Miss Carlton Speaks To Mission Societies

Mrs. W. W. Walker was hostess Tuesday afternoon to the Missionary societies of the Methodist-Episcopal church at her beautiful country home on the Old Stage road.

Presiding over the business session was Mrs. W. J. Wiley, president of the joint societies, with Miss Helen Carlton, district officer, presenting the program. Devotional topic was "Not Words Only." Miss Carlton talked on the various phases of the home missionary work, and stressed the progress and needs in carrying out its vast program in an inspiring and thought-provoking manner.

She told of Robinson's, a rest home for retired workers in Pasadena, and of various other projects of which the settlement work in the large cities, where numerous foreign elements and poor whites congregate under distressing conditions, is perhaps the most appealing.

Here teachers who know youth exert Christian influence and training to thousands of individuals who will in turn impart knowledge to others and still others and contribute to the upbuilding of a Christian nation.

TURKEY GROWERS TOLD NOW IS TIME TO KILL BIRDS FOR EAST TRADE

PORTLAND, Ore., Nov. 7.—(AP)—Turkey growers of Oregon were warned today by carload distributors not to overstay the period wherein shipments can be made in carload lots to the east.

Current weather conditions were described as most favorable for turkey killing.

Distributors reported they are eager to move as many carloads as possible to the east for the Thanksgiving trade, and added this movement naturally will aid the Pacific coast trade later in the selling period.

C. W. Norton, president and manager of the Northwest Poultry and Dairy Products company, said "The offers of turkeys to date for eastern shipment are surprisingly small."

Today's Portland delivery price was 18 to 19 cents for live birds, and 23 to 24 cents for dressed turkeys. Country buying prices were about one cent less.

TURKEY PRICES OPENING STRONG

Opening prices for Rogue River valley turkeys, according to County Agent Robert G. Fowler, are 23 cents for young hens and 22 cents for young toms. The county agent said this "is a good price" for the start.

Swift & Company are now buying locally for eastern shipment, and coast buyers of turkeys have made their appearance in the valley.

The county agent said the valley output of turkeys was the best in several years, with the birds large and well developed. For the most part they are young fowls. "There might be a few old hens and old toms, but there are not many." Both classes were cleaned up last year.

The turkeys will be in better condition in a couple of weeks, the county agent further stated. They are now being fattened and are at the stage when they are hard to pick, owing to pin-feathers.

SMALL EGGS UP CENT IN PORTLAND

PORTLAND, Nov. 7.—(AP)—Extra mediums and small eggs were up 1c on the exchange.

Butter was lifted again on the produce exchange, all scores moving up 1c. There still remained a similar price for both first and second grade. Butterfat was up 1c lb.

Demand for live chickens continued in excess of current offerings with resulting strong prices and occasional premiums available above these.

Slow trading was continued for heavy weight and especially rough sort calves with prices more or less shaded. Other country meats were about unchanged.

Price on hot-house tomatoes has moved too high for consumption to absorb the steadily increasing supply. Sales in general are not above 15c lb. and small stuff to 8c lb.

It's a HIGHBALL Whiskey

TRY, PLEASE, THIS ONLY TRUE WHISKEY test

The only way to test a whiskey's quality and flavor is either in a highball or straight. Cocktails conceal a whiskey's true worth. That's why many whiskeys that "get by" in cocktails fail in the highball test.

Hiram Walker's TEN HIGH is a highball whiskey—a straight whiskey that needs no "dressing up" with other ingredients.

And you'll find that the way to make a perfect cocktail is to use a good highball whiskey. TEN HIGH!

Mild and yet they Satisfy — how do you do that?

Well, to start with, we take tobacco from our own Southland—mild ripe tobacco with lots of natural flavor but no harshness or bitterness.

THEN AS A SECOND STEP—We blend this home-grown tobacco with spicy, aromatic Turkish tobaccos from across the seas. These Turkish tobaccos, you may know, have a flavor and fragrance entirely different from our own.

AS A THIRD STEP—These tobaccos are cross-blended—welded together—the best way we've found to get a more pleasing flavor and a better taste in a cigarette.

THAT'S WHY CHESTERFIELDS ARE MILD AND YET THEY SATISFY

In a single day people from ten different states visited our Chesterfield factories. 8,200 visitors during the past year saw Chesterfields made.
