Football Stars In Cast Rialto Film

"Fighting Youth" this year's knockout football successor to "The Spirit of Notre Dame" plays at the Rialto tomorrow and Wednesday. "Fighting Youth" stars Charles Farrell with June Martel, Andy Devine, J. Farrell MacDonald, Eddie Nugent and these all American football stars: Larry "Moon" Mullins, Jim Purvis, Paul Schwiegler, Dale Van Sickel, Jim Thorpe, Leslie Cooper, Howard "Red" Christie, Nick Lukats and Frank Sully.
There are two exciting games during the process of the story that will leave you hoarse with cheering.

TIGERS SET FOR AIR ATTACK BY TRIBAL GRIDMEN

Their arrows tipped with hope, the light but fast Chemawa Indian football team was scheduled to take the field against the Medford Tigers this afternoon, prepared to shoot everything in their bag of tricks, including a fast passing attack. In an attempt to get an upset win and halt the championship aspirations of the Medford eleven.
The little Redskins got away to a wobbly start, dropping several games before breaking into the win column.
But since they discovered that yardage made through the air is just as good as that made on rushing, their ozone attack has opened up and they are considered really dangerous in that department.
Coach Bowerman of Medford announced this morning that he will tolerate no loquing in the game, but expects his charges to produce as good a ball game as they are capable of producing. "If they go out and try to play real football, I think we'll

Musical Revue at Craterian Scores Hit With Crowds

Much advance heralding of "Broadway Melody of 1936"—of its spectacular dancing, its fast-moving story and its comedy, brought a capacity crowd to the Craterian theatre yesterday where the picture opened its local run.
With so much advance praise, it would be easy to experience a "let down" if the picture did not come up to expectations. But "Broadway Melody of 1936" is certainly one picture that comes through in great style, a picture that lives up to all advance reports.
Differing in almost every respect from other screen musicals, the film—instead of relying entirely on well known screen personalities, has new faces and uses new ideas to put across its entertainment values. And topping them all is Eleanor Powell, whose fast-flying feet are pounding out a screen stardom for their owner.
Only one word can suffice to describe her work in this picture. That word is "sensational." Already recognized as the outstanding feminine tap dancer of the world, Eleanor Powell now adds millions of admirers through her work on the screen in "Broadway Melody." If for no other reason, her dancing alone would be well worth the price of admission by itself. But, it does not end there. She can also sing—and what is more important for screen work, she can also act. So, with all these rare qualities to serve her, it is not hard to predict that she will be seen in other screen musicals to come.
But dancing, outstanding as Eleanor Powell makes it, is but one of the many entertainment qualities of "Broadway Melody." There is much riotous comedy always running close to the surface, ready to pop out at any time, with Jack Benny, Sid Silvers and Una Merkel contributing mostly toward this end. Benny—already a recognized radio favorite, now shows great possibilities for the screen as the Broadway columnist who finds his hardest job is to keep his chin from connecting with Robert Taylor's fists. Silvers is Benny's stooge and proves his right to be known as the "original Broadway stooge" with his own particular comedy style.
Then there are Buddy and Vilma Ebsen, some other new faces. This talented brother and sister eccentric comedy dancing team is another of the many different ideas incorporated in this picture. There's Nick Long, Jr., to add a still different style of dancing. There's Frances Langford and her lovely voice. There's June Knight as the feminine menace, whose singing and dancing ability are already known to the screen. There's Robert Taylor as the Broadway producer, who falls to give his former school girl friend (Eleanor Powell) a chance to demonstrate her talents until a ruse succeeds in making her the star of the show.
In fact there are so many things to recommend "Broadway Melody of 1936" to the entertainment seeker it would be useless to try enumerating them all. For instance, there's the
