LEAGUE ACTS TO AID ETHIOPIANS

By PAUL MALLON (Copyright, 1935, by Paul Mallon) NEW ORLEANS, La., Oct. 11.—The break-up of the Long dynasty seems to have occurred already, unnoticed.

It was not the kind of disintegration everyone has been looking for, but the absorption of a rough-tough dictatorship by quieter and different minds.

For instance, Huey forced the seven sessions of the legislature in the year before his death to enact a flock of laws. These were highly complicated.

But that is a little too raw for the people here, say the Long sceptics. They have given private assurances to persons of authority here that this particular law will be repealed.

This softening trend may also be discerned in the type of candidate who will run for governor on the Long ticket next time.

A similar development was noted by the hope of the political switches here when Huey's national wealth-sharing organizer, the Rev. G. L. K. Smith, was entrained for another state after Long died.

What is less obvious but equally true is that few of the Long leaders are, after all, extreme wealth-sharers at heart.

Embargo Arms To Italy; Permit Sale to Ethiopia

(Copyright, 1935, by the Associated Press) GENEVA, Oct. 11.—(AP)—A general arms embargo against Italy and permission for Ethiopia to import all the war munitions she needs were ordered today by the full sanctions committee of the League of Nations.

The committee represents every member of the league except Italy and Ethiopia. At the same time, a special sub-committee undertook to study the possibility of placing a financial boycott against Italy.

Not only does the arms embargo apply to future shipments of war materials to Italy, but it applies to contracts already entered into. Hans Re-export The resolution passed by the big committee contains one paragraph designed to block any effort by Mussolini to get war supplies through neighboring anti-sanction states such as Austria.

This paragraph states that the members of the league will "take such steps as may be necessary" to prevent re-export "directly or indirectly" of arms to Italy or its possessions. The financial subcommittee comprises France, Great Britain, Greece, the Netherlands, South Africa, Rumania and Poland.

Before the resolution was declared adopted, the Hungarian delegate told the committee, "I abstain." Hungary abstains League officials said therefore they considered that, while no formal roll call vote was taken, the resolution had been approved by all those present except Hungary.

Consequently, the position of Austria, also present, was regarded as ambiguous since Austria yesterday declared against the sanctioning of Italy. The recommendation was made by the committee of 18, formulated by (Continued on Page Eight)

LOCAL PROJECTS LISTED BY WPA TOTAL \$230,782

Jackson county WPA projects totaling \$230,782 are now on file at the administration headquarters in the city hall, records today showed.

Some of the projects have already been approved, while others are waiting approval at Portland and Washington, D. C. The launching of projects is being held in abeyance by the local office until seasonal employment in southern Oregon slackens, it was explained. As soon as seasonal work, such as fruit picking and potato digging, is completed, WPA projects now on the approved list will be undertaken to take up the unemployment slack, it was said.
