

REAR-END MOTOR DECLARED PROPER AUTOMOBILE TYPE

Front Drive Also Extolled by Engineer—Interior Should Influence Exterior Design Is Pointed Out by Expert

DETROIT, Jan. 16.—(AP)—Automotive engineers were urged today to put the car before the horse by building motor cars with engines at the rear, at a meeting during which the virtues of the front drive cars also were described.

E. L. Johnston, stylar for a maker of rear engine cars, and E. L. Allen, engineer for a producer of front drive machines, each advanced his company's departures from conventional practice as steps toward more efficient design.

Their papers were prepared for delivery before the 31st annual convention of the society of automotive engineers.

Basic Design Faulty. "The deficiencies of today's cars are all due, more or less, to lack of a sound basis of design," Johnston said.

"Too much space is wasted upon non-functional elements," ventilation is still far from satisfactory; interiors are impractical—too cramped due to waste of available room," he said.

"Visibility is sadly lacking due to the driver being located back of the center of the car; car windows are poorly arranged—lights reflecting in them at night; bodies are poorly insulated against temperature and sound; . . . door handles and exposed door hinges set up wind noises at high speeds."

A principal advantage of either of the designs under discussion, the speakers said, was the elimination of the propeller shaft under the body, permitting floors to be swung lower and the elimination of the running boards.

Means More Room. "With no running boards to consider we can make . . . body width the same as car width, with fenders logically and simply a part of the body," Johnston said.

"This gives us luxuriously ample interior width—enough to seat four people abreast if need be."

The lower bodies permit greater head room, although the overall height of the car may be less than in conventional design, it was pointed out.

"Interior should influence exterior, and should not be the result of exterior design," Johnston said, explaining that he worked on the theory the car should be designed "from inside out."

He said that many of the objections he had cited as found in conventional cars had been overcome by application of the principles of "functional" design.

AIR LINE SCRIPT REDUCES FARES

A reduction of 15 percent in one-way air fares for those individuals and corporations purchasing universal air scrip became effective today on air lines serving 200 cities in 46 states, according to announcement of United Air Lines, one of the 51 companies offering the paper.

The scrip saves 15 percent on one-way airplane fares and allows a 5 percent additional reduction since the regular 10 percent discount on round-trip air tickets. A book containing 8500 worth of air line travel coupons is sold for \$425 and the scrip may be used to obtain tickets for others as well as the purchaser.

United and the other companies also are offering a group travel plan giving a company a 15 percent saving on the travel of all its designated representatives. As an example of the reduction made possible, the regular fare from Medford to New York drops from \$175.75 to \$149.41; that from Medford to Los Angeles, from \$39.53 to \$33.60, with similar reductions effective between hundreds of cities in all parts of the country.

I. O. O. F., REBEKAHS HOLD INSTALLATION

JACKSONVILLE Jan. 15.—(Sp.)—Ed Vincent, district deputy grand master for the Odd Fellows and installing team of Central Point, assisted by Mrs. Mamie Norris, district deputy for the Jacksonville Rebekahs, installed the officers for the new year.

After business and a social hour, refreshments were served in the dining room. Visitors from Central Point and Medford were present.

WINDOW GLASS—We sell window glass and will replace your broken windows reasonably. Trowbridge Cabinet Works.

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

Medical Dean

DR. R. B. DILLEHUNT

Dr. R. B. Dillehunt, dean of the University of Oregon medical school at Portland, was born in Illinois in 1886 and came to Portland in 1911. He has been head of the school since 1920. He is a graduate of University of Illinois, University of Chicago, and Rush Medical College.

STANDARD WHIPPING IMPLEMENT FAVORED IN ALBERTA SCHOOLS

EDMONTON, Alta., Jan. 16.—(AP)—The city school board decided last night to place whipping of pupils on a strictly standardized basis.

A whipping in one school will be as good, theoretically, as a beating in another since the school board, after prolonged debate, settled upon two kinds of straps which principals may use.

While the children—all potential victims— anxiously followed reports of the proceedings, the board voted approval of:

A strap 16 to 19 inches long, 2 to 2 1/4 inches wide and one-eighth to one-fourth inch thick for pupils from the sixth grade up.

A strap 15 inches long, 1 to 1 1/4 inches wide and one-eighth inch thick for grades one to five inclusive.

Supt. G. A. McKee sponsored the move to standardizing threatening equipment after a city-wide survey showed a woeful lack of uniformity in instruments for corporal punishment.

The obstacle to complete uniformity the board failed to hurdle was a method for measuring the muscle-power of the wielder of an approved strap.

MANY WILL HEAR TALK BY BANKER

Advance reservations today indicated an exceptionally large attendance at the luncheon to be given at the Hotel Medford next Tuesday by the Jackson County Chamber of Commerce and the Rotary club in honor of E. B. MacNaughton, president of the First National bank of Portland.

In telling of the large number of reservations already made, A. H. Banwell, chamber manager, emphasized that anyone interested in hearing Mr. MacNaughton is invited. Those desiring to attend, he said, should notify the chamber of commerce without delay.

Mr. MacNaughton, considered an authority on banking and finance, will give an address on "The Outlook for 1936." This will be his second visit to Medford since the First National Bank of Medford first in November. It will be his first public appearance here.

NOVELIST SUICIDES IN HOME IN LONDON

LONDON, British novelists, was found dead today in her London house.

A friend who called at the novelist's flat after the body was found, said she was lying in front of a gas fire, with one end of a tube from a gas ring in her mouth.

Her publications include "Virginia of the Rhododendron," "The Dreamship," "Wild Honey," "Porjola," "Perilous Woman" and "The Girl."

STUDENT GIVEN HIGHEST GRADE IN NAVY TESTS

Allan R. Bussey, 18, Medford high school senior and son of Mr. and Mrs. Fred L. Bussey of Talent, stood out today as the brightest youth ever to take the mental examination for entrance in the United States navy, since the recruiting office was opened here in the federal building May 22, 1934.

Taking the test last Saturday, Bussey made a grade of 99 out of a possible 100. It was announced today by Ernest M. West, recruiting officer. He also passed the physical examination, meeting the requirements of Class A, the highest rating.

The mental examination consists of 100 questions which must be answered in one hour, one point being allowed for each correct answer.

Bussey fell down on the 69th question because, Mr. West explained, he read it too hurriedly.

The 69th question was based on the 68th, which read: "Sam is taller than Joe; Tom is just as tall as Will; Henry is shorter than Jack; Joe is taller than Tom; Will is taller than Jack. Who is the shortest of these boys?"

Bussey got over the 68th obstacle all right and then slipped on the next question which read: "Who is the tallest of the tallest?"

Instead of telling who was next to the tallest, Bussey told who was the tallest and Mr. West explained that his error was due to his misreading the question, Bussey giving the name of the tallest.

Bussey is planning to enter the navy for a career after he is graduated from high school in the spring. Mr. West said.

Records since May 22, 1934, show that no applicant has ever closely approached Bussey's grade in the mental test. The recruiter stated, he finished the examination in 55 minutes, with an 8-minute leeway.

LONDON IN RING FOR PRESIDENCY IS CLAIM

NEW YORK, Jan. 16.—(AP)—Albert Ottinger, Republican who was defeated by President Roosevelt in New York state's 1928 gubernatorial election, today said that Governor Alf Landon of Kansas is "definitely in the ring" as a Republican presidential candidate.

Ottinger, who conferred with Governor Landon in Kansas last week, Ottinger quoted the governor as telling him:

"If the people want me for president, I am not afraid to tackle the job."

PRINEVILLE DOCTOR HEALTH BOARD HEAD

PORTLAND, Jan. 16.—(AP)—Dr. J. H. Rosenberg of Prineville was elected president of the Oregon state board of health at the annual meeting here yesterday.

Other officers are Dr. A. W. Chance, vice-president, and Dr. Frederick W. Stricker, secretary. Both live in Portland.

The physicians approved establishment of a state division of county health units, and maternity and child hygiene, to meet provisions of the social security act.

The board urged muzzling of dogs as a measure for rabies control.

For Those that Wear buy NOLDE & HOFFMANN.

VALLEY SCHOOL open second semester Jan. 27. Accredited nursery, kindergarten, grades 1 thru 8. Music, dramatics, art, dancing, French. Call Mary Foster, director, 986-B.

Bring your Watches and Clocks to Graves Jewelry Repair Shop. New location 21 North Riverside.

Annual States Dinner will be held in the First M. E. church, January 29. Reserve your tickets. Tel. 774-J-1.

BUCKINGHAM'S Ice Cream, Candy and Party Specials. The Great, 235 So. Central.

Heads G. P. School

J. F. SWIGART

J. F. Swigart, principal of Grants Pass high school, is a graduate of the University of Oregon.

OREGON MINERAL REPORT PLANNED

PORTLAND, Jan. 16.—(AP)—Ormond S. Bean, chairman of the state planning board, said today all available information obtainable on the mineral resources of Oregon will be assembled and made available to the public through a project to be undertaken at once by the planning board.

The board will cooperate with the special mining committee recently appointed by Governor Martin.

Bean said reports and published data on mineral resources will be abstracted so information will show location of deposits, general geologic type, extent of deposits, quality of ore, proven tonnage, prospective tonnage and estimated tonnage.

COUNCIL OF CHURCHES WOULD HALT GAMBLING

PORTLAND, Jan. 16.—(AP)—Directors of the Oregon council of churches meeting themselves on record at a meeting here to co-operate with "any movement looking toward placing an anti-gambling statute in the Oregon constitution."

C. A. Kelis of Salem, state president, presided at yesterday's meeting, the first since the state council was reorganized to include the work formerly done by the Oregon home missions council and the Oregon council of religious education.

Telephone Shares Earn More In 1935

NEW YORK, Jan. 16.—(AP)—Walter S. Gifford, president of the American Telephone & Telegraph Co. in a notice today to stockholders, stated preliminary data indicate consolidated earnings applicable to A. T. & T. stock were \$7 a share in 1935 compared with \$5.96 in 1934.

The Bell system had a net gain of about 460,000 telephones during the past year compared with 288,000 in 1934.

Newspapers Show Advertising Gain

NEW YORK, Jan. 16.—(AP)—Newspaper advertising for the year 1935, showed a gain of 5.7 percent over 1934, Printers' Ink Index announced today.

ROUND THE WORLD AIRPLANE TICKETS IS AIR LINE PLAN

'Round-the-world airplane flights on regular schedules probably will be undertaken this year, with travelers in Medford able to purchase tickets for the entire globe-circling journey, according to a summary compiled by United Air Lines of recent developments in the international air line picture.

With final air links now being completed, 'round-the-world passengers can fly across America or down the Pacific coast on planes of United Air Lines, board Pan American Airways' Clipper planes at San Francisco for the Philippines and continue on by Royal Dutch Air Lines and Imperial Airways to England. An alternate route is from Hong Kong to Singapore by Imperial Airways. From Singapore there are three lines to Europe—London via Imperial Airways and to Paris via Air France.

Pending inauguration of the joint Pan American-Imperial Airways flying boat service from Europe to the United States via the "great circle route" or via Bermuda, air travelers this year will be able to travel by air from Europe to Brazil over the South Atlantic line of the German Lufthansa, from Brazil to Miami or Pan American Airways, and from New York back to Medford via United Air Lines' overnight coast-to-coast planes.

In anticipation of 'round-the-world air service, United Air Lines is working out traffic interchange with lines touching at the New York and San Francisco ends of its mid-continent route, according to L. G. Cowan, field manager here. The company already has such arrangements with transoceanic steamer passengers flying across the United States.

Meteorological Report

January 16, 1936 Forecasts Medford and vicinity: Partly cloudy with rain Friday; not much change in temperature.

Oregon: Partly cloudy; rain in west portion Friday and in northwest portion late tonight or Friday; slightly colder east portion tonight. Temperature a year ago today: Highest, 41; lowest, 34.

Total monthly precipitation, 6.41 inches; excess for the month, 4.95 inches. Total precipitation since September 1, 1935, 13.40 inches; excess for the season, 4.49 inches.

Relative humidity at 5 p. m. yesterday, 85 per cent; 5 a. m. today, 19 per cent.

Sunrise tomorrow, 7:36 a. m. Sunset tomorrow, 5:07 p. m.

PORTLAND JUDGES GIVEN REBUKES BY SUPREME COURT

SALEM, Jan. 16.—(AP)—The state supreme court in its conference this week rebuked two circuit judges of Portland, a study of written and oral opinion today revealed. Judge Clarence H. Gilbert of the court of domestic relations, and Judge George Tawell of the probate court were the recipients of official "reprimands."

Use of private investigators for information presented secretly and upon which oral orders were based brought condemnation of the court against Gilbert in the opinion written by Justice Hand and in which Chief Justice J. U. Campbell and Justice Henry J. Bean and J. O. Bailey concurred.

An oral opinion rendered by the court, a review of the records shows, indicated another unusual procedure conducted by Circuit Judge Tawell. The case had been appealed from Multnomah county relative to a change in executors of the will of Henry Workman.

The records reveal that Workman in his will named H. J. Carruthers as executor. Some of the heirs objected and appealed to the probate judge. Tawell thereupon removed Carruthers and replaced him by a man named Cobb, who at once proceeded to execute the will while Carruthers appealed to the court.

The court promptly reversed Tawell, stating he was absolutely without authority to remove the executor.

FLUSH OUT 15 MILES OF KIDNEY TUBES

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep you healthy. Kidneys should empty 1 pint a day and so get rid of more than 3 pounds of waste.

If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 MILES of kidney tubes may need flushing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes and dizziness.

Don't wait. Ask your druggist for DOAN'S PILLS, used successfully by millions for over 40 years. They give happy relief and will help to flush out the 15 MILES of kidney tubes. Get Doan's Pills.
