Rollicking Hit at Craterian and Holly

Supposing a doctor told you that you had only three months to live! And supposing you had always been a rather shy person but with always an underlying wish for whooping it up? That's what Edward Everett Horton does in "The Nightingale" playing tomorrow in his native theater, also tomorrow night only at the Holly theater.
It all happens when Horton, as the shy and retiring purchasing agent to a huge drug concern, visits a quick doctor who advises him that his health is very poor with the possibility that he will live but three months at the most. Secretly in love with the boss' secretary, he decides to really show her a good time and spends his savings on a wild celebration. Then, when the office safe is found to have been robbed, Horton, believing the girl guilty, takes the blame himself and not caring what happens, laughs it up for a ride, tells his boss where to head in and—all in all—does the things he has always wanted to do but didn't have the nerve.

Stars of Thrilling Drama at Rialto

After his adventures with wit and sword in "The Count of Monte Cristo," that charming new star whose name was shouted around the world, Robert Donat, turns to adventure without sword but with rapier-wit in his new picture, "The 39 Steps" in which he is costarred with Madeline Carroll, playing at the Rialto theater tomorrow and Thursday.
In "The 39 Steps" Donat attempts to track down and break a clever and dangerous spy ring. He tries to keep a step ahead of the police and at the same time keep a step behind the spies.

In Roxy Role

Paul Muni portrays a Slavic coal miner with his own ideas of fair play in "Black Fury" at the Roxy theater for today and tomorrow. Karen Morley is the shantytown girl whose infidelity results in the miner's berserk rage during which he holds an entire coal town at bay.

Do your children CATCH COLD easily?
Do their colds HANG ON and on?

These simple steps can help your family have FEWER COLDS—SHORTER COLDS

1. To help build RESISTANCE to Colds—Live normally—avoid excesses. Eat simple food and keep eliminating regular. Drink plenty of water. Take some exercise daily—outdoors preferably. Get plenty of rest and sleep. (During the colds season, gargle night and morning with Vicks VapoRub Antiseptic, especially designed for safe daily use to aid in defense against infection which may enter through the mouth.)
2. To help PREVENT Many Colds—At the first warning nasal irritation, sniffle or sneeze, use Vicks VapoRub—just a few drops up each nostril. VapoRub is especially designed for the nose and upper throat—where most colds start. Used in time, VapoRub helps to prevent many colds—and to throw off head colds in the early stages.
3. To help END a Cold Sooner If a cold has developed, or strikes without warning, rub throat and chest at bedtime with Vicks VapoRub. VapoRub acts two ways at once: (1) By stimulation through the skin, like a poultice or plaster; (2) By inhalation of its penetrating medicated vapors, direct to inflamed air-passages. Through the night, this combined vapor-poultice action loosens phlegm, soothes irritation, helps break congestion.
These three steps form the basis of Vicks Plan for Better Control of Colds—a practical home guide to fewer and shorter colds. Developed by Vicks Chemists and Medical Consultants; tested in extensive clinics by practicing physicians; further proved in everyday home use by millions. Full description of the Plan in each Vicks package—or write for details of Plan and trial samples of Vicks Colds-Control Aids. Address: Vicks, 128 Milton Street, Greensboro, N. C.
