LAST RITES TO BE MONDAY AT 2 P.M. FOR J. C. THOMPSON

WORK STARTED ON FORESTRY SHEDS

LEGION, AUXILIARY PLAN JOINT MEET

ELECTRIC WIRING CO.

CABINET FIXTURES

Scores of persons attended the open house held yesterday by Dr. A. R. Hedges, naturopathic and chiropractic physician, in his new health institute occupying the entire second floor above the Jackson County Building & Loan association at 126 East Main street.

Dr. Hedges explained the basic principles of the natural healing science and demonstrated the numerous electrical machines that are used in diagnoses and treatment.

In the X-ray room Dr. Hedges displayed X-ray plates to show various ailments and related how the conditions were cleared by his natural processes.

He demonstrated the X-ray and fluoroscope machines, explaining their purposes. He gave a brief discourse on the cold-ray machine used in treating liver, bowel and nervous disorders.

The visitors inspected the Vattenborg colon irrigator, the shower room and the sweat box utilized in treating sluggish skins and rheumatic conditions.

In his laboratory Dr. Hedges displayed the large stock of herbs he uses in treating cases that do not respond readily to natural processes.

"We let nature perform her functions whenever possible," he said, "sometimes using the natural herbs to help. We simply assist old mother Nature."

In his laboratory he also demonstrated the hydrogen-ion box which is used to show the acidity or alkalinity of the body. A blood-test box also was explained.

In the dark room he displayed the autoclast, a machine, he said, that draws the energy from the body, treats it and then restores it to the body. "It normalizes the electron," he explained.

In the diagnostic and minor surgery room Dr. Hedges demonstrated the biodynamometer and the hemostimagnometer. The upper half of the biodynamometer, he said, is used for diagnosis while the lower half is used for treatment.

By the diagnosis shown by the upper part of the machine, the doctor stated, treatments can be worked out mathematically. The hemostimagnometer, he related, measures the haemoglobin or energy of the blood.

The polyamine generator, described as capable of administering 16 different treatments, was explained by Dr. Hedges in the general treatment room. The high frequency machine, used for administering violet ray diathermy and D'Arsenal treatments, also was demonstrated.

"We treat all kinds of cases excepting those involving major surgery," Dr. Hedges said.

The whole second floor was remodeled by the Jackson County Building & Loan association especially for Dr. Hedges. Medford labor and materials were used in making it one of the most modern suites in the city.

During the day members of firms who contributed to the modernization called upon Dr. Hedges to congratulate him and offer their felicitations. A large floral piece wishing the doctor success was contributed by the Jackson County Building & Loan association.

Actor Bennett Recovers
NEW YORK, Jan. 25.—(AP)—Richard Bennett, 63-year-old actor, who has been critically ill, was pronounced "definitely on the road to recovery" at Harbor sanatorium today.

(Continued From Page One.)
ter, R. A. M. No. 32; Malta Commandry No. 34; Hillah Temple, A. A. O. N. M. S.; Royal Order of Jesters, No. 108; the Crater club; Medford Kiwanis club; the Benevolent and Protective Order of Elks, 1168; the Medford Gun club; and the Jackson County chamber of commerce.

He was a past president of the American Red Cross here, the Kiwanis club and the Rogue Valley Golf association. He was a past director of the Royal Order of Jesters. He was chief rabban of Hillah Temple and would have been elevated to the office of potentate this year had his health permitted.

Mr. Thompson was division manager of the California Oregon Power company at the time of his death and all company division offices will

J. C. Thompson

be closed tomorrow from 1 to 4 p.m. Division executives of the company and of the Mountain States Power company will attend the funeral.

Mr. Thompson had been associated with the California Oregon Power company for more than 20 years. He began his affiliation with the company on January 1, 1916, as secretary and auditor in San Francisco. In 1920 he was made manager of the Klamath division with headquarters in Klamath Falls. The following year he was transferred to the home office in Medford as assistant treasurer, continuing with the company here until his death. During his years in Medford he was advanced to assistant general agent and then to manager of the Rogue River division.

For five years prior to his joining the power company staff he was affiliated with the Mercantile Trust company in San Francisco, where he handled Copps accounts.

Mr. Thompson suffered an apoplectic stroke while in his office two months ago Friday. He was taken to Community hospital, where he received treatment for several weeks.

Responding to the treatment and showing steady signs of improvement, he was removed to his home. He continued to improve and he was thought to be well on the way to complete recovery. Last Thursday night, however, he suffered a second stroke and died at 10:15 the following morning.

Construction of a machine and general storage shed at the U. S. forest service warehouse near the McAndrews road under ERA regulations, will be started tomorrow, Karl L. Janouch, supervisor of the Rogue River national forest, announced yesterday.

The forest service plans also to build an oil storage and gasoline filling station at the warehouse, Mr. Janouch said.

About 35 men will be employed after the buildings get under way.

Mr. Janouch stated. The workers, he added, will be supplied by the national re-employment service.

The storage shed will be constructed of lumber in rustic design. It will be 90 by 36 feet. The filling station will be 16 by 30 feet, Mr. Janouch said.

of the American Legion Auxiliary. The short business meeting is to begin at 7:30 p. m. and be followed by a program consisting of stunts and demonstrations by the Legion Boy Scout troop No. 7 and a short musical program. There will also be a short but very interesting talk on the legislative program of the Legion and Auxiliary.

After the program cards will be played—poker, bridge, pinocle or "what have you." Refreshments will be served by members of the legion. Men—If your wife or mother is not a member of the auxiliary, bring her anyway. Ladies—if your man is not a member of the legion, bring him anyway. This meeting is Ladies' Night and Boy Scout Night and especially in honor of the lady members of the legion.
