

SOUTHERN PACIFIC BUSINESS IN 1935 BEST FOR 4 YEARS

SAN FRANCISCO, Jan. 10.—(Sp.)—A. D. McDonald, president, Southern Pacific company, in reviewing the year today, said: "The business of the railroad was better during 1935 than at any time since 1931. This was principally due to improved business conditions in all of the territory traversed by Southern Pacific lines." He added: "Freight traffic has improved pro-

gressively throughout the year, increase in number of loaded freight cars handled by Southern Pacific during the last three months of 1935 was 17 per cent over the same period of the preceding year. The increase for the six months' period since July 1 averaged 9 per cent over the corresponding period last year, while the increase for the entire year was 6 per cent above 1934. "Revenues from passengers carried on Southern Pacific lines in 1935 were increased 12 per cent over 1934. Christmas holiday travel was 25 per cent above last season and was the heaviest enjoyed in years. "Business generally appears to be upon a sounder basis and possessed of greater confidence than at any time since the beginning of the depression period. "Of course, the outlook for continued movement toward business recovery is influenced by many factors,

so far as the traffic handled by the nation's railroads is concerned, but the favorable factors at present outweigh the unfavorable. "Accordingly, our 1936 appropriation for the maintenance of the property of Southern Pacific and its principal subsidiaries has been increased by approximately \$5,400,000 over the 1935 budget for these purposes. "Projected expenditures for improvement and expansion of service, so far as has been determined, will be about \$13,180,000, nearly 100 per cent increase over like expenditures during the past year. "Projects involved in these expenditures include completion of the program for air-conditioning all passenger coaches, dining cars, club, lounge and Pullman cars used in all principal Southern Pacific trains and for continuation of plans to speed freight service. "During the closing year Southern

Pacific has extended its co-ordinated rail and truck service to provide store-door pickup and delivery service to shippers using its lines and has placed new merchandise freight trains in service, including the fast-track freight trains in the west, to insure early first-morning delivery of less-than-carload shipments at most points over the system. "Other improvements in freight transportation and equipment are planned for the coming year. "In addition to air-conditioning of passenger train equipment, schedules have been speeded during the last year and fares reduced. Further improvements in passenger service and equipment are planned this year. "Other projects for the betterment of service are under contemplation and these, together with the items mentioned, will be carried forward as extensively and as rapidly as seems justified by the progress of recovery

of general business, and continuing increase in volume of our own traffic. "There are, however, several disturbing factors, as far as improving the condition of American railroads are concerned. The railroads are faced with increased taxes, both directly and indirectly, and with laws that add to their financial burden. "But with an understanding and constructive attitude on the part of legislative and administrative bodies, as well as the people generally, I believe the railroads will continue to progress, and that such progress, with accompanying increased payrolls and purchases, extension and improvement in service, will contribute materially to the restoration of normal business activity." More than 1000 miles of Kansas state highways were built during 1935.

HOOD RIVER GROWERS PROFITED ON APPLES AVERS BIG OPERATOR

HOOD RIVER, Ore., Jan. 10.—(P)—John C. Duckwall, operator in both domestic and export markets, said today that business conditions in general show that Hood River valley apple growers profited from their 1935 operations. He pointed out that the sheriff reported current and delinquent tax payments equal to the total levy for the year—the best record here for some time.

UNSAID STOCK IN STORAGE IS LESS THAN USUAL FOR THIS SEASON, HE CONTINUED.

The movement of heavy quantities of Winesaps, Delicious and Roman Beauties from Yakima and Wenatchee to the domestic market is affecting the local demand. Reports from the east indicated heavy storage supplies were held there. France is placing some orders, and more are in prospect if the reciprocal trade agreement is consummated, he said. FEW WHEAT CONTRACTS PAID IN UMATILLA PENDING, Ore., Jan. 10.—(P)—Only 3 per cent of the 1935 AAA wheat contracts has been paid in Umatilla county, Chairman William Steen of the Umatilla crop allotment committee reported. He estimated between \$350,000 and \$400,000 is due.

PLAN BIG HOTEL FOR MOUNT HOOD

PORTLAND, Jan. 10.—(P)—A start will be made at once on the 300-room hotel and winter sports development project on Mount Hood. E. J. Griffith, Oregon Works Progress administrator, said today. The massive hostelry will perch a short distance from timberline, 6,000 feet above sea level, on the side of Mount Hood. Skiing is good there from fall until late spring, and year-around skiing above timberline on Mount Hood is within hiking distance. Tennis courts and other facilities will make the resort a year-round outdoor playground.
