NEW BILLS FACE COURT BATTLES

Senator Borah Admits Definite Aim in 1936

News Behind The News

By PAUL MALLON
(Copyright, 1935, by Paul Mallon.)

WASHINGTON, Nov. 15.—There is more than a good suspicion inside certain trade association groups here that the new dealers are working on a basic plan for NRA revival.

PAUL MALLON

A few of the most sympathetic industries are supposed to have been sounded out on it. The hope is that they may sponsor the proposals at the Berry conference here December 9. That is, the government may not put forward the plan officially itself, but will have it come from industry.

The basis of the proposal is supposed to be new hour, wage and anti-chiseling price agreements, to be agreed on voluntarily, but possibly under federal trade commission supervision.

Despite this cleverly planned approach, most insiders suspect the December 9 meeting will be like the usual international disarmament conference. There will be pious speeches, but no action.

Many more large industrialists would like to do what the motors industry did and decline the Berry invitation. They do not dare to. They are afraid of what may be done by some industrialists in their same line, while they are absent.

Consequently, the attendance at the conference will probably be much larger than the hopes.

Note—The Black 30-hour week bill and the O'Mahoney bill for federal licensing of corporations have no chance of passing at the next session of congress as matters now stand. However, they may become increasingly powerful clubs in the NRA situation.

No president has ever slowed down more than President Roosevelt during the last two weeks. On his 80-mile trip from Hyde Park to New York recently, he traveled about 35 miles an hour. Likewise, on his Armistice day journey to Arlington, his car was well within the speed limit.

It is understood that he personally issued restraining orders to his police escorts. Ordinarily they take all presidents through traffic at 40 miles an hour and hit it up more on the

OLD AGE PENSION AMONG FIVE MAIN ACTS QUESTIONED

Unemployment Insurance, Agricultural Adjustment, Capitol Project and Tax Amortization Are Others

By Clayton V. Bernhard
(Associated Press Staff Writer.)

SALEM, Nov. 15.—(AP)—Controversy over the ultimate fate of three of the five major issues enacted by the special session of the legislature waged here the past few days and will continue should the governor sign the measures as presented him.

Political observers declared there would be plenty for the courts to decide in the legislative enactments and predicted that all of the chief bills passed may be argued before the bench.

The three main issues over which there is considerable argument are the unemployment insurance, old age pension, and the agricultural adjustment act. The other two major issues were the capitol project and the delinquent tax amortization.

Amendment Slipped In

Sponsors and opponents of unemployment insurance as well as members of the house and senate have declared the two houses passed the bill without the employe contribution amendment. The enrolled bill as presented the governor however, included this feature.

The amendment over which two

SEN. NORRIS RECEIVES STRONG ENDORSEMENT PRESIDENT ROOSEVELT

WASHINGTON, Nov. 15.—(AP)—President Roosevelt called upon the people of Nebraska today to insist that Senator George Norris, Republican independent, run for re-election next year.

Once quoted as saying he would not seek office again next year, Norris subsequently insisted he had been misunderstood.

At his press conference today, President Roosevelt was asked for comment. He authorized newspaper men to take this statement as he dictated it slowly:

"This is the kind of thing you can say of very few persons and George Norris is one. If I were a citizen of the state of Nebraska, regardless of what party I belonged to, I would not allow George Norris to retire from the United States senate whether he wanted to or not for the very good reason that I feel he is necessary in the senate not only to the state of Nebraska but to the United States as long as he lives."

BRITISH RE-ELECT GOVERNMENT BY HEAVY MAJORITY

Authoritative Quarters Say Government Will Remain Firm in Foreign Policy — Labor Party Gains

LONDON, Nov. 15.—(AP)—Prime Minister Stanley Baldwin today gained a 3 to 1 decision on his demand for a mandate on rearmament and reconstruction.

Late returns from yesterday's election showed the national government commanding a clear majority of the 615 seats in the next house of commons, with the likelihood that its final lead would be at least 200.

Authoritative quarters said today the re-elected government would remain firm in the foreign policies it announced before the general elections, including the application of sanctions against Italy.

This was in answer to predictions made before the elections that the government might change its attitude in the Italo-Ethiopian situation once it was returned to power.

Labor Party Gains.

The labor party more than doubled its strength and ousted the former head of the national government, Ramsay MacDonald, in Seaham, together with his son, Malcolm, the colonial secretary, who ran in Bassetlaw.

Rural constituencies, reporting late today, were swelling the number of government seats.

Opposition liberals suffered heavy losses as the voters chose between the national government and the labor party.

The vote count up to 3 p.m. showed 366 national government members had been elected to the commons and that the popular vote for national government candidates was a majority of 1,300,000.

Grizzle was charged with taking county lumber following a grand jury investigation into gambling and graft conditions in Klamath county.

The motion to remove the indictment was filed by Grizzle's attorneys, who declared that statements made to the grand jury by Judge Ashurst of Klamath county were inflammatory and encroached upon the province of the jury.

BIRDSEYE CREEK GIRL IS PLACED ON POLIO LIST

The fourth case of infantile paralysis to be recorded in Jackson county since inception of the disease here last Friday was reported today by Dr. A. N. Johnson, county health officer.

The latest victim is Joyce Durham, four, daughter of Mr. and Mrs. Clyde Durham of Birdseye creek near Rogue River. The child, who has partial paralysis of both legs and arms, is being treated at her home. It is considered a mild and isolated case, Dr. Johnson said.

No new cases have been reported in the city, said Dr. L. D. Inskeep, Medford health officer. Both he and Dr. Johnson said they had made scores of calls on persons whose symptoms were reported "suspicious," but in no case was the ailment diagnosed as infantile paralysis. Both health officers stated the situation is well in hand, there being slight fear now of an epidemic.

The Durham family came to Birdseye creek three weeks ago from Hood River. The child was taken ill three days ago.

PARALYSIS CASE IN KLAMATH FALLS

KLAMATH FALLS, Nov. 15.—(AP)—An entire class at Mills school, the largest elementary school in the city, was dismissed today when it was learned one of the students had contracted infantile paralysis.

GOVERNOR VETOES BILL FOR REPEAL OF STUDENT FEES

39 Measures Approved, Including $6000 for Medford Experiment Farm —Major Measures Await

SALEM, Nov. 15.—(AP)—Governor Martin today vetoed the student fee repeal bill, passed at the legislative special session, and filed without his signature the measure which would permit the city of Salem to issue bonds over its 6 per cent limitation.

The governor signed 39 other measures.

The veto of the measure which would have repealed the $15 compulsory payment of student fees to higher educational institutions was based upon the attorney general's opinion that the enactment of the law was unconstitutional since a referendum on the 1935 act had already been filed with the secretary of state.

Veto Explained

The governor in his brief veto message to which he attached the attorney general's opinion stated that:

"The effect of the referendum petition is to suspend the operation of the original act and under existing authorities this bill, which attempts to repeal the act, is ineffective and unconstitutional since it attempts to withdraw from the consideration of the people a matter that is now legally before them." The referendum will be on the ballot at the January 31 election.

The measure which would permit Salem to vote a bond issue was introduced to enable the city to vote funds toward the purchase of Willamette campus for more grounds for the

NEW ORLEANS, Nov. 15.—(AP)—A federal court grand jury today returned indictments against Seymour Weiss, political treasurer for the late Huey P. Long; Mike M. Moss and Joseph C. Meyers on six counts charging conspiracy to defraud and obstruct the operation of the treasury department.

Three counts charged attempts to degraud the government and the other three conspiracy to evade on the part of the Hartwig-Moss Insurance company.

SIX SEEKING DIVORCE IN COUNTY THIS WEEK

Six divorces, an unusual number, have so far been filed this week in circuit court. Four of this number were filed Wednesday, the county clerk's office reports. The chief clerk of the county clerk's office does not recall a previous time when so many were filed in a single day.

TREATY SIGNING HAILED BY HULL AS SANE STEP

WASHINGTON, Nov. 15.—(AP)—Hailed by Secreary Hull as "an outstanding step in the direction of economic sanity," the new Canadian-American trade treaty was signed today in the presence of President Roosevelt and his cabinet.

Prime Minister King affixed his signature for Canada and Hull for the United States.

Details of the pact will not be made public for at least two days.

Tariff reductions and other concessions which it contains probably will become operative before the end of the year.

Praised by both governments as cementing a traditional friendship, the agreement is regarded by state department officials as the most important of the series of treaties negotiated under the reciprocal tariff act of 1934.

By mutual tariff reductions, they hope it will break down barriers blamed for a sharp drop in commerce between the two countries during the last five years.

PORTLAND, Ore., Nov. 15.—(AP)—Walter A. Duffy, regional resettlement director, announced today that rehabilitation loans have been made to 92 Oregon families.

AGED INDEPENDENT MUM ON QUESTION OF OWN CANDIDACY

Roosevelt Would Carry West if Election Held This Year Is Word — Aware Hoover's Friends Working

WASHINGTON, Nov. 15.—(AP)—Senator Borah (R-Idaho) asserted today he had a "definite objective in mind" regarding 1936 but was not ready to say whether he would be a candidate for the presidential nomination.

At his first press conference since returning from the west, the 70-year-old Republican independent told two score newspapermen that if the elections were held this year "Roosevelt would carry the west."

He added he was unprepared to forecast what might change that situation.

Asked repeatedly if he would allow his name to go on the presidential primary ballots in California and Ohio, pivotal 1936 testing grounds, Borah said:

Trim Course to Needs

"It is impossible to answer that kind of a question. I've a definite objective in mind and I'm going to conform my tactics to that objective."

"When are you going to announce that objective?" he was asked.

"Whenever I think it is propitious," he replied.

Asked if he thought former Presi-

POLITICAL RIGHTS TAKEN FROM JEWS

BERLIN, Nov. 15.—(AP)—All political rights were taken from Jews in Germany today by an official decree, defining closely the citizenship and racial laws promulgated by the reichstag at its Nurnberg session during the September convention of the nazi party.

"The Jew cannot be a reichs citizen, cannot vote or occupy office," ruled the decree, published in the official gazette.

"Jewish functionaries of the government will be pensioned December 31, 1935."

Another decree, dealing with the new blood honor laws, forbade marriages between Jews and "quarter Jews," or between "quarter Jews" themselves.

Aryan domestic servants may remain in the service of Jews, the decree provided, if they are 35 years of age or over.

COAL BILL DECISION CAUSES JUBILATION

WASHINGTON, Nov. 15.—(AP)—Friends of the Guffey bituminous coal control act were jubilant today over the decision of a Kentucky judge last night holding the law constitutional.

Charles P. Hosford, Jr., chairman of the national coal commission, said:

"The decision certainly sustains the contention made by the government that the power to regulate the bituminous coal industry was vested in the federal government and that the coal control act is a valid exercise of that power."
