LANGE RECEIVES 1936 CHRYSLER

The first 1936 Chrysler with the famous Chrysler overdrive to be delivered to a dealer in Oregon arrived in Medford this morning and is on display at the Lange Motor Co., local Chrysler and Plymouth dealer.

From the re-styled, more gracefully curved new radiator grille, back to the new built-in rear trunk, blending smoothly into the rear panel, the flowing lines of the new Chrysler De Luxe eight on display gives the impression of reduced height and greater length. And the overall height is lower, and the bumper to bumper length slightly longer.

Back of the exterior beauty are many improvements in both body and chassis frame structure that contribute to strength, safety and silence of operation. Rigidity of the sturdy "X" braced frame has been doubled and the deflection under severe stresses is therefore cut in half, engineers state, by a series of changes that add only 16 pounds to the weight. The whole body structure has been greatly strengthened by the new features of design.

The most important feature of the new Chrysler 6 and deluxe 8 models is the Chrysler overdrive which enables the car to travel at high speeds with economy, according to H. F. Lange, Mr. Lange says: "We all know that the high speeds of modern cars wears the motor out faster. The overdrive speed comes into action automatically as speeds of from 35 to 45 miles per hour. The engine is reduced from 800 to 1200 r.p.m., thus giving a two-thirds reduction in wear. In tests these models have averaged 22 miles to the gallon of gas while being driven from 55 to 60 miles per hour. They have also been driven as far as 35,000 miles without a valve grind."

Two carloads of 1936 Chryslers are due here the first of next week. This shipment will enable the Lange Motor Co. to display the full line.

county, with George Palmier, of Portland, past master of the state Grange, presiding. State officers will conduct the initiation, which begins at 7:30.

SACRAMENTO, Cal., Nov. 13.—(AP)—President Roosevelt, in a letter to the National Grange, remarked on the progress of agriculture and the transitional phase of agricultural adjustment which farmers are now facing.

The brief message from the president was read to the delegates by Louis J. Tabor, National Grange master.

The president, a member of the grange in Dutchess county, New York, for a quarter of a century, said: "Unfortunately my recent trip to the Pacific coast had to be made on a schedule which could not include the dates for the session of the National Grange. Accordingly, instead of accepting your kind invitation to address my fellow members of the grange in person, I must be content with this long range message."

"As you discuss the problems of agriculture and the nation, you will of course take stock of progress already gained, and will survey the course that lies ahead. I trust that you will give particular consideration to the problems involved in the transitional phase of agricultural adjustment which farmers now are facing."

"I know that your deliberations will be earnest and thoughtful, and that your fellow farmers and the entire nation again will be indebted to you for the valuable contribution you make toward the vital choices that concern us all."

'GAS' WAS SOLD BY WILL ROGERS TO AID CHARITY

It was a gasoline company that bought gas from Will Rogers which made it possible for him to give \$5000 to the Red Cross and Salvation Army in 1933.

Cary T. Grayson, chairman of the American Red Cross, sends along a copy of Will Rogers' message to Judge John Barton Payne, then chairman, explaining how it all happened.

"Here is how this tough and tumble broadcastin' thing came about. 'The Gulf Oil company kept wantin' me to litter up the microphone with some Oklahoma grammar. Now, Amos 'n' Andy, Jack Pearl, Wynne, Valle or Cantor have never had any cause to be jealous of me in their industry. But I did want to make a contribution to a couple of good causes that done such fine work durin' our earthquake, and I didn't have the dough to do it with, so Mrs. Rogers figured it out, as she does most of the other things."

"So I am to preach for seven Sundays, and the Gulf company is to take all the money and send half of it to the Red Cross and the other half to the Salvation Army. Both to be used for unemployment relief."

"So I got nothin' to lose in the transaction but my voice and I never lost it yet. The only one I can see lose is the Gulf company, that is if they don't sell enough gas to pay for the gas they bought from me. So soon as I get through they will mail your check. Don't thank me, thank the Gulf company or better still, thank the listeners. They will be the sufferers. Yours, Will Rogers."

The American people now have an opportunity of showing their appreciation of Will Rogers' generous philanthropies by contributing to the fund for the establishment of memorials in his commemoration. The size of the contribution is not so important as the number of contributors. During the campaign which ends Thanksgiving eve, the Mail Tribune will receive contributions for the Medford area. A coupon is provided for those who desire to mail their contributions. PICK UP COUPON

ASHLAND ROBBERY SUSPECT LUCKY IN PORTLAND ARREST

ASHLAND, Nov. 13.—(Spl.)—John Freeman, the transient caretaker of the F. G. Swedenburg home, who was first suspected of the \$1500 robbery of jewelry, watches, silverware and other property from his employer's home, was arrested by Chief of Police C. P. Talent to have been positively identified in Portland as the guilty party.

Arrested last Thursday by an officer of the pawn shop detail in Portland, Freeman obtained freedom through his attorney before the robbery here was discovered, and is still at large. He was found to have sold the silverware to a pawnbroker on Second street in that city, and may have sold other parts of the loot. The silverware is being held by police pending completion of the case.

A photograph of Freeman was forwarded from Portland to state police officers here and was identified by Dr. Swedenburg as the man he hired October 1 and the person he left to watch his Boulevard mansion while he and his wife made a trip to California.

Free man is found to have been in several penitentiaries on various charges of burglary and larceny. The records show him to have been incarcerated during the period he said he spent at mining operations in Bolivia.

Bulletins containing a full description of Freeman and of the property found to be missing have been sent to nearly every police department in Oregon and Washington by Chief Talent in the hope of discovering further attempts to sell the property.

CHURCH TO START 50TH ANNIVERSARY SERVICES TONIGHT

An old-fashioned prayer meeting in the church parlors at 7:30 tonight will mark the first of the special services to be held in commemoration of the 50th anniversary of the Methodist Episcopal church at Main and Laurel streets.

Tonight's service will be held in honor of the charter members and former pastors of the church. Though many of the distant former pastors will be unable to attend, letters from them of much interest to all friends of the church will be read at the prayer meeting. It was stated.

Immediately after the prayer meeting a reception and social hour will be held. Preparations for this part of the evening were made by Rev. Joseph Knotts, who announced an interesting program had been prepared. At the conclusion of the program light refreshments will be served.

All friends of the church, and especially early residents of the Rogue River valley, were invited to join in the commemorative services.

From Elk Creek—Capt. Harold R. Riveron, commander of Camp Elk Creek, was a business caller at CCC headquarters here yesterday.

"Camels never get on your Nerves" STEADY SMOKERS SAY. Recently returned from the Upper Surinam River, Dutch Guiana, Mrs. William LaVare, girl explorer, says: "My husband and I are devoted to Camels—took them with us on our expedition. Smoking Camels steadily, I find, does not affect one's nerves." Lt. Commander Frank Hawks, U. S. N. R., holder of 214 speed records, says: "I've been flying for 19 years and smoking Camels—most of a long, breaking speed records tests the pilot's nerves as well as his plane. Camels are so mild they never upset my nerves." This is Margaret Ellen Nichols, expert newspaper woman. She says: "Newspaper work involves lots of strain. I smoke all I want, because Camels never bother my nerves. Camels have a mild, pleasant flavor—entirely different from any other cigarette." WILLIE HOPPE, champion of champions, and most famous personality of the billiard world! Mr. Hoppe has learned that cigarette mildness is essential to one who prizes healthy nerves. He says: "Championship billiards call for healthy nerves. It was a happy day for me when I turned to Camels. I can smoke them all I wish and never have 'edgy' nerves. I have smoked Camels for a long time, and I want to compliment them on their mildness. It must take more expensive tobaccos to give that special Camel flavor I like." You, too, will find a new delight once you turn to Camels. They never get on your nerves... never tire your taste. COSTLIER TOBACCOES! Camels are made from finer, MORE EXPENSIVE TOBACCOES—Turkish and Domestic—than any other popular brand. (Signed) R. J. REYNOLDS TOBACCO CO. Winston-Salem, N. C.
