

RESOLUTIONS OF REGRET ADOPTED BY LINCOLN CLUB

The following resolutions were adopted at the annual meeting of the Lincoln club of Jackson county held at the Hotel Medford last night:

"Whereas, S. Sumpter Smith, an originator and first member of the Jackson County Lincoln club, has within the past year, passed to the great beyond; and

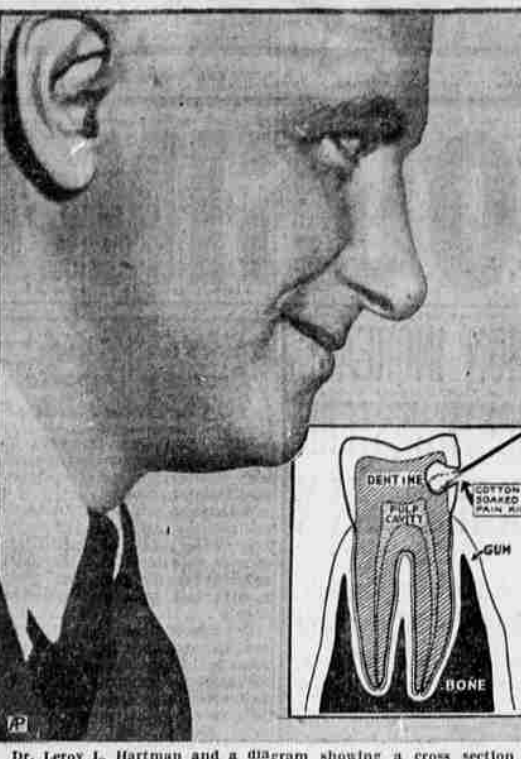

"Whereas, by reason of his devotion to his party principles, his fairness and his personal integrity and friendliness, he has in the past endeavored himself to the members of this organization, and each and every member thereof regrets the personal loss caused by his demise, and it is fitting and proper that a memorial be said to S. Sumpter Smith be spread upon the records of this meeting; now, therefore, be it

"Resolved, by the Jackson County Lincoln club that the club and the members thereof are deeply appreciative of the loyalty, energetic effort and friendly co-operative spirit extended in behalf of this club and its members by S. Sumpter Smith during his lifetime; and be it further

"Resolved, that this club and its members deplore his untimely passing from our midst, consoling ourselves, however, as best we may, with the thought that our good friend and associate lived a full and active life; and that by reason of his unselfish devotion to this club and its principles, to the civic enterprises of his community and to the welfare of his family and friends he has helped to make this community a happier and better place in which to live."

'Hypnotism!' Said Dentists

But It Was Dr. Hartman's Tooth Desensitizer

Dr. Leroy L. Hartman and a diagram showing a cross section of a tooth with a cavity in which a drop of the desensitizer is placed before drilling is begun.

NEW YORK—(AP)—Attentive dentists suspected that they were watching a case of hypnotism when Dr. Leroy L. Hartman of Columbia University made his first public demonstration of his new pain-killer for use in filling teeth.

He had been called in to the university dental clinic because a small girl refused to let a student dentist continue. She was crying with pain. These at the clinic did not know he had a new desensitizing mixture. They scarcely noticed as he placed a drop of a mixture of thymol, alcohol and ether in the cavity. Thymol and alcohol are a common anesthetic in dental use. They did not get the significance of the pause of a minute after Dr. Hartman had applied the pain-killer.

After that moment, Dr. Hartman motioned the student to continue his work. The child did not move an eyelash. She felt no more pain. At first onlookers thought she had been hypnotized.

In about 500 trials of the pain-killer made before giving the formula to the dental profession at a meeting of 3000 cheering dentists here, there were many similar experiences.

Anesthetizing Dentine.

The Hartman desensitizer does not mean, and was not intended to mean, that there is never to be any more pain in dental work. It is intended to relieve a specific pain.

There is good reason to believe that the pain relieved includes much of the misery dental patients dread.

Dr. Hartman's desensitizer anesthetizes the dentine, the hard ivory substance lying beneath the enamel, and compensating most of the solid substance in which drilling has to be done. The structure of the tooth is first the outer enamel, second the dentine which is most of its internal substance and third, deep in the center the pulp cavity, where the nerve lies.

Most fillings and drilling never penetrate to the pulp cavity. The Hartman desensitizer is not intended for use there. It works as far as now known, only on the dentine. It is based on a theory of Dr. Hartman's, which differed from the general belief that pain of drilling was due to pressure of the dentine on the nerve in the pulp cavity.

It Costs Little.

Dr. Hartman believed that the dentine itself was sensitive. The 500 cases seem to prove him right. His difficulty was not to find a pain-killer but one which was harmless and would last.

He accomplished by mixing ether and alcohol with thymol. The latter combines with fatty substances in the dentine to make a seal for the ether and alcohol. This anesthetic is cheap, a few cents an application. It was given to the dental profession without patent or other restrictions. It burns if it touches the flesh.

Dentists have claimed it would destroy the nerve. The Columbia experiments include filling teeth with its aid, and four months later taking out the fillings and examining the nerve. In one year's time no killing of nerves or other bad effects have been found.

Action in Old Cavity.

It does not kill the dentine pain until it comes in contact with live tooth tissue. Thus when placed in the decay of a new cavity of short duration it is likely to kill the drill pain immediately. Because it still can contact live tissues.

But in an old cavity it may not relieve the pain until the decay is cut through. For old decay acts like a cauterizing surface over the live dentine. It does not work in a cavity containing any moisture. When it was announced 2500 dentists in New York bought out the available drug store supplies.

BY HOWARD W. BLAKESLER (Associated Press Staff Editor)

Some of them were given old thymol, impure ether and impure alcohol. These mixtures are reported to have failed.

Some patients say the difference is that without the desensitizer the drill feels like cutting marble—with the pain-killer, it feels like cutting chalk.

CRAB COMMITTEE NAMED FOR ELKS SMOKER TONIGHT

A well-fed group of Elks will totter away from the tables this evening stuffed to the ears with crab prepared by P. C. ("Bodypop") Bigham and his crew composed of Everett Brayton, W. E. Morris, Ed Leach, Elmer Childers, George Howard and Harry Marx. To allow the crab to settle comfortably, the benevolent brothers will hold a short lodge session before joining their guests at the CCC boxing smoker, which is scheduled to start at 9 o'clock. Dinner for Elks only starts promptly at 8:30.

Capt. William C. Ryan and Lieut. Roy D. Craft of the CCC have promised a fast evening of leather slinging, with six three-round bouts.

Although boxing was at a low ebb in the district when Medford's representatives made their ill-starred expedition to the Diamond Belt tournament in Portland, a number of outstanding fighters have appeared and it is believed a classy team can be selected before the next Portland meet.

Johnny Walker, 137, South Fork, will meet Chester Tracy, 135, Prescott, in the main event that will bring together two newcomers to the district. Walker is a brother of Mickey Walker, famed champion.

Two heavyweight prospects who may give the district a real contender in that division at the next Portland tournament, will meet in a special exhibition. They are Robert Barth, 185, Steamboat, finalist in the Minneapolis Golden Gloves tournament in 1934, and John Dutcher, 180, Wimer, who also has behind him a formidable record in the heavyweight class.

Ernest Masurek, 160, Prescott, will meet Mike Maravich, 155, South Fork, in another promising clash. Alfred Carr, 135, Oak Knoll, will meet Jess Savitzky, 135, South Fork. Johnny Rosell, 118, Prescott, will mix with Hal Friedman, 118, Oak Knoll, to settle an argument that started when both boys represented the district at the Portland meet.

Wally Ames, 118, Prescott, will meet L. Bierschwall, 115, Gasquet, in a fast curtain-raiser. Both boys are new to the game but anxious to show their wares.

Meteorological Report

February 13, 1936.

Forecasts.

Medford and vicinity: Partly cloudy tonight and Friday; slightly colder tonight.

Oregon: Partly cloudy tonight and Friday; slightly colder tonight.

Local Data.

Temperature a year ago today: Highest, 46; lowest, 30.

Total monthly precipitation, 28 inch. Deficiency for the month, 72 inch.

Total precipitation since September 1, 1935, 13.94 inches. Excess for the season, 2.71 inches.

Relative humidity at 5 p. m. yesterday 69%; 5 a. m. today, 69%.

Sunrise tomorrow, 7:08 a. m.

Sunset tomorrow, 5:43 p. m.

Observations Taken at 5 a. m., 120 Meridian Time.

SAMSON'S STORE SPRING OPENING FOR POULTRYMEN

Following extensive remodeling and expansion at the F. E. Samson company's store and warehouse at 229 North Riverside a spring opening has been announced for Saturday, February 14, at which time visiting poultrymen of the valley will have an opportunity to confer with Ted Harmon, of the Triangle Milling company in Portland.

Mr. Samson has operated his seed and feed firm in this city since 1929, making numerous improvements and additions during that time. Indicating that this will be an unusually successful year, business for January, 1936, showed an increase of 23 per cent over the same month last year. Previous to locating in the Rogue river valley, Mr. Samson was associated with the Russell Miller Milling company in North Dakota, and later with a seed and feed store in Hood River, Ore.

A private office has been constructed at the rear of the main store and attractive fixtures and window drapes add to the general appearance of up-to-dateness at Samson's. The entire place was redecorated carrying out a light green with darker trimming. Numerous

Is Your Stomach a "Gasser"?

Excessive gas in stomach and bowels doesn't necessarily mean that your food is at fault or that you have chronic dyspepsia. In many cases it results from gastric neurosis—a purely nervous condition which disturbs the functional activity of the stomach.

Go to your druggist and ask for a package of Basilmann's Gas Tablets, which are prepared especially for nervous, gassy stomachs. See how quickly they will relieve excessive gas and all its annoying symptoms, among which are darting pains in the chest, palpitation, anxiety, shortness of breath, drowsiness after eating, sour rashes, heartburn and a peculiar grating feeling in the stomach.

Leading druggists everywhere sell Basilmann's Gas Tablets—in the yellow package. Pleasant to take and absolutely harmless. Always on hand at Strange's Drug Store.

Barber Victim Of Mid-Shave Sneeze

LEPANTO, Ark., Feb. 13.—(AP)—Mid-shave sneezes generally are considered as more dangerous to sneezers than shavers, but this time the barber suffered.

B. C. Baker was shaving a customer when the latter was shaken by a sudden, gusty sneeze.

The chair occupant was uninjured, but Baker was carried home suffering from three broken ribs.

Croats Convicted In Assassination

AIX-EN-PROVENCE, France, Feb. 13.—(AP)—The court today convicted three Croat prisoners of complicity in the assassination of the late King Alexander of Yugoslavia. In bringing in the guilty verdict, however, the jury found extenuating circumstances which are expected to save the defendants from the guillotine.

Noted Ex-Actress Claimed By Death

MONTE CARLO, Feb. 13.—(AP)—Mrs. Cora Urquhart Brown-Potter, once famous actress and the mother of Mrs. Fifi Sillman McCormick, died today at the age of 76 years. Death came in her villa at Beaulieu, after a week's illness.

Mrs. Brown-Potter was born in New Orleans but recently became a French citizen.

Her stage career was meteoric and her fame world wide. She retired from the professional stage in 1912, reappearing only for a single benefit performance in England in 1919.

FREIGHT SERVICE BETTERED BY S. P.

The Southern Pacific company and the Pacific Motor Transport company are giving wide publicity to the fact that they provide overnight freight service from Portland to this city.

An attractive broadside outlining the service has just been published and is being distributed to Portland shippers and local merchants. Feature of the broadside is an "animated" map showing that less-than-carload shipments of freight shipped from Portland at night arrive here at 8:25 a. m. the next morning and are given immediate delivery to the door of the consignee.

With the establishment of overnight service to Klamath Falls this week the Southern Pacific and its subsidiary, the Pacific Motor Transport company, have now extended the service to all major points on its lines in western Oregon. The railroad does hauling; the pickup and delivery features are handled by the Pacific Motor Transport company, which employs local transfer companies in the cities where the service is established.

NAB NORMAN THOMAS IN STRIKE DISORDER

BROOKLYN, N. Y., Feb. 13.—(AP)—Norman Thomas, the socialist leader, was arrested today on charges of disorderly conduct, growing out of mass picketing of a Brooklyn department store.

He was released in bond of \$500. He gave his age as 51 and identified himself as executive director of the League for Industrial Democracy.

HOLD EX-CONVICTS IN COUNTERFEITING

SAN FRANCISCO, Feb. 13.—(AP)—Secret service captain Thomas H. Foster said he would sign complaints today against three paroled convicts, held on suspicion of complicity in the manufacture of \$10,000 in spurious \$10 bills inside San Quentin prison walls.

Only 50 of the bills have been recovered, Captain Foster said. The others, he said, may be in circulation or cached somewhere in the prison.

The suspects are Thomas Bell, 42, Dan Wilson, 38, and C. L. Parr, 39. Bell and Wilson, Captain Foster said, claimed they received the bogus money from Parr, Wilson's brother-in-law.

The money was turned out in the prison's photographic department, Captain Foster said.

Onthank Appointed Oregon NYA Chief

WASHINGTON, Feb. 13.—(AP)—Aubrey Williams, national youth administrator, announced today appointment of Karl W. Onthank, Eugene, Ore., dean of personnel administration at the University of Oregon, as Oregon director of the national youth administration.
