LIME PRODUCTS PLANT RUNNING FULL BLAST

WILLIAMS, Nov. 6.—(Spl.)—The Oregon Lime Co. is running full blast again after repairs. Lime has been mined from this quarry for more than thirty years. A great block of marble was taken out about 1880 and

made a part of the famed Washington monument but the present uses of its products are for poultry grits and soil sweetener. A dump tower and heavy crusher rise above the pulverizing plant from which a beautiful view of Williams valley may be obtained. The payroll, too, is an item.

When the easiest way is the best way...

THERE are no two ways about it! Certainly the easiest way to get the most for every dollar you spend is to buy products that you know about through the advertisements in your daily paper. You don't have to go out and look for buying opportunities. The advertisements bring them to you. And all you need do is consider the facts, compare values and decide on the soap or the sedan that best fits your judgment and your pocket-book.

Certainly the best way of making your money go farthest is to buy merchandise of proved value. Advertised merchandise. Merchandise that is bought and used by many people. Merchandise that must be superlatively good enough for its maker to keep calling it to the attention of people day after day and year after year.

This is the service—of convenience and profit—that the advertisements offer you every day. It will pay you to read them regularly and take advantage of everything they can do for you.
