

RATING SYSTEM HELPS MORALE OF CCC CAMPS

An "enrollee rating system" which gives recognition each month to the men who contribute most to the improvement of themselves and their camps, has been inaugurated in the Medford CCC district.

The rating system, project superintendent and educational adviser rating the enrollee each month on his efforts toward improvement on the job, in camp life and in the educational program, it is possible to give each member a rating which will be used later in determining those most worthy of special awards and recognition, headquarters explained.

All departments of camp life are given consideration in the monthly ratings and the names of the 25 members making the greatest strides in camp and self improvement are posted on the bulletin board at the first of each month.

The rating sheet used by the company commander considers the following points: personal appearance, neatness of quarters, general conduct in camp and on recreation trips; contentment to duty and discipline; contributions to camp welfare, and leadership qualifications.

The rating sheet used by the project superintendent considers the following points: skill and efficiency on the job; care of property and equipment; safety habits; willingness to work and ability to get along with fellow enrollees; and leadership qualifications, including helpful suggestions.

The rating sheet used by the educational adviser includes the following points: participation in the educational program; progress in educational achievements; reading habits and other leisure time activities; value of vocational and educational plans for the future; punctuality in attending classes; and leadership qualifications.

The rating system is proving a big aid to improved camp morale, headquarters said.

Rejuvenation and A New Order
To the Editor:
"Rejuvenation is virtually a fact," so Alexie Carrel informs, according to "Time." He ought to know. Steinhach, the endocrinologist, thinks so too. This is good news to Hearst, who cautions his guests, or rather Marian Davies' guests not to mention the awful word death in his august presence.

Death, Carrel says "is a great blessing." But Hearst can't see it that way. Carrel thinks rejuvenation not so good; a world full of aged people a calamity. But he is arguing against, not rejuvenation, but senility. If one is really rejuvenated he ceases to be senile. A rejuvenated person, if he be really that, is in every respect superior to youth because he will have all that youth has—and more. If he is abreast with his time he will be debunked of the ideas inseparable from youth. To be properly debunked takes about all of the allotted three score and ten. Then he dies! One's inherited potentialities cannot be fully developed in that brief time. His latent powers must go to the grave with him. This is society's greatest loss—its absolute loss—and strange as it may seem, it is rarely ever mentioned!

Odin, in his "Origin of Great Men" has examined the lives of some 6,000 and has found that genius is common, opportunity rare. But who reads this great Frenchman? His is a voice in the wilderness.

Regeneration at this time would be a calamity, however, as Carrel has mentioned, but for reasons that would be the last to admit. The reactionaries would corner the market, enhance their power and by their short-sighted policies, put an end to the genus homo. A scientific reorganization of society must come first, then followed by rejuvenation—certainly not the other way around.

Notes on Home Interest Conference Delegates

Mr. and Mrs. Chas. Hockeramith investigated the possibility of a new home in Corvallis while attending the home interest conference. Mrs. Hockeramith is considering the necessity of a large house to fulfill her ambition to entertain the 50 delegates from Jackson county next year.

"Scottie" Fraser and Lella Oust-rhant created a blockade at the Memorial Union entrance one evening having folks guess their ages. Mrs. Margaret Wilson visited Mr. Mabel, John Palmer at Albany enroute home. Mrs. Lee Port was a guest of fraternities and sororities on the campus, among which was Kappa Delta Rho of which her son is a member.

Mrs. Louise Brookway, president of the Washington P. T. A. in Medford, served as recreation leader enroute, and prohibited use of her name in newspapers.

Mrs. Mabel Thornton of Fish Lake repeated her valiant effort to attend conference this year, traveling eight miles on horseback and five on snowshoes. Mrs. Blanche Arnold of Fish Lake road also rode two miles on horseback to make the trip.

Mrs. Olive Floyd, living in Oregon for only a year or so, enjoyed her opportunity of meeting a portion of the people of her state.

Comment on the Day's News

HERE are some more facts about machines and their effect upon unemployment. These facts are gathered from census figures. They are interesting, and to many they will be surprising.

BETWEEN 1920 and 1930, the 13 principal growing occupations in this country gained THREE TIMES as many workers as the 19 principal vanishing occupations lost.

The total loss of jobs in the 19 declining occupations was about 800,000, and the gain in the 19 growing occupations was about two and a quarter million jobs.

These 19 growing occupations depended chiefly upon machinery. The 19 declining occupations are dependent in far less degree upon machinery.

A LONG this line, here is an interesting example:

In 1930, there were 321,322 fewer dairymen, teamsters and stable hands than in 1920, but in 1930 there was an INCREASE of 697,000 truck drivers and chauffeurs.

That is to say, for every worker who lost his job as a result of the automobile and the motor truck, TWO WORKERS gained jobs.

AND don't forget this:

Truck drivers and chauffeurs now earn higher wages than dairymen, teamsters and stable hands used to earn.

The effect of the machine is to increase wages by increasing the worker's power to produce.

THE effect of the machine upon the welfare of the worker is illustrated by this fact:

Between 1900 and 1935, the years in which use of machinery was increasing most rapidly, real wages (which means what your dollar will buy) more than doubled.

That is another way of saying that

your average wage dollar today will buy twice as many things as your father's average wage dollar would buy 35 years ago.

TWO more facts:

Between 1890 and 1920, production in American factories increased 216 per cent while wages paid to labor increased 497 per cent, which means that in these 30 years of growing use of machines wages increased more than twice as fast as production per man.

In 1934 (the latest year for which figures are available) wage and salary earners received 67.4 per cent of the national income, which is a larger share than ever before in history.

This can only mean that the machine has INCREASED labor's share of the total income.

THE opinion is widespread that the machine has REDUCED the number of jobs available, thus increasing the unemployment problem. The figures here quoted, which are taken from census returns, DON'T bear out that opinion.

AND here is something else:

The pessimists are trying hard to make us believe that this country is steadily getting worse and worse. The figures prove pretty definitely that instead it is getting BETTER AND BETTER.

HEAVY RAINS SEND EMIGRANT DAM HIGH

Emigrant dam, main source of water supply for the Talent irrigation district, is within 9 of a foot of the top, according to Olen Arnsperger, general manager of the Medford and Talent irrigation districts. The present rains are expected to fill the dam and require opening of the spillways.

A skiff of snow was reported falling at Fish Lake this morning. The weather there continues cold, with 35 inches of ice-packed snow on the ground.

Similar conditions prevail at Hiatt prairie. The spring thaw and runoff must come before there is any rise in the water at these points.

CAMPUS INFANTS CHARM VISITORS AT CONFERENCE

Mabel C. Mack left the campus explaining the whyfora of drinking tea and coffee in the same half hour one afternoon.

Mrs. Bertha Young served as chairman of a group meeting on the program, introducing Dr. O. R. Chambers, professor of psychology at the college.

Mrs. Roy Vaughn was a guest of Mr. and Mrs. G. W. Flint at Eugene, enroute home. Mrs. E. A. Clark was a guest of Mrs. Mabel Kirschman at Corvallis.

Mrs. Coker was the inspiration of a birthday party somewhere enroute south of Eugene, the county group inviting the S. P. conductor as a special guest.

Charles Fraser had a happy time wearing a hostess badge about the campus.

Mrs. Ruth Hood and Mrs. Bernice Stammen were dinner guests of Mrs. Roy Groat at Corvallis preceding the homeward trip Friday evening.

Fifty-three Jackson county delegates spent the week searching the campus "Barometer" for the final line of a splendid write-up of themselves, and demonstration agent.

Group observation at dawn: "The Painted Hills" of Alexander Bull's creation rise in somber blue beauty from the fog draped valleys near Grants Pass.

Tolo

TOLO, Feb. 17.—(Sp.)—Ed Albaugh, a field worker from O. S. C. for 4-H clubs, visited Tolo school Tuesday and enrolled the following girls who were interested in sewing: Zelma Rawson, Catherine Miller, Mary Muse, Esther Davis and Ernestine Tracy.

Mrs. Clarence Lofters, who has been ill with a gripe is able to be up again.

Charles Standiford marketed turkeys in Medford Saturday.

Catherine Miller returned to school Thursday. She had been absent on account of sinus trouble.

Edward Inmann was honor guest at a birthday dinner Thursday. Other guests were Mr. and Mrs. John Bohner and family, Arlene Inmann, Mrs. Mel Williams, P. A. Tracy and Ernestine, with Mrs. Tracy as hostess.

Mrs. Denver Davis was hostess to Tolo Community club Thursday at her home. Although the officers, Mesdames Lofters, Hanner and secretary-treasurer, Mrs. Green, were unable to attend, a chairman was appointed and some urgent business attended to. The social hour was thoroughly enjoyed by the guests. Mesdames Miles Davis, Jones, Muse, Rawson, Tule and Tracy. Delicious refreshments were served by the hostess. Next meeting in club rooms March 12.

Mrs. Lulu Thurston and pupils enjoyed a Valentine party Friday. A postmaster and delivery men were elected to distribute the many Valentines interchanged. They had lots of fun, of course. Alva Muse was a visitor.

Mrs. Wright says she thinks her husband, George, who is a patient at the Sacred Heart hospital, is getting better because he has begun to "growl."

TRAPPER IS HELD FOR GRAND JURY

Anton Ring, veteran trapper of southern Oregon, was ordered held to the grand jury on a charge of larceny by bailee, by Justice of the Peace Coleman. The complaint was signed by Benton Bowers, Jr., of Ashland, who alleges that Ring has possession of two valuable cougar dogs belonging to Bowers, and refuses to return them.

Ring contends that he is the owner of the two dogs, and has paid the dog license on them for the past two years.

Leslie L. Babcock charged with failure to procure a driver's license pleaded guilty and was assessed \$1 and costs, amounting to \$4.50. He was given until March 1 to remit.

The same decision was rendered against Glen Edward Shell, charged with a like offense.

GOOD GARDENING

Baked Soil for Flowers

When you plant flowers in seed boxes for transplanting to the garden when the weather is warmer, the baking oven should be one of your best implements. To prepare soil for the box take half garden loam and half fine sand. Sift it through a sieve, and if clods form throw them out—don't force them through. Then bake the soil in the oven—temperature 200 to 250 degrees. That will kill any lurking weed seeds. Soil two or three inches deep in the box makes a good germination bed. These, among others, are good flower plants to start indoors: chrysanthemum, marigold, petunia, grass-pink, scarlet sage, verbena.

Tomorrow: "Hotbeds."

BROTHER, SISTER CONFESS SLAYING FORMER HUSBAND

(Continued from Page One.)

Blankenship planned to question her further about this.

Prosecutor R. Warren Miller stated the purported confessions before deciding what action would be taken in the case.

Mrs. Sandell and the brother were held in the Kitsap county jail at Port Orchard.

Sandell went to Port Orchard from San Francisco to visit his divorced wife and their nine-year old daughter. He vanished at the farm.

May 21, 1935 Was Date

Statements attributed to Mrs. Sandell and Barton fixed the day of his death as May 21, 1935. A revolver was bought by Barton the preceding day.

It was Mrs. Sandell who first told of the killing and said the body was burned and buried on the farm.

For hours, the brother and sister were questioned separately and then brought together where each accused the other of firing the shot into Sandell's head.

"I knew he would tell," Blankenship quoted Mrs. Sandell as saying after she was told of Barton's confession. "It is best to tell it."

LUCIA E. SHOWERS CALLED BY DEATH

Lucia E. Showers, a resident of Jackson county for the past 18 years, passed away at her home in north-west Medford early this morning at the age of 85.

She was born in Alleghany county, N. Y., May 12, 1850, and was married at Hinsdale, Illinois in 1867 to Caleb Showers, a Civil war veteran who died in 1931. Ten children were born to this union, four of whom reside in Oregon, Beale Holzhauser of Klamath county; Mae Rice, Della Neighbors and Orville J. Showers of Medford. Also five brothers and one sister, Byron, Charles and Arthur Collier of Minnesota; Walter of Pullman, Wash.; Mina E. Lytle, Kimble, S. D., and John Collier of Medford.

Funeral services will be held at the Conger chapel at 1:30 Wednesday with Rev. E. E. Wordsworth of Ashland officiating, assisted by Rev. W. R. Baird. Interment in Jacksonville cemetery.

Be correctly corseted in an Artist Model by Ethelwyn B. Hoffmann.

HEMSTITCHING Se YARD. Buttons covered. Dressmaking, 203 South Front.

MYRTLE G. PETTIT PASSES AGED 56

Myrtle Grace Pettit, 56, passed away at her home 635 Palm street Sunday afternoon from heart trouble. She was born at Gainsville, Wisconsin, November 12, 1879 and had resided in Medford for the past ten years.

Myrtle Grace Yaple was married to Edwin Pettit, June 12, 1926 at Wenasco, Wash. They came to Medford in July of the same year. She was a member of the Royal Neighbors of Beloit, Wisconsin, also member of the Ladies' Auxiliary of F. O. E. of Medford.

She was a woman of fine Christian character and leave a host of friends besides her family. She leaves her husband Edwin, six sons and two daughters, Lawrence Yaple, Hopland, Calif.; Vernet Yaple, Sequim, Wash.; Harold, James and Glenn Yaple, daughters, Lawrence Yaple, Hopland, Ore.; Mrs. Genevieve Wardell, Garrison, Montana; Miss Edith Yaple, Medford, and six grandchildren; four brothers, Clarence and Claude Horkey, Plymouth, Wisconsin; Harry Horkey, Janesville, Wisconsin and Bert Horkey, Beloit, Wisconsin; sister, Mrs. Martha Pankhurst, Orfordville, Wisconsin.

Funeral services will be held at the Perl Funeral Home, Wednesday at 2 p. m., Rev. W. R. Baird officiating. Interment will take place in the St. Klou Memorial Park.

MAN'S HEART SKIPS BEATS—DUE TO GAS

W. L. Adams was blasted so with gas that his heart often missed beats after eating. Adierka told him of all gas, and now he eats anything and feels fine. Heath's Drug Store.
