading Ethiopia was broken today by Austria and Hungary.

Baron Pitagol of Austria announced that his nation does not accept the report of the council committee of six under which sanctions would be imposed against Italy.

The delegate from Hungary announced that his country was not in a position to endorse the conclusions of the league council which decided that Italy had disregarded its covenants under the League of Nations.

Means Exemption.  
These two announcements were made in a meeting of the league assembly which had been called to decide on what action might be taken against Italy for the war in East Africa.

Experts pointed out that the opposition by Austria and Hungary meant merely, in the event of a vote favoring the sanctioning of Italy, that those two nations would be exempt from participating in whatever sanctions were decided upon.

ADDIS ABABA, Oct. 9.—(Reuters)—After six days of fighting, the Italian forces hold three key points in Ethiopia—Adigrat, Adigrat, and Aksum—and are poised for a further advance.

## Cocktail College Dean Flunks Test In Portland Court

PORTLAND, Ore., Oct. 9.—(AP)—Barney Perlman, "dman" of cocktail college, flunked his first examination.

He started the test by asking for a temporary injunction restraining law-enforcement officers from interfering with his school of mixology. At the school the "students" paid for ingredients and instructions on mixing, and then disposed of the product as they saw fit, almost invariably by drinking it.

The state answered Perlman's questions so ably that Circuit Judge Robert Tucker refused to grant the preliminary injunction before the case is tried on its merits.

"The state law forbids 'by drink' sale of hard liquor which is to be dispensed in packages by the state."

## KLAMATH HUNTER WANDERS 3 DAYS; FINALLY LOCATED

KLAMATH FALLS, Oct. 9.—(AP)—Barney Sinclair was back with his wife and son this afternoon after three days and two nights of aimless wandering in the timber and sagebrush wilderness of eastern Klamath county.

Sinclair lost his bearings Sunday morning while trailing a wounded buck. Between the time he was lost and the time he was found late last night by his campfire at Kingsley Plains, the only thing he had eaten was a squirrel. He said he had no trouble in finding water.

Each night he built a fire and rested after traveling 20 miles each day in an effort to find his bearings.

He was found by Bill Heckman of Modoc Point, Boy Geinger and Harry Wolfe, both of Chiloquin. The three are experienced woodsmen.

They took him to their camp last night, fed him and then brought him home this afternoon.

## SCHOOL EXPELS YOUNG PACIFIST

LYNN, Mass., Oct. 9.—(UP)—Eight-year old Carlton B. Nicholas, Jr., Lynn "boy pacifist," last night was ordered expelled from Reed military school for refusing to salute the American flag.
