

CHAMBER BOARD VOTES APPROVAL FOR RESERVOIR

Directors Give Sanction After Hearing Thierolf and Duff Present Facts — Risks Are Explained

The proposed \$145,000 water reservoir today had the unanimous approval of the board of directors of the Jackson County Chamber of Commerce. The board some time ago sanctioned application for federal funds for the project.

The directors of the chamber were addressed at their weekly meeting- luncheon at the Hotel Medford Friday by Robert A. Duff, superintendent, and H. A. Thierolf of the board of water commissioners. After hearing them, the directors voted unanimously to approve the \$80,000 bond issue to be voted on at a special election October 26 for the proposed project, toward the cost of which the WPA has made a grant of \$55,250.

Mr. Duff asserted that the board of water commissioners is not a political group, but on the contrary a non-political group composed of business men like those comprising the chamber board of directors.

No campaign. "The water board is not going to conduct any campaign," Mr. Duff said. "It is not going to spread propaganda. It is merely going to set the facts before the voters so that they can decide for themselves."

Mr. Thierolf told the meeting that even in winter, when water usage is at the minimum, the daily average consumption is about three and a half million gallons, whereas the present reservoirs have a combined capacity of only four million gallons.

If a pipe-line break occurred that required some time to repair, the reserve supply would be exhausted in 26 hours, Mr. Thierolf declared, adding that if in addition to domestic consumption all the fire-fighting equipment was tapping the reservoir, the surplus would be exhausted in 16 hours. The condition the worse in summer, he stated, when the daily consumption is always high and sometimes exceeds 8,000,000 gallons.

Mr. Thierolf stated that the water board had been informed by the Oregon Insurance Rating Bureau that if the new reservoir is built there would be no change in insurance rates, whereas if it is not built and the old Fish Lake pipe line is abandoned, the rates on mercantile buildings and their contents would be increased four per cent.

Old Line Useful. The Fish Lake pipe line, constructed of wood and built 25 years ago, has about abandoned itself and is virtually useless, it was said.

Objection was raised that construction of new reservoir in Peoria had adversely affected the quality of the water but the chamber directors were assured that no such condition would arise here, as the water would still come directly from the source and not from the reservoir, excepting in emergency cases. It was further stated that there is no parallel between the cities anyway as the Portland reservoirs were actually man-made lakes, the water of which was likely to become warm and unpalatable.

The proposed reservoir would have a capacity of 10,000,000 gallons, bringing total storage to 14,000,000 gallons.

NEW BOULDER STAMP ON SALE TOMORROW

A supply of the new Boulder dam stamps was received at the Medford postoffice yesterday and will be placed on public sale tomorrow morning, Postmaster Frank DeSouza announced.

A new stamp is always of interest to professional and amateur collectors and Mr. DeSouza expects the Boulder stamp to be no exception. He anticipated a brisk sale, for although the new stamp was placed on sale first at Boulder City, Nevada, many collectors prefer to have uncancelled stamps, he said.

The stamp, of the 3-cent denomination, commemorates the completion of Boulder dam. The dam is the central figure of the stamp.

Famous Scotty Allan Coming

Reminiscent of the adventurous days of the Klondike gold rush and the historic trek over the famed Chilkoot Pass, will be the personal appearance in Medford of one of Alaska's number one soldiers of fortune—Scotty Allan—and his famous dog team. The colorful old scout-dog will appear at the Junior high school Wednesday morning, October 16th, at 11:15 o'clock with his dog and again at the senior high school at 1:15 p. m., of the same day to relate his thrilling experiences in the northland and on the battle fields of Europe.

Scotty and his dogs have participated in 10 Alaska dog derbies, placing first three times and second or third in seven, winning a total of over \$70,000, according to Deal J. Wilkins, representative of Maillett and Schmiedell, of Portland, who

was in this Saturday completing arrangements for Mr. Allan's appearance in Medford which will include a radio performance.

During the World War, Mr. Allan personally conducted 450 huskies from Alaska to France, actually taking the dogs half around the world without losing one of them. They were trained to haul ammunition through the snow to the soldiers encamped in the snow clad mountains.

In fact, it is said that Scotty Allan traveled more miles in Alaska than all the explorers put together and had numerous narrow escapes from death and many other exciting adventures. He will give the Medford school students a colorful description of the northland. He was the owner of the world-famous "Baldy or Nemo," and this particular dog saved his master's life several times.

ARMY OFFICERS COME BY PLANE FOR HUNT HERE

Col. C. L. Tinker and Maj. D. H. Dunton arrived in a Martin bomber at the municipal airport yesterday to be on hand at the opening of the pheasant season this morning. They came from Hamilton field, near San Francisco.

Colonel Tinker and Major Dunton will be guests this morning of Mayor George W. Porter and Playe Hart, who will take the visitors on a pheasant hunt on the W. A. Morris ranch at Table Rock.

The visiting army men were met at the field by Mr. Hart and A. H. Bannwell, manager of the Jackson County Chamber of Commerce. They will return to Hamilton field this afternoon.

Other arrivals at the airport yesterday included Sergeant R. T. Stockwell in a P-35. He arrived here Friday from Fort Lewis, near Tacoma, and left yesterday morning for Redding, Cal., where he trained ships. He landed again at the local airport yesterday afternoon to refuel before proceeding back to Fort Lewis.

Lieutenant Volin arrived yesterday in a Martin bomber from Hamilton field en route to Pearson field, near Vancouver. Lieutenant Pearson, naval flier, arrived from Pearson field on his way to Sunnyvale, Cal. He was flying a Stinson biplane.

Lieutenant Cooper arrived in a Douglas C-38-E from Crissy field, San Francisco, on his way to Pella field, Spokane. He was followed by Lieutenant James, who was flying from Seattle to Oakland, Cal.

Receives New Plane. Another sportsman who arrived at the airport to be here for bird hunting today was Ralph Schliser of Los Angeles. His Stinson ship was piloted by Al Gilhouser, a United Air Lines pilot, who was once on the Medford run. Mr. Gilhouser is on a vacation and he brought the Los Angeles sportsman up here for some pheasant hunting.

Tom Culbertson, airport manager, was in possession yesterday of his new Taylor Cub, which he will use in his student training work. The new ship was brought here by A. W. Whitaker, Taylor Cub distributor for Oregon, Washington and Idaho. Mr. Whitaker, who has been Mr. Culbertson's guest during his stay here, was to return north in the ship the company had lent Mr. Culbertson pending delivery of the new plane.

BOMBARDMENT OF 'CHINKS' SLATED FOR EARLY DAWN

That bombardment you heard just about dawn this morning was not the Tribune public address system broadcasting a play-by-play account of Mussolini's argument with the Ethiopians. It was a different kind of army, manning scatter guns, out to knock over a pheasant or two, or perhaps a few quail, for the little woman's breakfast.

The upland bird season is on. From now until the last day of the month it won't be safe to venture into the fields with a dead bird for a hat decoration, for every blade of grass will hide a sniper.

The bag limit on Chinese pheasants is four in any one day, or eight in any seven consecutive days, if being unlawful to take more than one female Chinese pheasant in any seven consecutive days.

The Hungarian partridge may not be legally killed in this county, but the limit on quail is given as 10 such birds in any seven consecutive days. Sooty, or blue, grouse may be taken, as well as ruffed grouse and native pheasants. The bag limit on these birds is four in any one day, or eight in any seven consecutive days, the same as for Chinese pheasants.

The state police will conduct a determined drive against those killing more than the legal limit.

PRICELESS DEAD FLY OBJECT POLICE HUNT
LOS ANGELES, Cal., Oct. 12.—(AP)—A dead fly—"virtually priceless," said the owner—was sought today by Los Angeles police.

Known as the "Hermite fly," the insect is the central figure in a ring which Mme. Inga Juliverna, former opera singer, declared was 2500 years old, and may have once been owned by the Egyptian pharaoh, Cleopatra.

The ring, with other jewelry valued at \$600, was stolen from the singer's apartment during her absence.

SCOUTING BENEFIT SET FORTH IN PLEA FOR CHEST FUNDS

Contributed.
Scouting this year is celebrating its 25th anniversary. Twenty-five years of service to the boyhood of America. Seven million boys have come under the influence of Scouting. Registration figures reveal a membership of 1,047,147 Scouts and Scouters on July 1.

Scouting has continued to grow because it appeals to boys. Men find in it opportunities to help boys. In Medford 115 men are giving generously of their time as Scoutmasters, assistant Scoutmasters, executive board members, troop committeemen and merit badge counselors. The only pay they receive is the satisfaction of knowing they are helping boys grow into better manhood.

Boys that have passed their 12th birthday may join a Scout troop. In joining the troop the candidate must know the Scout oath and laws, sign motto, salute and tie the nine useful knots. Also know the history of the flag of the United States of America and give proper respects to the flag. Upon completion of this he is registered as a tenderfoot Scout and is entitled to wear the tenderfoot badge and the official uniform of the Boy Scouts of America.

The uniform is desirable but not necessary. Most Scouts want to be uniformed and equipped. As nearly as possible the boys purchase equipment from their earnings. This is in keeping with the Scout law, "A Scout is thrifty. He does not wantonly destroy property. He works faithfully, wastes nothing and makes the best of his opportunities. He saves his money so that he may pay his own way, be generous to those in need and helpful to worthy objects.

In Scouting the standard of conduct is the Scout oath and the Scout law. A Scout promises to do his best to live up to the oath which is as follows: "On my honor I will do my best—to do my duty to God and my country, and to obey the Scout laws; to help other people at all times. To keep myself physically strong, mentally awake, and morally straight.

The Scout law, "A Scout is trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, brave, truthful, clean and reverent." is a part of every real Scout and serves as a guide in his relationship with others in the home and community.

The good turn in Scouting is really a philosophy of living, of which service to others becomes the key. A good turn is a volunteered kind act or deed. It is not customary for Scouts to brag or tell their good turns to others, but reports from Scoutmasters and others in the community indicate the boys are doing good turns every day. One person was rescued from drowning this summer by a Scout who was alert and prepared and knew what to do.

"Be prepared" is the Scout motto. A burning building, a life in danger—a Scout is prepared by knowing in advance what to do. A Scout learns also to "Be Prepared" to be useful in the ordinary affairs of life. Obedience, respect for law, respect for others are part of his thought as well as planning out in advance what to do in a crisis. He is also "preparing" himself to be the useful citizen America needs.

Camping is an important part of the Boy Scout program. It is a natural tendency or desire for boys to want thrills or adventure. If these tendencies are not satisfied in a good clean way, such as camping and hiking, the boy may satisfy his desire for adventure in ways that will not conform with social standards and meet with social approval. Camping offers opportunities to learn to appreciate the out-of-doors, the birds, trees, flowers, streams, mountains, and all that is a part of nature. While camping he learns self-reliance by planning and cooking his own meals, building his own fire, packing his own pack, making his bed and the many other experiences he has while on the trip. Scouts have opportunity to attend the troop camps, district camps and the council camp at the Lake of the

Woods. While camping Scouts may pass the outdoor advancement requirements such as cooking, fire building and proper care of the fire, mapping, nature study, star study, judging, signaling, tracking, Scouts, pace, swimming, and many of the merit badges.

Courts of honor are held regularly for the purpose of making awards and giving recognition to Scouts advancing in Scouting. Every advancement represents from ten to twenty-five hours of work. The courts of honor awards earned since January 1, are 79 second class, 37 first

class, 20 star, 12 life and 278 merit badges. There is no way of knowing the value of the information and help received by the scouts in making this progress.

The Boy Scouts is a beneficiary of the Community Chest and the Scouts and leaders ask your generous support in order that they may continue this splendid work.
