New Lincoln-Zephyr to Be Shown in Medford

George Gates will return to this city late tonight from San Francisco with a smartly-styled, new Lincoln-Zephyr, which will be on display at the showrooms of the C. E. Gates Auto company at Sixth and Riverside streets. The sensational V-12, with ultra-streamlining, is the newest entry in the medium-price field. Advanced engineering design and radically different appearance mark the remarkable new car which has created a sensation at the various automobile shows throughout the United States this fall and winter. It is the first car to be built on the American continent to have no orthodox chassis or chassis frame. The car comprises an all-steel "bridge truss" body of extraordinary strength in which the engine is mounted and to which the running gear is attached. Its body design is like that of the new streamlined trains. Two-door and four-door sedan types are offered initially. Center of gravity is unusually low. Center-pole spring suspension is used. The wheelbase is 122 inches, springbase 133 inches. The Lincoln-built engine is rated at 110 horsepower. Transmission has quiet, helical gears in all speeds. The floor of the car is at curb level. There are no conventional running boards. The chair type seats are high and occupants ride comfortably erect without leaning back. And without fatigue even on long trips. Safety glass is used in windshield and all windows, an important safety factor.

NO CHANGE SEEN IN BUTTER MARKET

PORTLAND, Dec. 6.—(AP)—There continued a lack of change in butter or butterfat.

Market for eggs continued to reflect a weak tone with prices mixed as is quality of offerings generally. Receipts continue to show a fair-sized increase.

Demand for chickens was holding up well despite the reported big carry-over from the previous holiday. Prices in the main being offered by killers were unchanged.

Demand for country killed meats was being well maintained along the wholesale way with prices firm at recent advances for hogs, veal as well as for lamb. Beef remained a trifle sluggish.

There was a renewal of demand for potatoes with Scappoose stock showing the leading movement. Sales of Scappoose gems were being made \$1.55-1.75 for 1s.
