

RAILROAD OWNED BY FARMERS TO BE LIQUIDATED

KIMBALLTON, Ia. (UP)—The doom of America's only farmer-owned railroad, the Atlantic Northern, was sealed at a directors' meeting here when it was voted to suspend operations, effective January 1, 1936.

Although co-operatively owned and free from bonded indebtedness, the road in recent years has been facing a crisis. Instead of using their own road, the owners have been patronizing trucking lines to haul their products to market.

As a result, loss of revenue has been steady for the last 10 years with the exception of 1931 and 1932, when state highway paving operations brought a temporary halt in trucking activity.

According to a report of P. C. Clemmens, general manager of the Atlantic Northern, loss during the current year has been \$5,298. The road has a cash balance of \$3,727.

Track and rolling stock are in need of immediate repairs which would cost between \$2,000 and \$3,000.

Built in 1907 at a cost of \$350,000, capital stock of the road now is \$111,000, fully paid.

Appraisal of the property for rate establishment by the Interstate Commerce commission gave its physical valuation at \$157,000. Salvage would net not more than 15 per cent of its normal value, according to estimates.

There are 400 stockholders, practically all farmers who live in the carrier's territory. The road has been running between Kimballton, Elk Horn and Atlantic, Ia., 27 years.

COUNTERFEIT SUSPECT IS HELD IN PENDLETON

PENDLETON, Ore., Nov. 1. (P)—Will Harris, 34, Kansas City, Mo., was held to the federal grand jury in Portland under \$5000 bail on a charge of passing counterfeit money when he appeared in court here today for a hearing.

According to police records, he is said to have escaped from the Michigan state penitentiary last November, where he allegedly was serving four to 15 years for burglary.

Two other men, George Saucy, 43, and Charles Saunders, 39, both of Pendleton, were released for lack of sufficient evidence. They were accused of passing counterfeit quarters and half dollars.

ETHIOPIANS TO FIGHT AT SAKOTA

A report said the army of Haile Selassie in northern Ethiopia planned to make a desperate stand against the invading Italian legions on a line running from Alaji to Sakota, just south of Makale. Other recent developments are also shown on this Associated Press map.

DIRECT LEGION ACTIVITIES

SIBERIA TO GET NEW RAIL LINES FOR PROTECTION

MOSCOW (UP)—A new system of railroad lines in the Siberian Far East, combined with the improvement of Pacific ports, now is being built by the Soviet Union with two main objectives—economic development and military protection.

Of primary importance in the railroad system is a new trunk line to be constructed from Lake Baikal to the port of Komsomolsk-on-Amur. This route will parallel the existing Trans-Siberian, but will run several hundred kilometers north of it. Thus, in an attacking Japanese force should cut the Trans-Siberian, Russia still would have a second line of communication between the Lake Baikal area and the Pacific.

Feeder lines will radiate from this main route to the new industrial cities which are springing up in Siberia where once there was only waste land.

Further, a new line will be built to connect Komsomolsk and Khabarovsk, the latter on the Trans-Siberian.

Two ports of primary importance are being dug on the Pacific—Komsomolsk near the mouth of the Amur river and the Sovietskaya Gavan, some hundred kilometers to the south, both in the Maritime provinces. Because of the military significance of these ports, Soviet officials are reticent about discussing their details. It is known, however, that they will be designed to accommodate large ocean vessels and will be among the largest ports on the Pacific.

PORTLAND SEEKS TOWNSEND MEET

PORTLAND, Nov. 1. (P)—City Commissioner Ralph E. Clyde said today Portland's chances of obtaining the next national Townsend convention "are excellent."

Clyde returned yesterday from the first Townsend convention in Chicago, where he extended Portland's bid for the 1936 meeting.

"My invitation," he said, "was backed up with a letter from the city council and telegrams from the chamber of commerce and east side commercial club. I told them Oregon has more Townsend members per unit of population than any other state."

Clyde said Chicago was "very inhospitable" and the newspapers "roasted the hell out of us." He declared the convention was "put out very much by the fact that neither Chicago's mayor nor the state's governor appeared at the convention."

ANCIENT SLAVIC TOWN IS FOUND BURIED IN PEAT

WARSAW (UP)—A moorland settlement of the Slavonic tribe of Old Prussians, dating back at least 2,500 years, has been discovered by an archeological expedition from the University of Pozen.

The discovery was made on a peninsula on Lake Biskupinskie, near the small town of Znin. The entire settlement covered an area of about one acre. It consists of 15 wooden huts and seven streets, enclosed in a high wall and a palisade.

Owing to the settlement being buried in peat moss, everything was in an excellent state of preservation. Many objects of daily use, such as cooking utensils, tools and a crude wheel, were found in perfect condition.

Other settlements and tombs, probably dating back 3,000 years, have been found in the Baltic provinces, near Kartuz. The Old Prussians, of whom these are relics, were not ancestors of the present-day Prussians.

SCIENTIFIC EQUATIONS AID LIPSTICK MAKERS

LEIPZIG (UP)—As the result of exhaustive laboratory experiment, chemists have succeeded in reducing lipstick manufacture to an exact science. The relation of the temperature of the lips, the degree of moisture, and the influence of fats, are now expressed in scientific equations.

The bloom of human lips, long celebrated in song and history, has been accurately measured with the aid of delicate scales and chemical reactions. The new scientific lipsticks produced in German laboratories and recently demonstrated at the Leipzig fair, are said to be contact proof, moisture resisting, and to assure a uniform appeal for days on end.

TURKEY GROWERS WILL GET ADVANCE MONEY

OAKLAND, Cal., Nov. 1. (P)—E. A. Stokdyk, president of the Farm Credit Administration Bank for Co-operatives here, announced today the closing of a merchandising loan of \$500,000 to the Northwestern Turkey Growers' association of Salt Lake City which ships eight per cent of all the turkeys marketed in the United States.

Buyers said the loan just negotiated will be utilized in making ad-

RECOVER MINER'S BODY FROM SUMPTER SLIDE

BAKER, Ore., Nov. 1. (P)—The body of S. F. Bliss, who came to Baker county only a few weeks ago to prospect in the Sumpter section, was recovered Wednesday afternoon from a rock slide where he had been mining. The man, who was about 65 years old, disappeared Monday noon.

Little is known of the man's life, except that he is said to have engaged in prospecting for many years.

Priest Passes.
PORTLAND, Ore., Nov. 1. (AP)—Father D. John Pate, 67, pastor of Sacred Heart Catholic church at Newport, died here today. He had been in the hospital since Sunday.

PUPILS ARE HIRED WITH TEACHER TO KEEP SCHOOL OPEN

PATEROS, Wash. (UP)—Mrs. Josephine Smith of Seattle has only two pupils attending her school at Pateros this year. They are her two daughters, Janice, 8, and Peggy, 6. She got the position through an advertisement in a Seattle paper that read: "Wanted: A teacher with at least two children."

Residents of the district found there was not a child of school age this year. That meant there would be no school and a school once closed requires much red tape to reopen again. So board members advertised for teacher and pupils. They fitted Mrs. Smith with a private school for

Nazis To Protest Attacks In Britain

BERLIN, Nov. 1. (P)—The Nazi regime's recent coolness toward Great Britain was given concrete expression today in orders to the German ambassador at London to protest attacks on the party and on Reichsfuehrer Adolf Hitler by Winston Churchill.

Not only Churchill, but other prominent statesmen in England, have spoken recently in the German government in a vein construed as official quarters here as unfriendly.

G. A. R. Gets Des Moines Office
DES MOINES, Ia. (UP)—National headquarters of the Grand Army of the Republic have been established at the Iowa state capitol upon invitation of Gov. Clyde L. Herring. He made the announcement following election of Cley Nelson, Slater, Ia., as grand commander of the G. A. R.
