Official Paper of the City of Medford. Official Paper of Jackson County. MEMBER OF THE ASSOCIATED PRESS. Receiving Full Leased Wire Service.

MEMBER OF UNITED PRESS. MEMBER OF AUDIT BUREAU OF CIRCULATIONS. Advertising Representatives: M. C. MOOREHEAD & COMPANY.

MEMBER OF THE OREGON STATE ASSOCIATION OF EDITORS.

Ye Smudge Pot

The University of Oregon football team, coached by Prink Callison, and 7500 associate coaches located in the grandstand and throughout the state, was defeated by the University of California, 9 to 0 Saturday. It might as well have been the other way round, but for the "breaks."

The game was played upon a field too wet to play. The first three periods were devoted chiefly to seeing which squad could kick the pigskin the farthest. The Webfoet held their own in this department.

The Callison crew then started their touchdown march. Then there came a wild pass from center, that caused a 25 yard loss, and the scoring hopes started to fade.

The Law's Delay

MORE delay in the Hauptmann case. Lawyers for the convicted kidnaper and murderer, will appeal the case to the United States Supreme Court.

Over two years have passed since the commission of the crime. Over a year since Hauptmann's arrest.

In the entire history of America crime a clearer case of guilt has never been established. There may be doubt as to whether or not Hauptmann did the job alone, or had help; there can be no doubt, that he is guilty of the crime as charged.

Yet the case drags on, and the process of dragging on promises to continue for many months more.

It's the same old story. Regardless of the nature of the crime, where a defendant has money, or his friends can secure it, PROMPT justice in this country, is impossible.

As a result, the moral effect of punishment, if not entirely lost is so seriously impaired, that the worthy cause of making this country safe for its law abiding citizens, receives another k. o. punch in the solar plexus.

For years there has been talk about improving our disgraceful system of criminal practice and procedure. But like the weather, the more we talk about it, the less we seem to do about it.

That such a situation is not necessary, no one can deny. For there isn't a civilized country in the world today, where such an antiquated hodge podge of moth-eaten tradition and useless red tape is tolerated.

BUT time goes on and day after day we are faced by the same old problem. Doubly strange for the one quality needed, is the one, the American nation is supposed to possess in a greater degree than any other,—namely SPEED.

We are a speedy nation in every other direction,—but in bringing criminals to justice, we have all the celerity, of a tortoise, asleep on some South Sea Isle.

Why this is true we don't know. But we do know this—as long as it remains true, this country will remain, the most lawless in the world.

Fateful Week for New Deal

BECAUSE of the many important legislative measures which will be subjected to judicial review by the Nation's highest court, the recent convening of the U. S. Supreme Court marks the beginning of a period when a Democlean sword will hang over the very heart of the New Deal.

In a general way the Court is being called upon to pass on the validity under the Constitution of the Federal government's right to regulate economic activity by taxation, its right to property condemnation for special purposes, and its right to engage in business in direct competition with private industry.

The test over AAA processing taxes centers around the decision of the Circuit Court of Appeals of Boston in the Hoosac Mills case. Reversing the decision of a lower court, the appeals court held, "The power of Congress to regulate interstate commerce does not authorize it to do so by taxing products either of agriculture or industry before they enter interstate commerce, or otherwise to control their production merely because their production may indirectly affect interstate commerce."

Not only are the processing taxes vital to the future of the Administration's farm program, but the constitutional principles involved parallel those contained in the Social Security Act for old-age pensions and unemployment compensation. If the AAA taxes are ruled unconstitutional, the basis of the social security program would then be threatened.

OTHER examples of Federal regulation through taxation are provided in the Bankhead Act for the control of cotton production, the AAA potato and tobacco control and the regulation of the soft coal industry under the Guffey Act.

Another basic issue facing the Supreme Court is the determination of the legality of condemning private property for public housing. The Cincinnati Circuit Court of Appeals, in upholding a lower court, refused to sustain the right of eminent domain for this purpose.

While the outcome of these two cases is regarded as a toss-up by many lawyers, the decisions either way carry sweeping implications for the future of business generally as well as the utility interests.—A. R. A.

John Golden, sly in the subtleties that flower on Page One, gave the performance of his initial offering of the season on Sunday evening, the first Sabbath show since the law changed. Forced to pay double salaries to stage hands, he hiked the usual ante for tickets, trimmed the free list to actual critics and did quite handsomely. Every seat taken and plenty of standees. Thus an opening for the first time in years paid and garnered some bang-up Monday press besides. A slick showman, John!

This address out of the morning mail has had me itchy all day to gallop out and find a callop to toot. Listen: "S. Baymond. Banrune."

Personal Health Service

By William Brady, M. D. Signed letters pertaining to personal health and hygiene not to disease diagnosis or treatment will be answered by Dr. Brady if a stamped self-addressed envelope is enclosed. Letters should be brief and written in ink. Please do not write in large numbers of letters received only a few can be answered. No reply can be made to queries not conforming to instructions. Address: Dr. William Brady, 265 El Camino, Beverly Hills, Cal.

REVERIES ON FUNICULOSIS. Funiculus, children, is a five-dollar word for boil. Funiculosis, then, amounts to about \$37.50 worth of boils, either wholesale or retail.

Well, here I am with a long, long way to go and nothing to go on. Let me see—oh, yes, come to think of it, I have an informative little monograph, replete with scientific facts and not with practical suggestion, which the staff of my funicular department will be happy to mail to any reader who has a boil or boils. Please inclose with your request (first time I've said please in this connection) a stamped envelope bearing your address.

Oh, of course I can't help picking up odd bits of knowledge about boils in the course of my browsing, and besides in my 18 years of honest but unremunerative practice I was tough on boils, felons, wens and weeping skin, as many a grandfather who lived around Penn Yan in those glory days can tell the young 'uns.

Is there a chance of ptomaine poisoning from eating home-made ice cream in aluminum pan in refrigerator for three or four days before eating it?—(Mrs. C. M. S.)

Answer—I still advise people to look for the letters U.S.P. (in Canada B.P.) on the label. If the medicine bears that mark, you may be sure it is standard strength.

QUESTIONS AND ANSWERS. U.S.P. AND B.P. Several customers asking for tolin inquired whether it is marked U.S.P., saying you had advised in your column not to buy it unless it is so labeled.

ARMY AIRBASE UP FOR DISCUSSION AT MEETING HERE

A new army airbase for the Pacific Northwest will be discussed at the meeting of the Oregon state board of aeronautics to be held at the Jackson County Chamber of Commerce at 130 next Saturday afternoon.

Present plans provide for one main flying field and several auxiliary fields, the latter said, adding that the outline of the tentative program would be presented at Saturday's meeting by Dr. Raymond R. Staub, regional director of the National Air Frontier Defense Association and a member of the state board.

The meeting will give city officials and airport committees an opportunity to present plans for the development of aviation in this community, Mr. Greenwood's letter said.

Those invited to attend the meeting include city officials, officers of the Jackson County Chamber of Commerce, pilots, aircraft owners and municipal committees interested in airport development.

The agenda as outlined in Mr. Greenwood's letter is: 1. Discussion of army airbase plan. 2. Educational program under WPA.

3. Control of flying in Oregon, registration of aircraft, etc. 4. Discussion of airport program of WPA.

Dr. C. V. Boyer, president of the University of Oregon, has decided to remain at the University of Oregon, rather than accept the presidency of the University of Montana, a position for which he has recently been considered.

Dr. Boyer is remaining because he sees great opportunities and bright prospects for higher education in Oregon, he states.

In the Fort George Wright district, they will be assigned to the Bonanza, Tule lake and Klamath camps in the Klamath Falls area.

Word has been received here that Co. 1652, now at Immigrant Springs in the Vancouver, B.C. district, will arrive here about November 2 and will be assigned to Camp Prescott on Roxy Ann.

The sanctions voted by the league committee, which indicated a disinclination to push drastic economic sanctions until milder methods had been tried, are designed to make Mus- solini uncomfortable financially through loan and credit measures.

Religious Loans Exempt. The sanctions program forbids loans and commercial credits to the Italian government to persons or societies in Italian territory, exempting, however, money for religious and humanitarian purposes.

Directors of the Bank of International Settlements expressed the opinion that withholding of loans to Italy would have no immediate effect as Mussolini's government is not in urgent need of them.

The French have held out consistently against drastic measures until milder ones have had a trial, and the British were willing to postpone a decision on the graver questions until later this week.

While this advantage was accruing to Il Duce by virtue of French diplomacy, Premier Mussolini at Rome was indicating a willingness to overlook League of Nations "injustices" and talk with France and Great Britain about peace in Ethiopia and Italy's needs in East Africa.

Occupation intolerable. Government sources in Rome said a league mandate over four provinces of ancient Ethiopia, with Italy in full possession of the remainder of present day Ethiopia, could solve the problem to the satisfaction of Italy, the league, France and Great Britain.

But at Addis Ababa Emperor Haile Selassie, in an interview, declared his unconquered warriors never would tolerate permanent occupations of Aduwa by the Fascists.

"There can be no peace while a single Italian soldier stands on the soil of Aduwa or Aksum," said the emperor. "We will not tolerate a burglar in our house."

The major battle in the office in southern Ethiopia was expected to occur when the emperor's black hordes attempted a flank attack on the southern Fascist forces. Observers said it probably would dwarf into insignificance the capture of the Italians of Aduwa on the northern front.

Two present Medford district CCC companies will be disbanded and three new companies will be moved here from the Fort George Wright district in Washington for the winter season.

The latest development in the CCC winter movements was announced today by Major George R. Owens, district commander. The two companies to be disbanded are Co. 1990, now at Diamond Lake, and Co. 1993, now at Upper Rogue. The men of these companies will be transferred to other companies within the district.

The three new companies assigned here are Co. 554, Co. 557 and Co. 568, all Fifth Corps area outfits. They have spent the summer months

Help Nature with Nature. If you suffer with some form of rheumatism or kindred ailment, take the safe and economical "Water Cure" at home—the treatment that has been proven in thousands of chronic cases for years and years. Get rid of the cause in a safe and natural way.

"Crazy" Water Crystals are the minerals extracted from our natural mineral water.
