

# Deaver and McCurley's New Richfield Station Opens Here Saturday

## NEW STATION WILL IMPROVE BUSINESS DISTRICT OF CITY

Richfield Gasoline and General Tires Featured—Complete Service Will Be Offered to Motorists

Tomorrow, Saturday, will mark the opening of Medford's newest service station, which will be operated by Deaver & McCurley at the corner of Fifth street and Central avenue. The attractive new station replaces an old structure on the lot owned by W. E. Thomas and is a splendid addition to the North Central avenue business section of this city.

the past 11 years. Mr. Deaver was with the General Tire & Rubber Co. four years, and has also sold various other brands of tires. Mr. Deaver says: "We selected General because it is the outstanding tire. General has a slogan, 'Goes a long way to make a friend, and we know from past experience that when we sell a General tire we have made a friend.'"

The lubrication department will be in charge of Barney Brock, who was formerly with the Union and Texas Oil companies. Mr. Brock has specialized in lubrication for the past five years. The newest Richfield protective lubrication system equipment has been installed.

In the very near future Deaver & McCurley plan to have a parking lot for the convenience of their customers shopping in the North Central business district. The lot will be located next to the station at the corner of Fifth and Front streets.

## SIDE-BET BOWLING WILL START SUNDAY

The challenge flung by the Kern Hotel bowling team from Klamath Falls, leveled at the Eads Transfer team of Medford, which defeated them on their home court several weeks ago, will be accepted Sunday, with five games to be played on the Kern alleys that day.

On the second Sunday, March 15, the Kern crew invades this city for the last five games and the chance to grab the \$100 side bet. The money, subscribed by Medford bowlers, indicates a confidence in Ben Franklin, Earl Sims, Walt Antle, Roy Pruitt and George Eads who make up the Medford team.

## POSTPONE ELKS CARD TO THURSDAY, MAR. 19

The Elks-CCC fight card, scheduled for March 17 as the first of a series of elimination bouts, has been postponed until Thursday, March 19, it was announced today. The shift comes as a move to avoid conflict with social functions scheduled for March 17th, St. Patrick's day.

Special Communication of Medford Lodge No. 103, A. F. & A. M., Friday, March 6th at 7:30 p. m. Work in F. C. degree. Visitors invited. O. O. Horner, W. M. GEO. ALDEN, Secy.

## New General Tread

After two years of development work, General Tire has just perfected a motor-car tire built on an entirely new principle of tire construction, according to John Deaver. Departing from the conventional type of rubber button or tire tread design, characteristic of all present-day tires, the Dual 10 tire, with "multi-vane tread" is distinguished by many thin rubber vanes or flutes, running longitudinally around the tire, Mr. Deaver says. "These soft, flexible vanes give rather than resist when the tire strikes an obstruction. Under breaking pressure, in emergency stops, the vanes squirm to form a serpentine pattern on the road surface and a squeeze action takes place which wipes the highway free of moisture to form a dry surface for adjacent vanes to cling to. Tests have shown that this tire will stop a car in a fraction of the time and distance required by any other tire and that it will stop a car, straight in its tracks, more quickly on a wet pavement than any other tire will stop it on a dry pavement."

## LOCAL QUINTETS ARE ELIMINATED IN SONS TOURNEY

(Continued from Page One.) when they mowed down the Butte Falls outfit 22-7. Yesterday afternoon Butte Falls had eliminated Williams, and Mer. Hill had taken the measure of Wilbur. Malin yesterday defeated Drain to move into the quarter finals against Phoenix after that team had dumped Arago.

Powers high yesterday eliminated Gardiner, 22-12, for the right to meet Jacksonville, which team had defeated Riddle, 24-22. Myrtle Creek, the other team which gained the semi-final round, defeated Glendale yesterday to win the right to meet Port Orford this morning, after Port Orford had put Riverton out of the running in a wild game which ended only after three overtime periods.

Last evening, fighting for the consolation prize, Reedsport cleaned Bonanza, 28-20, Sams Valley took the measure of Central Point, 22-7, and Prospect dropped Talent 23-7. Chiloquin moved into the fore by eliminating Silver Lake, 44-8, today. In consolation games this morning, Gold Hill dropped Williams 18-6, Paisley defeated Eagle Point 31-8, and Riddle walloped Camas Valley 35-9. Gold Hill and Reedsport were scheduled to tangle on the Junior high floor at 5:00 o'clock this afternoon in the race toward consolation honors. Two hours later, on the same floor, Sams Valley and Paisley were to clash.

Riddle and Prospect, winners to the quarter final consolation bracket, were signed to meet at 7:00 o'clock tonight at the Armory. Semi-finals in the consolation bracket are to be run off tomorrow morning, with the finals to serve as the preliminary to the main event appearance tomorrow night. The consolation game is to start Saturday night at 7:00, at the Junior high school.

## ANCIENT LAUNDRY EQUIPMENT WORTH MONEY AT BEANS

Jackson county housewives who have spent countless Mondays putting out the family washing with out-of-date washers and irons, now have a chance to win a share of the valuable prizes offered in the General Electric "Old Timer" Discovery Drive, sponsored in Medford by C. D. Bean, Incorporated, local General Electric dealer.

For the 25 oldest electric washers, ironers and hand-irons in the United States the awards will total \$1000, and someone in the Rogue River valley may very possibly be the owner of an old-time appliance which will win a cash prize, according to C. D. Bean.

The most antique electrical appliance to be discovered in Oregon will win for its owner a modern new General Electric machine. For the oldest appliance in Jackson county, C. D. Bean, Incorporated, will give a General Electric vacuum cleaner.

A dust-covered washing machine or rusty iron that has seen better days is eligible for entrance in the Old Timer Discovery Drive. A description of the appliance should be sent to C. D. Bean, Incorporated, as soon as possible so that an official check-up may be made, Mr. Bean stated today.

## MEDFORD TO JOIN IN COLLEGE MEET

It was indicated today that several city and Jackson County Chamber of Commerce officials would attend the annual commonwealth conference to be sponsored at Eugene by the University of Oregon March 19 to 21.

As in the past, Frank P. Farrell, city attorney, probably will present Medford at the legal conferences to be supervised by the League of Oregon Cities. Other city delegates may be appointed at the next council meeting March 17.

Among the topics to be discussed are community recreation, social security, rural land zoning, mining, stream purification, and education. Featured speakers at the meeting will be Governor Martin; Dr. F. M. Hunter, chancellor of higher education; Clifford W. Ham, director of the National Municipal association, Chicago; Mayor Joseph Carson, Portland; Emory Asbury, principal of Galt junior high school, Tacoma, an authority on social betterment, and a large number of others.

## Amateur Musician Winners Announced

Winners in the amateur musicians' contest last Saturday evening at the Baldwin Piano Shoppe were Hugh Scovell, Gretchen McAllister, Frankie Hinabarger. The contests are held every Saturday evening at 8 o'clock and entries are received from Medford and vicinity, including singers, instrumentalists, pianists and dancers.

Cash prizes are awarded each week.

## Rogue River

ROGUE RIVER, March 6.—(Spl.)—The Civic Improvement club of Rogue River will celebrate its 25th anniversary Monday, to which all members and ex-members are invited. This will be held at the community club house.

Mr. and Mrs. Robert Snyden from Riverside Cottage camp spent the week end at Bandon-by-the-Sea and report the weather over there to be lovely with flowers blooming.

Mr. and Mrs. Colson from Montana are occupying a cottage at Mr. Snyden's camp as are also our newly wedded couple, Mr. and Mrs. Burwell O'Reilly.

Bob White and family live at the Presbyterian manse but he still has charge of the stage business, though the buses stop at Snyden's camp now instead of the Rogue River auto camp as formerly. The south bound stages stop at 9 a. m. and 3:35 p. m., while the north bound stop at 9:33 a. m. and 2:28 p. m. to pick up passengers.

Ernest Reinken came very near getting hurt Saturday when dragging his field. His team bolted, jumped the fence and was off on a mad chase, dragging Mr. Reinken some feet. They ran until they finally fell from exhaustion.

Mrs. Ralston was a guest at Mrs. Barto's art class Tuesday.

Mr. and Mrs. Geo. Martin are building extensive quarters for chickens and turkeys at their home place on the highway.

## General Electric Declares Dividend

NEW YORK, March 6.—(AP)—Directors of General Electric Co. today declared a dividend of 25 cents a share on the common stock. Previously the dividend rate was 20 cents quarterly.

An increase in net income for 1935 to \$27,849,000 was reported. In the previous year net income was \$19,728,044.

## Inquest Ordered In Condon Tragedy

CONDON, Ore., March 6.—(AP)—The county coroner called an inquest today to determine who fired the shotgun that took the life of L. J. Lucas, manager of the Condon Grain Growers' Co-operative association.

He was found dead yesterday, a hole through his body. A shotgun lay six feet from him, alongside a short club.

## HARRY FOSTER, 31, HANGS SELF WITH LENGTH OF WIRE

(Continued from Page One)

he was apparently not in good health yesterday. Last night Foster took his family to the theater. Excusing himself, he left a note in the family auto asking his wife to take the machine home.

The coroner's office has not yet decided whether an autopsy will be performed. Funeral announcements will be made later.

Foster was a member of the Medford lodge, B. P. O. Elks, and was very well liked by hundreds of friends in the city.

He is survived by his wife and two children of Medford, one six years old and the other 14 months old, and by his parents, Mr. and Mrs. George Foster of Tacoma, Washington, in which city Foster himself lived before being transferred to this city by his firm.

The suicide was the second in nine days in this city, Harold A. Duffy,

## Blood In Snow Murder Evidence

DORCHESTER, N. B., March 6.—(AP)—Photographs of a snowdrift stained for "about six feet around" by the blood of Mrs. Marshall Ring,

were entered as exhibits today at the murder trial of youthful Arthur Bannister.

The pictures were submitted by two Royal Canadian mounted police constables who described the scene when they arrived last January 7 at Pacific Junction where Phillip Lake had been shot and left to die in his flaming cabin.

An Aroused Public cried, "STOP the mounting toll of skidding accidents!"  
**NEW!**  
A Tire that Stops any Car straight in its tracks... on any road, wet or dry!  
THE **GENERAL DUAL 10**  
does just that. We're ready to prove by actual demonstration that the dangerous skid swerve has been eliminated.  
• With the mounting toll of skidding accidents isn't it worth your time and money to investigate a tire so new in design that it ends the perilous skid swerve that costs so much today?  
When you look at the new Dual 10 tread you wonder why this unusual design has such amazing traction. Here's what happens. When you apply the brakes those magic ribbons of rubber squirm into a squeegee action that wipes the surface clean and dry and provides constant, unyielding traction.  
Because this flexible tread offers so little resistance to the road it wears more slowly than conventional designs. There is no cupping—the wear is slow and even. The exclusive features of General's patented low pressure construction have all been retained in the Dual 10. Stop by today and drive a car equipped with Dual 10s.  
Stopped! See how car has "nosed down"—the water being scooped up ahead of tires—leaving dry tracks that show clearly how the squeegee action of the tread wipes the pavement clean for constant unyielding traction.  
HERE'S WHAT HAPPENS WHEN YOU APPLY THE BRAKES  
Magic ribbons of rubber squirm into a squeegee-like action—wipe the surface clean and grip in every direction—provide constant, sure traction on any road, wet or dry.
