## DAVIS SPEAKER AT EAGLE POINT P.-T. A.

EAGLE POINT, Oct. 18.—(Sp.)—At an interesting meeting of the Eagle Point Parent-Teacher association recently Clarence Davis said, "the modern methods of teaching the three R's must include a program for training the child to adjust himself to society." There was a large number of parents and patrons in attendance and interest was taken in the program which dealt with the "Modern Methods of Teaching the 3 R's." Short talks were given by members of the "old school" as well as the present and two demonstrations of modern methods in teaching were given by Miss Wilda Darnelle and Miss Donna Earl.

## OFFER FAMILIES CHANCE TO QUIT CENTRAL OREGON

**\$482,904 Allocated For Purchase Of Wind-Swept Gully-Slashed Land In Jefferson And Deschutes.**

PORTLAND, Ore., Oct. 18.—(AP)—The national resettlement administration offered today an exit for families on 140,000 acres of wind-swept, gully-slashed wheat and grazing lands in Jefferson and Deschutes counties of central Oregon.

Walter A. Duffy, regional director of the resettlement administration, announced that \$482,904 has been allocated for purchasing all land there which the holders will sell.

The land will be turned to grazing or forest areas while families will be assisted in relocating on irrigated or other productive lands.

130 Families on Land About 130 families were declared living on the land which has been adjudged too arid for a livelihood. Tax delinquencies are high and the maintenance of schools and roads is a serious problem, Duffy declared.

He pointed out that in some places the winds have swept away from a foot to two feet of the top soil, leaving huge boulders in fields. Gullies have been cut in places by sudden thundershowers.

"Wheat crops of 20 and 25 years ago in the area to be purchased have now given away to many abandoned schools and homesteads, dry springs and streams, overgrazed range land and unsatisfactory living standards," Duffy announced.

"The area at one time had a population of over 4000 but today it is nearer 1200 with 73,000 acres of farm land abandoned by former owners. Wheat allotment checks and relief funds have formed a large part of the farm income in recent years."

He said present grazing estimates for some of the more barren sections call for 75 acres for each cow.

Gradual Resettlement "Gradual resettlement of scattered families now located in the area will follow acquisition of the land," Duffy explained.

"Resettlement will be purely voluntary and no families will be forced to move. Those not realigning enough money from sale of their lands to establish an equity on good farming land where they will have a chance of becoming independent will be assisted with amortized loans if they

have a background of farming ability and industry. "Sufficient tracts of irrigated and good farming land where good schools, roads and public services are established, are available in central Oregon to absorb most of the families." gold production during the current fiscal year will total \$18,000,000, the largest amount in 20 years, George L. MEET THE WILKENS FAMILY

That's me over to the left—and I'm holding a picture of my father, Harry Wilken the first, and a first-rate distiller if there ever was one. William's the one in the middle—you can't find a better warehouse man than Will anywhere. And Harry Jr. is a crackerjack at distilling. William and Harry are my own boys.

Remember—we're a family of distillers—and this is our family's whiskey!

Yes sir, my dad, Harry Wilken the first, was making whiskey way back in 1888, and what knock I've got in making whiskey smooth and mild, I guess I owe to him. He put me to work in '92, just like I've been teaching my own boys everything I know about distilling.

So when you taste this Wilken Family Whiskey, you're going to enjoy everything that three generations of this distilling family ever picked up in all their experience. Seeing I've turned out some million or so barrels of whiskey, I've naturally picked up a thing or two that'll make whiskey quite a bit tastier and smoother than you'd find under ordinary conditions. The fact is—even if it's me that shouldn't mention it—folks are saying they never yet tasted whiskey, at any price, so mild and smooth!
