## A LIGHT SMOKE OF RICH, RIPE-BODIED TOBACCO

All kinds of people choose Luckies, each for reasons of his own. But everyone agrees that Luckies are A Light Smoke of rich, ripe-bodied tobacco. It is a rather surprising fact that the leaves of the same tobacco plant may vary far more than the leaves from plants of quite different types. Chemical analysis shows that the top leaves contain excess alkalies which tend to give a harsh, alkaline taste. The bottom leaves tend to acidity in the smoke. It is only the center leaves which approach in nature the most palatable, acid-alkaline balance. In Lucky Strike Cigarettes, the center leaves are used.

### Luckies are less acid

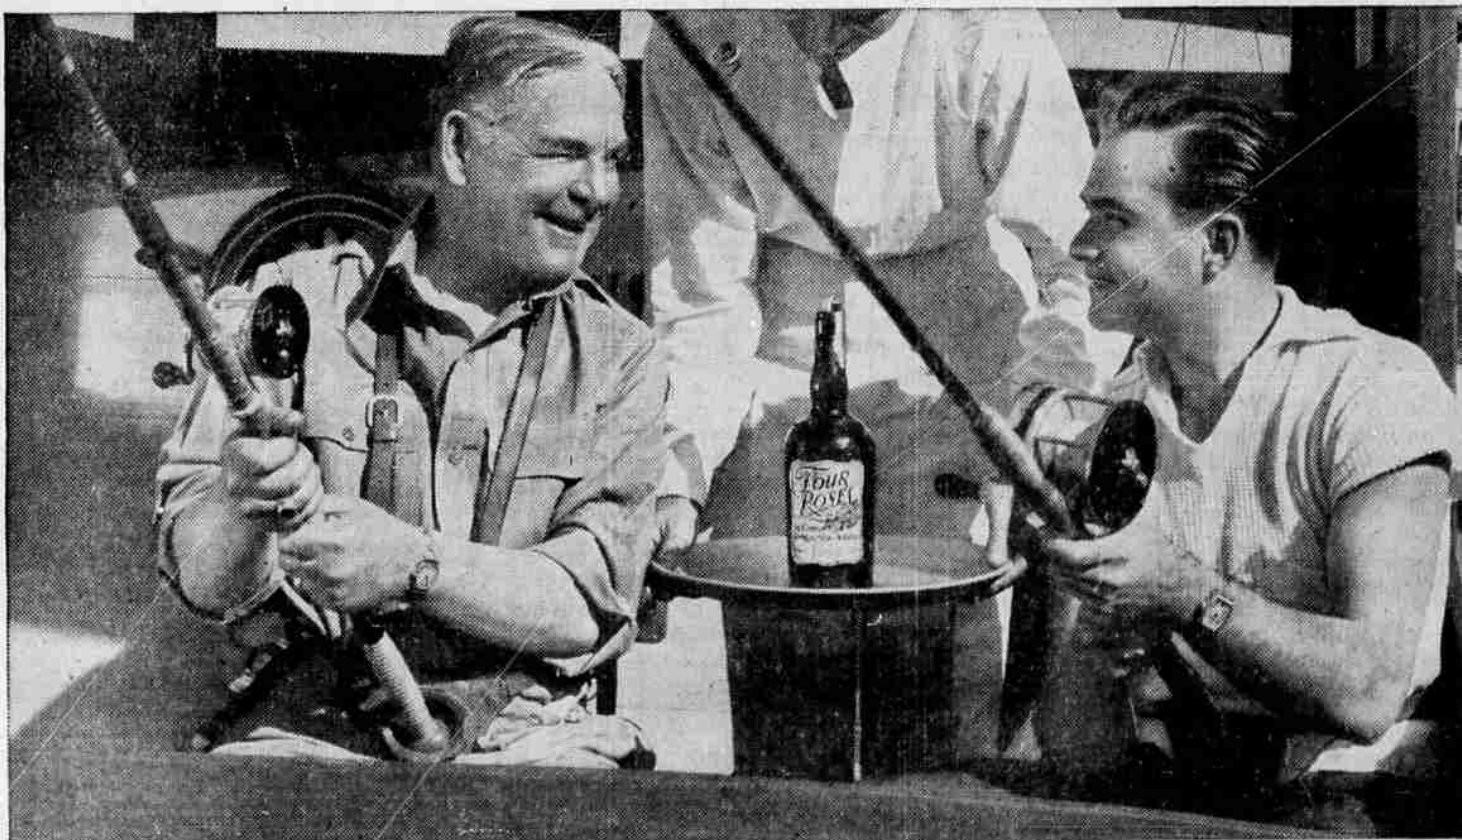

Recent chemical tests show that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%.

## Some men know — others are discovering — why Four Roses is an extra-quality whiskey

THROUGH four generations of the same family, we here at Frankfort have had the opportunity to learn all there is to know about the three kinds of whiskey.

We've made all three—straight whiskey that's unblended; whiskey blended with neutral spirits; and blends of straight whiskeys that contain nothing but straight whiskeys.

And all our experience proves that the last is best. That's why the pride of our house—Four Roses—is a blend of the finest all straight, all American

whiskeys—every single drop made in the United States. That's why we sincerely believe that Four Roses is the noblest whiskey ever put into bottles.

This statement calls for a lot of proof. You'll get it in one sip of Four Roses... and there are simple, logical reasons why.

You see, every straight whiskey has some outstanding trait—something extra in aroma, or smoothness, or flavor. And there's just one way to combine all these traits... that is to blend these

whiskeys in such a way that the best virtues of each are brought out and united in a liquor far superior to any one of them alone.

Naturally this takes a lot of skill. And Frankfort has that. Frankfort has been blending whiskeys for 70 years—and you learn a lot in that length of time.

Many men have known all this for a long time. And others are learning it mighty fast... that the finest whiskey of all is a blend of all straight, all American whiskeys... and its name is Four Roses!
