PRaised TOO LATE
Afterburn, world war transportation leader. Is dead. Abused while living. Honored when dead. Why was he abused? Because well-to-do and successful. Up from the ranks by ability. And hard work. Employing thousands. Why not sing off the abuse of successful men? Unsuccessful men cannot pay good wages. Oregon needs capital with which to develop. Why not encourage it? Not tax it to death.

EVERY DAY

is bargain day when you own an electric refrigerator and adequate refrigeration is just as necessary for health, sanitation, and convenience in the winter as in the summer. You will be many dollars ahead to buy your refrigerator this fall rather than to wait until next spring. It actually costs less to own an electric refrigerator than to be without one. The food saving alone will more than pay the electric cost, and this is true winter or summer. See the new electric refrigerators at dealers anywhere. You will be agreeably surprised to know how little it costs to own and operate an electric refrigerator in your home.
