

This WAR-MAD WORLD

NATIONS PREPARE TO LEAD THEIR CHILDREN TO SLAUGHTER

"War babies," and those born after the war, are now being trained to fight in another war.

In Italy children begin their military training at 4.

Throughout the world children are being

taught to fear and hate neighboring countries. Japan, Russia and Germany have militaristic youth organizations.

Each year Russia calls 1,200,000 new recruits. Italy could now throw an army of 2,000,000 into battle. The United States is prepared to

mobilize an army of 4,000,000 at a moment's notice.

Since the arms men helped elect Hitler to power in Germany, thereby starting a world-wide race to re-arm, nations have been increasing their man power. COPYRIGHT, 1936

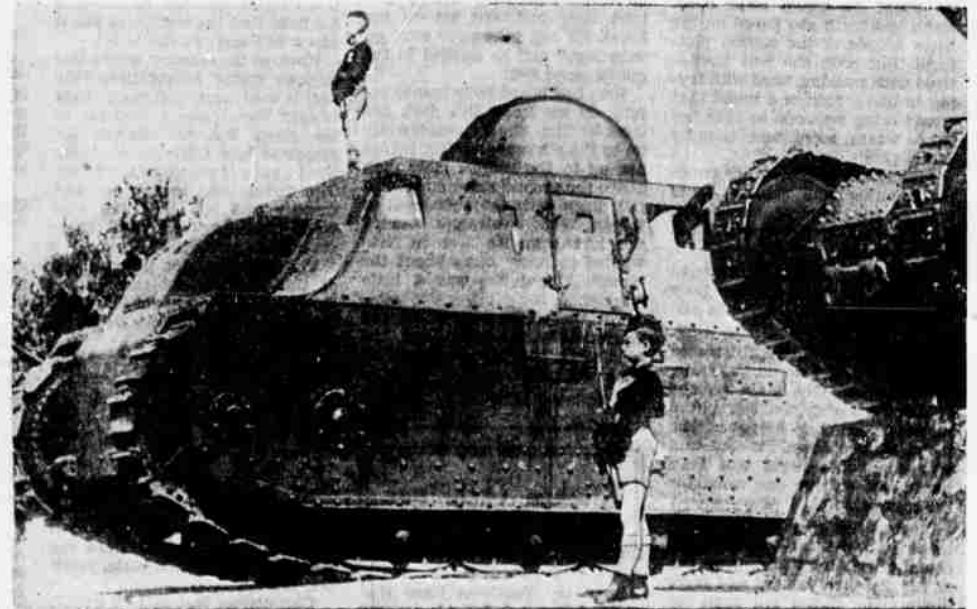

"CRADLE TROOPS, FORWARD MARCH!" THESE 14-YEAR-OLD ITALIAN BOYS ARE FULLY prepared for military service.

Italian boys must enter military "kindergarten" at 4, and for seventeen years thereafter will study in a military environment. They will wear uniforms until they have completed their training. Not only do they learn the art of war—they are also taught patriotism . . . and fear

THOUSANDS OF ENGLISH CHILDREN, BOYS AND GIRLS, ARE RECEIVING MILITARY TRAINING. Britain heeds the warning of the British Army and Navy Gazette: "In the next war, the whole of the mankind, most of the womanhood, and part of the childhood will be involved."
