

ROTARIANS MOURN DEATH OF DIXON, CHARTER MEMBER

At today's meeting of the Medford Rotary club, at the Hotel Medford, the following resolution was adopted by the members expressing sympathy to the family of Volney Dixon: "The recent passing of our late friend, Volney Dixon, a charter member of our club, who suddenly and unexpectedly passed away at his home in this city on the nineteenth day of February, 1936, while still in the prime of life, came as a great shock to the family of our deceased friend, to the membership of this club, and to a vast host of friends throughout the entire Pacific northwest, by all of whom Volney was greatly loved and esteemed, and by whom his untimely death is earnestly and sincerely mourned. "Volney was a man bearing an exceedingly cheerful disposition, reflecting good fellowship and cheer among all with whom he came in contact; he was faithful and efficient, his citizenship was of a high order, exerting an influence for the benefit of the community in general, and in behalf of which he ever exerted both time and talent in furthering the public welfare, by placing into active practice the precepts of Rotary International with which he was actively identified since becoming a charter member of this organization on the thirty-first day of May, 1923. "Recognizing these virtues of moral citizenship and loyalty to just principles, it is deemed fitting to recognize also his merits as an ideal citizen, faithful friend, true Rotarian, and as a real man; therefore, be it resolved, by the Medford Rotary club, of Rotary International, in regular session this day assembled, that this certificate of appreciation issued by our club be adopted and recorded in the minutes of this meeting; also, that a copy of the same be delivered to the family of our deceased member, adding a further appreciation of sympathy for them in their deep bereavement."

CITY SNOW MOVED BY SUN AND RAIN; MERCURY MOUNTS

today. The officials said, however, that all park roads were open to travel. Official forecast was for occasional rain or snow again tonight and tomorrow, with little change in temperatures. The mercury yesterday stayed within an extremely narrow range, the maximum of 37 degrees being only five degrees below the day's lowest mark of 32. Today's minimum was 30 degrees. By noon the mercury had crept up to 38 degrees, two higher than at the same hour yesterday. The weather bureau at the airport measured 1.70 inches of snow late yesterday afternoon but meteorologists pointed out that the actual fall was considerably deeper as much of the white blanket had melted, before a measurement could be made. Precipitation for the 24 hours ended at 3 a. m. today measured 40 of an inch. This brought the month's total to 2.50 inches, an excess of .51 for February to date. Total rainfall since September 1 stood at 16.25 inches, a seasonal excess of 3.94.

FARM ELECTRIFICATION BILL PASSES SENATE; FOES OF PLAN WARNED

WASHINGTON, Feb. 25.—(AP) The senate today voted to take up the Norris bill authorizing a \$1,000,000,000 rural electrification program over a ten-year period. The bill by Senator Norris (R. Neb.) would authorize an annual appropriation of \$100,000,000 until 1947. A total of \$700,000,000 would be allotted yearly for loans to states in proportion that the number of farms without electricity bears to the total in the United States without such service. A total of \$30,000,000 would be allotted annually for loans in states without regard for the above apportionment. Not over 10 per cent of this \$30,000,000 could be used in any one state. Loans would be self-liquidating with a period not to exceed 40 years. Interest would be 3 per cent. In the house coincidentally, Representative Rankin warned opponents of the administration's power and electric policies they were "tampering with a dangerous political issue." "Consumers in 20 million homes are beginning to realize they have been overcharged," said Rankin. "They are not going to draw party lines and will drive from office those who oppose the efforts of this administration to provide cheaper light and power."

The regular winter schedule of two planes each way daily will be increased in the spring to the usual summer schedule of three northbound and three southbound ships, Mr. Thigpen said. If present traffic continues, it is probable that four flights each way will be maintained this summer, he added.

has a candidate of his own for the presidency and boasts he is making efforts in his behalf. "Is he a new dealer," interrupted Hastings. "No," snapped Robinson. "He is an old dealer like yourself."

He gave General Bolles' name in response to a direct question from Hastings, but did not name the candidate, he was assertedly supporting.

Gives Mitchell Case. Robinson declared Hastings had held up action for a year on a bill the majority leader had introduced to "remove the stain" from the record of General Mitchell, who was court-martialed for his outspoken denunciation of army leaders he held responsible for lack of air corps development.

Hagood, in what already has threatened to become a political issue, was ordered home to "wait orders" shortly after telling a house committee that works progress administration funds were "stage money."

Hastings, chairman of the republican senatorial campaign committee, declared: "Here is an effort on the part of the commander-in-chief of the army and navy to see to it that nothing reflects on his administration, not of the army and navy, but of the general affairs of his administration."
